

## Our Confidence Justified

If the name Eastman had not been behind them, we would have been afraid that there was something beside the price that was cheap, when the Brownie Cameras first came out. But they were made by Kodak workmen in Kodak factories. That was enough to satisfy us, and the results have more than justified our confidence.

### Helps A Judge in Bad Fix.

Justice Eli Cherry, of Gillis Mills, Tenn. was plainly worried. A bad sore on his leg had baffled several doctors and long resisted all remedies. "Though it was a cancer," he wrote, "at last I used Bucklin's Arnica salve, and was completely cured." Cures burns, boils, ulcers, bruises and piles. 25 cents at Slocum Drug Co.

Adam Knoblock was in town on Wednesday having just returned from a trip to McDuffey Springs. He took Mrs. Knoblock over last week where she will remain for six weeks or two months to treat for rheumatism. Adam says that part of Grant county is far behind this section this season. They have had a backward spring and it was a hard one on the sheepmen, many of them not making over 40 per cent at lambing.

### Oregon Equal Taxation League.

The Gazette Times is in receipt of a communication from the secretary of the Oregon Equal Taxation League, Mr. Chas. H. Shields, which sets forth the objects of that organization. The principal work before the League, of course, is the defeat of the single tax measure.

This League holds that private ownership in land is an important factor in social progress; it therefore opposes the single tax system, the ultimate end and object of which is the destruction of private property in land.

The League is now circulating an initiative and referendum petition for a bill which provides for restoring to the people of Oregon the rule of uniformity in taxation throughout the state, which rule was destroyed at the last general election by the adoption of the County Home Rule on taxation. Public speakers hired by the Joseph Fells Fund Commission (which Commission is furnishing the necessary funds to introduce the single tax in Oregon) have made the statement that the specific purpose of the County Home Rule on taxation was to allow experiments in single tax. The State Tax Commission (which Commission is furnishing the necessary funds to introduce the single tax in Oregon) have made the statement that the specific purpose of the County Home Rule on taxation was to allow experiments in single tax. The State Tax Commission (which Commission is furnishing the necessary funds to introduce the single tax in Oregon) have made the statement that the specific purpose of the County Home Rule on taxation was to allow experiments in single tax.

The citizens of Oregon are tired of this shifting and changing in tax laws. A law of one kind for this county, and a different law in the adjoining county, and so on, is extremely confusing and detrimental to the interests of the state. Investors should be able to look upon Oregon as a state with a reliable governing power. We have the greatest natural resources in the west, and could enjoy the greatest growth and development, and we will, if we will be conservative in our legislation.

Single tax has for its end state ownership of land. Under such a system land values must decline. No investor or promoter would buy land in any country when values are declining, and most especially where there is no hope of a renewal of values.

The Equal Taxation League have for distribution a book on the subject "Single Tax Exposed." Our people are interested in this subject and wish to study it, we therefore recommend that they get this book and read up. It will be an aid to you in settling how you should vote this fall on the single tax measure.

Judge Patterson, as secretary of the Boost Club, has been very busy for the past two months and a half. At the time he took charge of the work there was a large amount of accumulated correspondence on hand unanswered. The judge has cleaned this up and has distributed as much as 4000 peices of booster literature and answered no less than 500 personal letters in reply to special inquiries, and these have gone out to the four quarters of the inhabited globe. Our advertising matter is just now beginning to have effect and the work must be kept up. It requires funds to pay postage, salary and printing bills. Subscriptions to this fund to the amount of \$123 per month have been made but little of it collected. When the secretary calls on you be prepared to pay up, at least the three months now due, that the fund to carry on the publicity work shall be replenished, and then this money should be collected each month. Morrow county should be kept before the world as a good place for the homeseeker, and persistent advertising will do the work and bring the desired results.

### A Varied Entertainment.

The entertainment to be given under the direction of the Sisters of St. Benedict on Saturday next is a varied one, embracing recitations, fancy drills, songs and instrumental solos. During the past few weeks the Sisters have assiduously endeavored to mould the youthful Thespians into proper form for their debut into the glare of the footlights. Up to date those who consistently attended have shown promise of great skill and an enjoyable evening is anticipated.

The object of this entertainment is to give some little financial aid to the sisters while the erection of the hospital is pending. Furthermore to remind the citizens of Heppner that since the Sisters come so far to give their lives and service for the benefit of the people here, some means ought to be provided for their support in the interim. Therefore it is confidently hoped that all will liberally patronize the entertainment on Saturday evening, May the 18th, at the Club building.

The Columbia River fruit districts will score heavily this season. Cherry orchards around The Dalles will yield 1,400,000 pounds of fruit, which California cannery men are anxious to get at 4 cents per pound, meaning \$66,000 for the growers of that section. Hood River expects an apple crop well over 1,000,000 boxes that will be marketed throughout the world wherever prize fruit is in demand. Other districts report equally fine crop prospects.

Five thousand dollars for five bushels of wheat is the value of the prize offered by the Northwest Development League this year. This is the world's biggest prize for wheat and is said to be five times as much as was ever offered for any class of prize grain in the United States. The wheat is to be displayed at the Northwest Products Exposition, Minneapolis, Nov. 12-23. No entry fee will be charged. The prize consists of a traction engine and set of plows.
