### Your confidence is what Studebaker seeks to keep

Possessing this confidence, we have never tried to produce a cheap wagon. We could, but we don't dare try the experiment. Our constant aim has been to produce the best wagon.

And in living up to this highest standard, we have won and hold—the confidence and good-will of hundreds of thousands of farmers all over the world.

Studebaker wagons are built to last, to do a day's work every day, to stand up under stress and strain and to make the name Studebaker stand for all that is best in vehicles.

Don't accept any other wagon represented to be just as good as a Studebaker. The substitute may be cheaper, but it isn't up to Studebaker standards, and you can't afford to buy it.

For business or pleasure, there is a Studebaker vehicle suited to your requirements. Farm wagons, trucks, business wagons, surreys, buggies, runabouts, pony carriages—each the best of its kind. Harness also—of the same high Studebaker standard.

## HOT LAKE HAS CHANGED HANDS

Dr. G. W. Tape, Its Former Manager, Now in Charge.

Hot Lake in Union County, one of the favorite resorts of Eastern Oregon, and renowned for the healing qualities of its waters, has recently changed management. A syndicate assumed control on Monday, June 16th, and Dr. G. W. Tape, who was formerly in charge, again assumes the position of manager. Since leaving Hot Lake in 1904, he has had charge of Arrowhead Springs in Southern California, but was induced to return to Oregon. The entire institution will be renovated, necessary alterations made, and especial attention paid to those who desire to avail themselves of the waters. There medicinal value has been thoroughly established. Those who are not afflicted with any ailment, but who simply desire to rest and enjoy the freedom of country life, will find the hotel a desirable place. The rooms are large with all modern conveniences, the grill supplied with the best in the market. There is a large lobby with glass-enclosed porch, billiard and pool tables, card rooms and large dancing hall. No bar is maintained and no liquor sold on the premises.

Hot Lake is situated directly on the main line of the O-W. R. & N. in Union County. It is easy of access and in addition to the excellent waters and the comforts of the hotel offers such sports as hunting and fishing to those who care to go afield or follow a stream.

Under the new management, Hot Lake will at once become as popular as formerly with the people who read treatment for some ailment and with those who simply want a place to rest from their business or household duties.

## Oregon Bankers Will Regulate Fraudulent Land Dealers.

That would-be settlers coming to Oregon have, in many instances, been victimized by unscrupulous land speculators and that the state as a whole has been injured by their operation, is a statement made at the annual convention of Oregon bankers recently at Corvallis and the attending delegates expressed a determination to cooperate with the commercial bodies throughout the state in an effort to put greedy real estate men out of business. The plan does not contemplate the entire elimination of land selling agencies, but does propose to annihilate the sharks who have been speculating in good Oregon soil taking it out of production and holding it for an unreasonable increase in price.

It was decided to form an appraisal committee in each community to pass on the prices of lands, the committee to consist of two members of the local commercial body and the banker, and intending purchasers will be advised to purchase no real estate from any dealer until the value of same has been passed upon by the appraisers and the price asked decided to be a reasonable one. It was stated as a fact that much of the agricultural land in Oregon is held at too high a figure. There is doubtless plenty of good land which can be obtained at a fair price but the newcomer, usually unfamiliar with local values and conditions, seldom hears of that land. The committee will see that he gets a square deal.

Oregon is likely to become the center of a great fishing industry within the near future if the investigations of the Government confirms the report of extensive halibut banks off the coast of Lincoln county. A large number of launches are now being fitted out at Newport on Yaquina Bay for the purpose of exploiting these recently discovered banks, and those which have already started operations are returning to port with capacity loads of splendid fish. The extent of the banks is stated to be sufficient to supply the Pacific Northwest with fish for years to come.

Under a joint agreement of the Southern Pacific and Santa Fe railroads it is announced that a new railroad will be built along the Oregon coast, construction to begin at the present northern terminus of the Northwestern Pacific line at Sherwood, Cal. The road will be built up the coast to Myrtle Point in Coos County and will then proceed up the valley of the Rogue River, connecting with the Southern Pacific main line at Grants Pass. It is stated that work will begin this present summer.

To the Pacific Northwest goes the honor of providing a man to head the American Association of Nurserymen for the coming year. The convention of the association held in Portland last week was the first meeting of the organization ever held west of the Rocky Mountains and at its final business session Friday morning J. B. Pilkington of Portland was unanimously elected president.
