A storm of wind, hail and rain visited portions of Morrow county on Saturday afternoon. At Heppner there was a heavy rain for a few minutes that wet everything in good shape, but it soon passed over. On Eight Mile, below the Allstott place and extending a few miles north there was heavy rain and waterspouts; roads were washed out, a good many gardens destroyed and hundreds of young chickens drowned. South of Lone and extending over much of the same territory embraced in the big hail storm of a year ago, it hailed heavy and much damage to growing crops is reported. To the north of Lexington a good rain fell and the people residing as far north as the mouth of Sand Hollow were made to rejoice because of the downpour. The weather has been much cooler since and crops have been greatly benefitted, aside from those hit by the hail.

A fire at Shaniko last Thursday night destroyed the O.-W. R. & N. round house, two locomotives and the machinery in the house used for repairing. The probable cause of the fire was the low pressure of steam in the engines, causing an improper spraying of fuel oil into the fire-box, and the burning oil running out on the floor ignited the oil in the tank on the engine, says the Shaniko Star.
