REPORT ON HEPPNER SPRAY ROAD RECEIVED

In company with George Bleakman, of Hardman, then county commissioner, Mr. Beezley went over the road in 1922 and the fact that his report has just been completed shows something of the deliberation with which the federal government moves in such matters. An interesting recommendation contained in the report is to the effect that in addition to the value of the road to the country through which it will pass it will also prove of great value as a connecting link in a direct road between Walla Walla, Washington, and Klamath Falls, Oregon, via Pendleton, Heppner, Mitchell, Prineville and Bend.

Good Words About COFFEE

The conclusions of a three-years investigation by Professor Prescott, of the Massachusetts Institute of Technology, are summed up as follows:

Coffee is an efficient, harmless stimulant

Its quality depends on how it is made

The professor says: "Coffee promotes heart action mildly, increases the power of concentration in mental effort and increases the power to do muscular work and is therefore an aid to sustained brain work. It has no depressive after effects and is not habit forming."

How's that for a "clean bill" for coffee?
