## HAPPY WOMEN

Plenty of them in Heppner, and  
Good Reason for It.

Wouldn't any woman be happy,  
after years of backache suffering,  
days of misery, nights of unrest,  
the distress of urinary troubles,  
when she finds freedom. Many  
readers will profit by the following:  
Mrs. Victor Groshens, Heppner,  
Oregon, says: "I first learned of  
Doan's Kidney Pills when living in  
Pendleton about six years ago. For  
a long time my back ached constantly  
and I was induced to try Doan's  
Kidney Pills by reading of them in  
the newspapers. The contents of  
two boxes drove the backache away."

"When Your Back is Lame—Re-  
member the Name." Don't simply  
ask for a kidney remedy—ask dis-  
tinctly for Doan's Kidney Pills,  
the same that Mrs. Groshens had—  
the remedy backed by home testi-  
mony. 50c. all stores. Foster-

Each and Every One a Speed Shell

The speed that breaks your targets nearer the  
trap. That's why Remington-UMC Steel Lined  
Shells have won 13 out of the 15 Handicaps held in  
the last three years.

The speed that gets that mile-a-minute "duck" with a shorter  
lead—that's why it takes over 50,000 dealers to handle the demand  
for Remington-UMC Steel Lined Shells.

The Shooting fraternity are speed wise. They know loose  
smokeless powder won't drive shot. They know that the drive  
depends on the compression.

The powder charge in Remington-UMC shells is gripped in  
steel. This lining is designed to give the exact compression  
necessary to send the load to the mark quickest. It insures  
speed—the same speed in every shell.

The steel lining is moisture proof—no dampness can get through.  
Jar proof—no powder can get out. Waste proof—no energy is lost.

A NEW INSTRUMENT

An attachment for hoe drills as illustrated here  
has two very valuable and important features  
which every progressive farmer will appreciate.  
One, they are made to fit any hoe, are easily  
adjusted and answer the double purpose of regu-  
lating the depth of sowing and at the same time  
press the soil firmly around the grain thus insur-  
ing immediate germination.  
Splendid results are obtained from their use.
