A NEW INSTRUMENT

An attachment for hoe drills as illustrated here has two very valuable and important features which every progressive farmer will appreciate. It once. They are made to fit any hoe, are easily adjusted and answer the double purpose of regulating the depth of sowing and at the same time press the soil firmly around the grain thus insuring immediate germination. Splendid results are obtained from their use. Manufactured by

Pendleton Iron Works,
PENDLETON, OREGON

THINGS for the KITCHEN!

WHENEVER YOU NEED A CHURN OR ANYTHING FOR THE KITCHEN, COME STRAIGHT TO US AND YOU WILL FIND IT.

WE SEE THAT THE MATERIAL USED IN MAKING ALL OF OUR KITCHEN THINGS IS THE KIND THAT WILL LAST.

THE SCHOOL FAIR.

How about that school fair for Morrow county this fall? The time has arrived when something of a definite nature should be done if the plans of the Boost Club are to be realized. Nothing has been heard of recently that would indicate any life or interest in the matter and it would be well to find out early if anything is to be done or if this project is to be dropped by the wayside as other things have gone before.

It will be impossible to conduct such a fair before the opening of the state fair as that takes place from September 2 to 7, but for a beginning of that which may grow into a real live county fair in a few years a school fair should be held this fall at a time when children from all parts of the county could be present with their exhibits. Owing to the earlier schedule of the fairs in which Morrow county is directly concerned, it will be hard to find a date for a local fair previous to any of the larger ones. This leaves the question open as a matter of local interest but it is of such importance that something should be done right away.

Last spring the Boost Club took up the matter of having a school fair in Heppner this fall and went so far as to make up a list of prizes. The club agreed to raise the amount necessary to defray the expense that might accrue in conducting the fair and volunteered other material assistance. As far as can be learned the Boost Club has not burned much of the midnight oil on the subject since. Local business men will be willing to aid in the matter if they have the assurance that something worth while will be done, but if the fair is to be left to look after itself they will not feel much inclined to assist. Some good live hustling on the part of the club would awaken an interest in this matter and bring about an event that would be of genuine benefit to the county.

This is a very busy season in Morrow county and so far our people have had no time for anything but looking after their crops. We all rejoice in the fact that everybody is busy and hope that this condition may forever prevail, but this does not excuse us from taking an interest in other things. It should be an incentive for doing greater and better things. If the crops are good this year, why not strive to make them better next year. The boys and girls of today are the men and women of tomorrow. The knowledge they gather today will be passed on to their children of the tomorrow. If conditions are to improve as time goes on the advantages and privileges of the children of the present age must be extended and broadened. It costs but little more to give them the best and in the long run the best is the cheapest.

For the past several years Morrow county has been placing an exhibit in the Morrow-Umatilla fair at Pendleton, where thousands of outside people have had the privilege of looking them over, but the number of Morrow county people who have seen these exhibits each year is comparatively small. Does this not bring forth some argument in favor of a local fair? Should not the people here have the opportunity of seeing what can be raised at home? A better understanding of local conditions is needed by the people themselves before they can successfully advertise the county on the outside. A good way to start this move is to encourage the school children in taking up the industrial side of their education and the school fair is the most practical incentive to be offered.

It will be a pleasure to record the fact next week that the fair is a go. The Boost Club will find this kind of work to be good healthy exercise and when they have worked up the fair and carried it to a successful close they will find themselves in good trim for a heavy campaign of development work which must be done before efficient advertising can be accomplished.

LET US WAKE UP.

The erecting of a new school building in Heppner should be the keynote for bigger and better things in the town during the next few years. This is a good start in the direction of general improvement work and the citizens of the town should not stop until the whole place has been "worked over" to some extent. No one can deny that the town needs improving. A blind man could tell you the condition of the walks and some of the streets, and that which is evident to a blind man must present a sorry spectacle to one who can see. It is not the purpose of the Gazette-Times to criticize the town or kick any of its people, but something has to be said to stir things up once in a while and the newspaper is about as good a medium for that kind of work as anything we know of. There is much work to be done in order to make our town what it should be and it is about time to come out of our peaceful slumbers and get busy. A few good public minded citizens have been trying to carry along the work of boosting the town for several years and although they have worked faithfully they have been unable to accomplish much from the fact that too many of the citizens have stood back and said "Let George do it," and George has had more than he could do. Boosting can not be carried on by a few, no matter how zealously they may work. There must be leaders to guide the work in hand, but the leaders can not pull the whole load. They must have the support of every citizen of the town if they will do anything worth while. If you like the place well enough to live here and make money, why not try to induce others to come here. If you are living here and nothing about the place suits you, keep your counsel to yourself and quietly pack your grip and move to some other more desirable location. The trouble may not be with either you or the town in particular but that you are not in harmony with conditions here. But don't knock. Knocking never did hurt anything or anybody worse than the knocker himself. It is unhealthy and unprofitable. Study your condition and that of your town and see if the appearance of the town has not been influenced more or less by your actions. If the walk in front of your place is in a bad condition, who is responsible for it? If the street on which you live needs improving who should urge that the work be done? It will not be the residents of other streets. The progress of the town is marked by the progressive spirit of its citizens, so if your town is not growing and improving don't blame anybody but yourself.

Some one has suggested the idea of having a dramatic club in Heppner this winter. This is a good idea. If you have some good suggestions to offer in that line, drop in and let us hear them. The G.-T. is glad to foster anything that has a tendency to put a little ginger into the social life of the town.

Don't overlook the school fair. That means the encouragement of better school life in the county. Better schools means better citizens and a better country.

A vast amount of ill health is due to impaired digestion. When the stomach fails to perform its functions properly the whole system becomes deranged. A few doses of Chamberlain's Tablets is all you need. They will strengthen your digestion, invigorate your liver, and regulate your bowels, entirely doing away with that miserable feeling due to faulty digestion. Try it. Many others have been permanently cured—why not you? For sale by Patterson & Son.

Oregon Agricultural College.

This great institution opens its doors for the fall semester on September 20th. Flying Men Fall

victims to stomach, liver and kidney troubles just like other people, with like results in loss of appetite, backache, nervousness, headache, and tired, listless run-down feeling. But there's no need to feel like that as T. D. Peables, Henry, Tenn., proved. "Six bottles of Electric Bitters," he writes, "did more to give me new strength and good appetite than all other stomach remedies I used." So they help everybody. Its folly to suffer when this great remedy will help you from the first dose. Try it. Only 50c at Slocum Drug Co.

No Wonder

That Friedrich The Tailor is busy even this dull season. Of course he is turning out the best made and shape-retaining clothes for less money than any other concern. tf.

FOR SALE—Two mares, an organ and a carpet. For further particulars, call or address this office.

Farmers Attention.

I will represent the Pacific Coast Elevator Co on the Heppner branch this season. Please notify me when you are ready to sell your grain. If you haul to lone see J. A. Waters. C. R. JOHNSON, Heppner, Oregon.
