Our flour is made exclusively from selected Morrow County Bluestem Wheat.

**Seed Grain, Rolled Feed,
Alfalfa Seed.**

We Solicit the Storage of your Wool
**MORROW WAREHOUSE
MILLING CO.**

Merchant Tailor-made Suits are
the Most
Economical

It has been claimed that ready-made clothes are cheapest because they are made in quantities. This is not true.

If the manufacturer could have people come to his factory and buy there, he could not even then give good value because of the poor quality of material and inferior workmanship.

To the original cost of the garment, the manufacturer must pay traveling salesman's expenses and the retailer adds another profit of about 40 per cent.

The original "quality price" is thereby lost and the price is higher than that of a carefully merchant tailored suit made here.

There are a great many men in this town who are proud to say we make their clothes.
THEY KNOW WHY

I have the exclusive agency in Morrow county for the Famous Detmer Woolen Co.'s guaranteed all pure wool.

**FREIDRICH
The Best Tailor**

Pleasantly Surprised.

A very pleasant surprise was worked on Prof. D. V. S. Reid and family on Friday evening by the members of the Christian church. Prof. Reid and family will take their departure for Lebanon, Oregon, on to-morrow, going to the Valley by team. They expect to make their permanent home near Lebanon on a part of the farm formerly owned by Mrs. Reid's parents. The church people called on them about 8 o'clock in the evening, unbidden, but just as welcome, nevertheless and a very pleasant evening was spent. Mrs. Reid was presented with a beautiful silver table piece, a gift of remembrance to her from the Ladies' Aid Society of the church which she has served so long and faithfully as president. Refreshments of punch and cake were served by the ladies, and Mr. and Mrs. Reid and daughter Ethel were offered the best wishes of all present for their future welfare. These good people leave behind them many warm friends in Heppner who regret very much to have them leave, but who extend to them the hope of prosperity and contentment in their new home.

Foot Badly Cut.

Young Edward Notson is now confined to his home in Heppner and nursing a badly cut foot. The accident happened to him on Friday evening at the swimming hole on Willow creek where he was swimming with a couple of other boys, Kenneth Binns and Brownell Pratt. The boys were riding a raft and Edward made a jump into the water, landing on the ragged edge of a broken bottle. A nasty wound was made in his foot and the main artery was severed. His companions twisted a handkerchief around the foot above the wound and succeeded in stopping the flow of blood, and brought the injured boy home as rapidly as possible. A physician was called and took the boy to the hospital where his wound was dressed and stitched up. In cleaning out the wound, two pieces of the broken bottle were removed from between the bones of the foot, and an examination showed that the member was practically cut from bottom to top.

The Men Who Succeed

as heads of great enterprises are men of great energy. Success, today, demands health. To all is to fail, its utter folly for a man to endure a weak, run-down, half alive condition when Electric Bitters will put him right on his feet in short order.

"Four bottles did me more real good than any other medicine I ever took," writes Chas. B. Allen, Sylvania, Ga. "After years of suffering with rheumatism, liver trouble, stomach disorders and deranged kidneys, I am again, thanks to Electric Bitters, sound and well." Try them. Only 50 cents at Slocum Drug Co.

Residence Burned.

The home of J. T. Ayers, of Pine City, was destroyed by fire on Friday morning. In the absence of the parents at Heppner, the children were taking care of the place. They started the fire in the kitchen range to get the breakfast, and shortly after this the entire upper part of the house between the ceiling and the roof was discovered to be on fire. Before much could be saved, the entire house was ablaze, and but little of the contents were saved. We did not learn whether Mr. Ayers had insurance. Mrs. Ayres has been confined in the hospital with an attack of typhoid, and is still very sick, and in consequence of this she has not been informed of the misfortune at home. She is reported to be getting better, but very slowly.

Brother Dies.

Alex Cornett was the recipient of the sad intelligence on Friday evening announcing the death of his brother, J. W. Cornett, at his home in Butte, Montana. Alex departed at once for Butte to attend the funeral. The news came as a severe shock to Mr. Cornett for he did not know that his brother was sick. It has been 25 years since the brothers parted. They came to the West together from their home in Virginia and worked on the railroad at Walla Walla. When through this work, J. W. went to Butte and Alex came to Heppner, and they had not seen each other since.

F. N. Frye suffered the loss the past week of one of his heavy draft horses. The animal was sick about a week and finally died of something resembling blood poisoning. She was a splendid animal and Frye will have a hard time getting another to take her place.

Special Rates to Pendleton Round-up.

Both the O. W. R. & N. and the Northern Pacific have announced special round-trip rates of one and a third from all stations in Oregon, Washington and Idaho and some in Montana to Pendleton during the three days of the Roundup, Sept. 26, 27 and 28. Both companies are also arranging special trains from various points and, in anticipation, are providing additional tracking in Pendleton and other preparations are under way to transport and accommodate thousands of visitors to the local show.

No other event in the northwest is given as much advertisement and publicity by the railroad companies as is the Round-up. This year each company has already had printed several thousand folders, descriptive of the Round-up and are circulating them wherever their lines run. Also they have sent out many thousand posters announcing the event, time and place.

Something Doing.

While branding horses out at his place on Butter creek one day the past week Jake Pearson was quite severely kicked by one of the animals. The boys were doing the work and one of them, having received a jolt from the heels of the horse, Jake stepped in to show the boys how to do it; he got his, also, and with sufficient force that he was laid out for the time being. No serious damage was done his anatomy, however, and he is about again as usual. It seemed to be a day of ill luck for the whole family. The same day George was riding a horse that fell on him, and Wiley, another son, fell down and had his nose stepped on by another horse. The net results were no bones broken, and all parties are able to hobble around again. The next time they have horses to brand they will "Let George do it."

Pushing the Work.

Work of excavating for the new school building is going on rapidly, and the dirt should soon be removed so that work can begin on the foundation. It was thought at first that bedrock would be encountered at about 14 inches under the surface but this has not proven to be true, and the required amount of soil will doubtless be removed without striking bedrock at all.

Married.

In this city, August, 31, at the residence of the officiating minister, Rev. J. V. Crawford, Mr. Alfred H. Nelson and Bertha V. Morgan, both of Morrow county.

Uncle Ezra Says

"It don't take more'n a gill uv effort to get folks into a peck of trouble" and a little neglect of constipation, biliousness, indigestion or other liver derangement will do the same. If ailing take Dr. King's New Life Pills for quick results. Easy, safe, sure, and only 25 cents a Slocum Drug Co.

W. W. Becholdt came down from Hardman on Monday evening to get sacks for his wheat harvest. Threshing has been delayed some in his locality and heading is not all done yet. A few weeks of favorable weather, however, and the grain up that way will all be in the sack. Mr. Becholdt states that they are turning out a lot of good wheat and the farmers are quite well pleased with the results so far.

Mr. and Mrs. W. J. Wattenburger, of Echo, were visitors in Heppner on Friday and Saturday, coming over in their auto. Mr. Wattenburger came over to visit his sister, Mrs. J. T. Ayers, who is sick at the Heppner Sanatorium. He is now living on a nice little five-acre home just out of Echo, and says that a "farm" of this size gives him about all the work he is looking for. He rents his farm on Butter creek and does not visit Heppner as often as of yore but is nevertheless glad to get over this way once in a while and greet old friends.

Carl Rhea, of the First National, accompanied by Miss Mabel Cameron, spent Sunday at the farm of E. W. Rhea, near Heppner, where they enjoyed big feasts of watermelon. Waldron raised an abundance of melons this year and they are very fine, so we are told. This section of country will soon be a veritable garden spot; many new fruit trees are just coming into bearing and there are a great many vineyards planted that are bearing luscious fruit this season.
