

### BIG PRIZES OFFERED IN ESSAY CONTEST

New York, Oct. 27.—J. A. Church, III, state superintendent of education, has been officially notified of the opening of the prize essay contest of the American Chemical Society in which all students of high and secondary schools in the state of Oregon have been invited to compete in a national contest for \$19,900 in cash prizes and scholarships to Yale, Vassar and other universities and colleges.

The contest which is the result of the gift of Mr. and Mrs. Francis P. Garvan of New York, is a memorial to their daughter, Patricia, and is intended to stimulate interest among high school students in the development of chemical science in this country. All arrangements for the contest are in the hands of the committee on prize essays of the American Chemical Society, with headquarters at the Munson building, New York City. Six prizes of \$20 in gold are to be awarded in each state in the Union and scholarships to Yale and Vassar will be given for the six best essays in the United States. These scholarships will carry with them tuition for four years in chemistry or chemical engineering and \$500 a year in cash. In addition to these awards many other scholarships will be offered through various universities and colleges. A set of five books which include Creative Chemistry by Slosson, The Riddle of the Rhine by Lefebvre, The Life of Science by Gregory, and the Future Independence and Progress of American Medicine in the Age of Chemistry by a committee of the American Chemical Society, is being sent from the New York headquarters to every accredited high and secondary school in the country, and sets of these reference books are being placed in the leading libraries of the state for the use of students who enter the competition.

The contest which has the endorsement of Dr. John J. Tigert, commissioner of education of the United States, is fully described in a pamphlet, which will be distributed through the high schools and the libraries. This pamphlet contains in addition to facsimile letters of endorsement from Dr. Tigert, and from Dr. E. C. Franklin, president of the American Chemical Society, a full outline of the terms and conditions of the contest together with the letter of gift of Mr. Garvan. The entire supervision of the contest and the award of the prizes has been left to the American Chemical Society by Mr. Garvan. H. E. Howe, editor of "Industrial and Engineering Chemistry," the official organ of the American Chemical Society, has been named as chairman of the committee; and he is assisted by Dr. Wilder D. Bancroft, professor of chemistry at Cornell University, one of the best known men in educational circles in this country and president of the American Chemical Society in 1910; by Dr. Charles H. Herty, president of the Synthetic Organic Manufacturers association and president of the American Chemical Society in 1915 and 1916, and by Alexander Williams, Jr. of New York, who is acting as secretary of the committee. It is the plan of the committee in charge to appoint a national committee of fifteen who will be chosen from all walks of life, from among the leading educators, scientists and public spirited men and women of the country. It will be the duty of this committee to judge the essays and to award the scholarships in the

### GEYSER DISLIKES SOAPSUDS

Ikey Gave a Dose to the Minute Man in Yellowstone, With Astonishing Results.

The Minute Man, a geyser in Yellowstone park, doesn't like soapsuds. Ikey Einstein may have suspected as much, but, if he did, he wasn't sure, and he wanted to find out. So Ikey says Mr. Lewis R. Freeman, cooked up a piece of laundry soap in a five-gallon oil can and poured the mess into the crater. "I saw him with an oil can fussing round in the vicinity of the crater," says Mr. Freeman. "Suddenly a succession of heavy reverberations shook the ground, and at the same instant Ikey started to run. He was just in time to avoid the deluge from a great gush of water and steam that shot a hundred feet into the air, but was not quick enough to escape the mountainous discharge of soapsuds that followed.

"Within a few seconds the five gallons of soft soap had been beaten to perhaps a million times its original volume, and for a hundred yards to beward it covered the ground in great white fluffy, iridescent heaps. Nothing was ever seen like the spluttering little Hebrew who finally pawed his way to air and sunshine from the outermost of the sparkling saponaceous hillocks. For a good half hour the Minute Man retched and coughed in desperate efforts to rid itself of the nauseous mess that Ikey had poured down its throat. Then its efforts became scattering and spasmodic and finally ceased. But for an hour longer gasps and gurgles rattled in its throat. At last even that sound ceased and deathlike silence fell upon the formation. It really seemed that the Minute Man would never spout again."—Youth's Companion.
