### A TARNISHED HALO.

The Bull Moose party's platform plank "Thou shalt not steal" will be a tarnished halo in every state where an effort is made to induce republican electors to vote for the bolting third party's candidate. Such an attempt is not only a cold steal, but is a close approximation of subornation of perjury. It is merely offering inducements to regularly elected republican electors to break a pledge that has been held inviolate since the foundation of the American republic.

President Taft is the regularly chosen nominee of the republican party. He was chosen exactly as all other presidential candidates have been chosen. The charge of theft at Chicago convention were made for the specific purpose of furnishing excuse for third party in case Roosevelt failed to secure the nomination.

The executive committee of the Multnomah county central committee is asking of every candidate for office, including electors, whether he considers himself a republican, and whether he will uphold the regular action of the republican party. It announces that it will support all regular republicans, and will oppose all who are not. It is fully justified in its action, and the central committees of other counties should follow a similar course.

The candidate who condemns the republican party, and at the same time seeks to take advantage of a nomination secured at the hands of republicans is not a clean politician, and is not deserving of clean support. This is particularly true of electors, who are chosen for the express purpose of registering in the electoral college the will of their party. They are bound by a pledge that is unwritten, but that has always bound men of honor.

If any elector chosen at the republican primaries last spring feels that he cannot cast his vote for the choice of the republican party, he should resign. If he wishes to cast an electoral vote for the candidate of a third party, he can go before the "convention" that is to be held on August 5 and ask for another nomination.

No candidate who was chosen as a republican elector last spring can break his pledge to cast his vote for the republican nominee without tainting his political honor. His action would be in no essential way different from that of the state legislator who would break his Statement One pledge.—Eugene Register.

### What Is a Real Booster.

If you want to become a real booster in your community begin in a small way. Just do the little things you know should be done, and you will be surprised to see how quickly they will take root and grow into big things. We believe that more people would be boosters, real boosters, if they understood the word rightly. To be a real booster one must believe in oneself. Further, he must believe in his town, his community, the people about him and above everything else he must believe in the best and see the best in everything.

Do you know that we grow by actually doing something? Another thing we grow in the direction in which we act. If you are a builder by nature you will help build up your town. If you think in a constructive manner, it's a fact that others about you will begin to think and act the same way. So that your being a real booster actually creates other boosters. If a community of people all think one way, and that way is toward development, it is certain that community will grow. If you help others you help yourself. It's to your own interest that your town, the community in which you make your home, should be progressive. You are the man that reaps the results of your own boosting. Are you a real booster?—N. W. Farmstead.

The so-called Progressive newspapers that failed to get Bourne the nomination for Senator from Oregon are howling because Mr. Selling will not join the new party and support Roosevelt or tell them what he will do. These papers that profess to be progressive, and Republican, forget that in fighting Mr. Selling they are fighting the will of the people, whom they are so fond of, as Selling was the people's choice

last April. These sheets are not constant, as it would seem the direct primary is all right so long as their pet candidate gets the nomination, but when the wrong man is elected, then to hell with the primary. It is just the same with their boss the Bull Moose, so long as a Republican convention elected him it was all right but when Taft got the nomination it was all wrong. T. R. did not take his medicine like a man, which has lost him any chance he ever had of being president again.—Condon Times.

### Flying Men Fall

victims to stomach, liver and kidney troubles just like other people, with like results in loss of appetite, backache, nervousness, headache, and tired, listless run-down feeling. But there's no need to feel like that as T. D. Peebles, Henry, Tenn., proved. "Six bottles of Electric Bitters," he writes, "did more to give me new strength and good appetite than all other stomach remedies I used." So they help everybody. Its folly to suffer when this great remedy will help you from the first dose. Try it. Only 50c at Slocum Drug Co.
