Screen shades and end doors may easily be installed. This new body, built of heavy sheet steel strongly reinforced and riveted, is designed to stand up under the most severe usage. **Good Words About**

**COFFEE**

The conclusions of a three-years investigation by Professor Prescott, of the Massachusetts Institute of Technology, are summed up as follows:

Coffee is an efficient, harmless stimulant

Its quality depends on how it is made

The professor says: "Coffee promotes heart action mildly, increases the power of concentration in mental effort and increases the power to do muscular work and is therefore an aid to sustained brain work. It has no depressive after effects and is not habit forming."

How's that for a "clean bill" for coffee?
