**Turns the Corners Without Tipping**

You can land the John Deere Steel Gang instantly; you can maintain full width cut on hillsides and around curves and corners, and you turn the corners without tipping. The landing lever is handy and control is easy. Furrow wheel is set well forward; the land wheel, well back—thus turning is made easy and the proper balance of the plow is maintained.

**John Deere Steel Gang**  
The Plow for This Section

Strongest plow of its type. Practically all steel. Beams are guaranteed not to bend or break. Heavy steel braces at front, middle and rear keep the plows rigidly in alignment. Great clearance—every one of our customers using this plow is especially pleased with its clearance advantages. Twenty-two inches under the beam; 24 inches between bottoms—no stubble is too heavy for the John Deere Steel Gang. Genuine John Deere steel or chilled bottoms, famous for good work and long wear. Quick detachable shares: Loosen one nut to remove share, tighten the same nut and share is on tight. Indestructible steel eveners. We can furnish this popular plow in two-bottom or three-bottom size. Seat and rear wheel furnished, if desired.

Be sure to come in and see the John Deere Steel Gang next time you are in town.

THE VILLAGE COMPLETE  
Stopping in a small town a traveling man said to a prospective customer:  
"It has been twenty years since I was here last. Many buildings gone up since then?"  
"No," replied the resident, "none that I know of."  
"Any gas or electric company here?"  
"No."  
"Planning for any?"  
"No."  
"Well," said the traveling man, "I've been all over this country, and this is the first town I have seen that is what you might call actually finished."
