Better than Spanking

Spanking will not cure children of wetting the bed, because it is not a habit but a dangerous disease. The C. H. Rowan Drug Co., Dept. 1471, Chicago, Ill., have discovered a strictly harmless remedy for this distressing disease and to make known its merits they will send a 50c package securely wrapped and prepaid Absolutely Free to any reader of The Gazette-Times. This remedy also cures frequent desires to urinate and inability to control urine during the night or day in young or old. The C. H. Rowan Drug Co. is an Old Reliable House; write to them today for the free medicine. Cure the afflicted members of your family, then tell your neighbors and friends about this remedy.

Heppner Witnesses.

The Names of Heppner Persons Familiar to All.

Who are the witnesses?

They are Heppner people—

Residents of Heppner, who have had kidney backache, kidney ills, bladder ills; who have used Doan's Kidney Pills. These witnesses endorse Doan's.

One Hepuner resident who speaks is E. L. Berry, of Main St.

Says Mr. Berry: "My kidneys were weak and my back was so painful that I was obliged to walk all stooped over. One box of Doan's Kidney Pills made a cure. During the past few years there has been no sign of the trouble."

If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr Berry had—the remedy backed by home testimony. 50c all stores. Foster Milburn Co., Props., Buffalo, N. Y.

IONE.

The Rev. Van Slyke held services at Walker's hall both morning and evening last Sunday.

Joe Stringer and wife were Heppner visitors last week, staying at the County seat over Friday night.

Bishop Paddock of Hood River was an Ione visitor last week, visiting with several friends while here.

A. E. Johnson, one of our Portland lawyers came up to Ione last week to see how his wife and son were getting along.

Bert Wood's two sisters and a niece of Portland came in to Ione last week and Bert is having a jolly good visit with these people.

Mrs.. L. E. Ward of Portland, formerly of Ione is visiting with her several friends here in Ione Her daughter, Ione is here with her mother.

George Rithie and wife were presented with a fine girl last week. Mother and babe getting along fine, George is now considered out of danger.

Tilman Hogue was pretty badly hurt last week by being run over by a horse. It is pretty hard to kill a good man, so Tilman is still in the ring.

Shorty Calkins is sporting the star these days; he is or new marshal. While he is not very long, and mighty short, look out for him boys as he is very wide out.

Mr. N. P. Peterson, one of our last year's wheat buyers was an Ione caller last week. We understand that Bennie Morgan has been appointed to buy wheat for Mr. Peterson's company.

Everybody is so tired, oh my so awful tired after all the good times during celebration week. But I guess we will get over it as it only comes once a year and lasts day and night while it is here.

D. H. Grabill letf Ione last week for California where he will visit with the wife and children of his son Jim who was killed down there in a street car wreck a short time ago. Mr. Grabill will possibly bring his grand children back with him.

It was quite a shock to the whole community on hearing of the sudden death of R. W. Robison. Mr. Robison got his groceries at the Walker store about 4:30 in the evening and was jolly and jovial as usual. He then started home. It seems that when he got directly in front of Alex Lindsay's house about two miles above Ione, his team from no apparent reason began kicking, and whether Mr. Robison was thrown out or tried to jump out we did not learn, but on hitting the ground he struck a rock with his head, killing him. It is sad to have such men as Mr. Robison taken away from amongst us. Our sincerest sympathy goes to his bereaved family.

THE DEMONSTRATION WEEDER.

Although the demonstration weeder has only been out among the farmers a little over a week, it is giving excellent satisfaction. One of our Gooseberry farmers visited the field where the weeder is at work the other day and left his order with the demonstrator for one thousand weeders. He more than pleased with the work this weeder is doing. This looks like a very large order to the demonstrator, but all this country around Ione could use thousands of these weeders, but Mr. Farmer kindly give the demonstrator a chance. Although these weeders are made in Oregon the Government patent will only allow them made at a certain time of the year. All are cordially invited to see this weeder at work on the L. L. McMurray ranch on Rhea Creek.

LEXINGTON ITEMS.

Mrs. Flint is entertaining her mother and sister from Salem.

Not much news this week, only harvesters coming and some going.

Mr. and Mrs Long from the Valley are at work on the Stauffer ranch.

Mrs. Breshears is entertaining her mother, Mrs. Wright of Portland.

Mr. and Mrs. Galey Johnson are visiting at the home of Jim Stockard.

Mrs. Ida Burchell and daughter Hulda returned from a six weeks sojourn in Portland last Monday.

Mr. Sullivan was the only person who took advantage of the special to Condon on Sunday from Lexington.

About 58 people went from Lexington on the train to Ione on the Fourth returning on the late train that night.

Mrs. Ashenhurst and daughter Addie were in town Monday getting harvest supplies from our local stores.

Mr. and Mrs. Sauer of Portland, who have been visiting with the Joe Eskelson family, returned to their home in Portland Sunday.

Mark Hendrix, who has been quite ill at the home of Ed. Burchell for some time past with typhoid fever has so far recovered that he was able to leave for a visit to Portland Sunday.

HARDMAN

Omar Stanton went to Heppner Monday after his combine.

Charley Ward is still improving under the care of Dr. Gaunt.

There is not much to write about this week. Maybe after every one is rested up from celebrating we can find more news

The largest crowd ever seen at the I. O. O. F. cemetery assembled there Sunday to attend the funeral of R. W. Robison of Eight Mile.

Several families from Hardman went to Ditch creek the fourth in a body and came back minus one horse. We did not learn the particulars.

Well the Fourth is over and no one is hurt. Everything was quiet here as nearly everybody was out of town. Several went to Ione, some to Lone Rock and some went fishing.

The Odd Fellows installed their officers Saturday night. The following were placed in office: Dr. G. G. Gaunt, N. G.; R. W. Burnside, V. G.; M. A. Bates, Secty.; and O. L. Bates, treasurer. The attendance was small but all enjoyed themselves.

General Meade.

Meade was a plain man, a quiet man: seeing him in private life, you would never have taken him for a soldier. He dealt little in the fuss and show of war, little in words, wrote no magniloquent despatches. The last thing he talked of was himself, and therefore, after the great struggle was over, others got much credit that should have been his. But he was a thinker; he believed that battles depended more on brains that on sabres; he thought out his strategy to the end, yet was quick also to meet an emergency that disarranged his thinking. Above all, he should be forever honored for the circumstances under which he fought Gettysburg. To take a beaten army from a beaten commander, and at three days' notice fight a battle against troops like Lee's under a general like Lee was as hard a task as was ever imposed on mortal man in this fighting world. Meade accepted it without a murmur, and saved a nation. Yet some grumble because he did not do more.—Gamaliel Bradford, Jr., in The Youth's Companion.

Fresh Jerseys heifers. See W. O. Minor or R. A. Thompson. j19-1m.

For Rent—Five-room cottage furnished throughout. Inquire at this office. tf.

Highest cash prices paid for dry hides and pelts by the Morrow Warehouse Milling Co. tf.

More autos destroyed by fire than any other way. Protect yours by getting a policy of Smead. None as cheap. None better.

White Star Flour: Nothing better on the Pacific Coast.; Every sack guaranteed; Insist on your grocer sending this brand and take no other. tf.

Harry Johnson is prepared to do all kinds of work in the line of carpentering. Contracting, building and job work. Give him a chance to figure with you. tf.

NOTICE to all Fruit Growers and Dealers—No scaly or wormy fruit will be permitted in any market in Morrow county.

HARRY CUMMINGS,
Fruit Inspector of Morrow County

For Sale or Trade.

Will sacrifice my six-room, modern house, corner lot 52 x 108, cement sidewalk and curb, in Vancouver, Wash. This is close in on one of the main business streets. Will sell for cash or trade for stock. For further particulars see owner, A. W. Johnson, 2½ miles south of Heppner.

More Gold Found in California-Laborers Work Overtime.

Gold, real yellow gold, pay dirt, like that which set the fortyniners wild with excitement, has been found in the Southern Pacific gravel pit at Cordova, California. And the men on the job have lost no time in using their spare hours to annex snug little sums to their regular wages.

The fun began when the huge steam shovel ran into an old river channel. The Southern Pacific gets its mterial for ballasting the right of way at Cordova, and loads the gravel into freight cars with a steam shovel. One day, as the bucket tipped over with its load, a workman saw something glint in the sunshine. He passed the word along to his fellows, and since then every pick and shovel and pan in the neighborhood has been pressed into service, until the place looks like a pioneer mining camp.

Cordova is in the heart of the gold dredger region, near Folsom. Years ago, the surface was scratched by placer miners and washed with hydraulic jets. Then it was abandoned because there were more attractive fields elsewhere. With the invention of dredgers, that could work cheaply and profitably for a small proporion of mineral, attention was again directed to the district. In 1912, in all the dredger fields of the State, something like $8,000,000 was extraced. The industry flourishes around Folsom and Ovroville and in Trinity and Shasta counties.

The railroad company is not objecting to its employes getting their share of this richness and it is said that jobs in the steam shovel gang are now at a premium. Only, T. H. Williams, assistant division superintendent of the Southern Pacific, couldn't understand for a long time what made his men so unusually industrious, especially after work when they were supposed to be so tired and worn out.

M. H. Houser of Portland Is Largest Individual Grain Buyer.

One man, M. H. Houser of Portland handled one eighth of all the wheat raised in the Northwest last year, which entitles him as the largest exporter of wheat in the United States. The amount of business which he handled amounted to $8,000,000. He has handled about 7,000,000 bushels of wheat the past yera, his exports alone placing him at the head of American exporters, while only a few firms in other parts of the world have done a larger grain business. Only five firms that are shippers of grain in foreign counutries have done a larger business and he has been surpassed in this country by none.

Eighty Tons of Cherries From Four Acres.

Our old friend Nunamaker, of Hood River is producing a crop of cherries this season that is a bumper, according to the following from the Hood River Glacier:

Cherries of all colors, sizes and varieties may be seen by the visitor to the four-acre cherry orchard of J. R. Nunamaker in the Belmont district. Royal Anne trees are bending beneath the burden of great luscious, red flushed specimens of fruit, while the boughs of Black Republicans, Lamberts and Bings are thickly set with dark red masses, now turning black. The orchard contains a few pie cherries of different varieties, and on some of the trees, where two varities have been grafted, a deep black cherry may be seen ripening beside the red cheek of a Royal Anne. Mr. Nunamaker's crop is estimated at 80 tons. The fruit being brought into the Union warehouses of the Apple Growers Association, having been sold already.

A visit to the Nunamaker place gives one an opportunity to see that the district here can not only produce an extra fancy apple but that the small fruits reach perfection. It is estimated that the cherry crop will return its owner more the $2500 net this season.

The Nunamaker home, guarded by tall poplars, forms one of the oldest orchards of the Belmont district. It was formerly owned by G. D. Woodworth. The tents and equipment of many pickers gives a picturesque appearance to a grove of small oaks at one end of the orchard.

Stanfield Standard—It is with deep regret that we learn of the contemplated removal from our city of Dr. Alexander Reid to Pilot Rock. Dr. Reid is a capable and skillful physician and a gentleman. He is one of our leading citizens and has been a member of the city council nearly all the time since the city was incorporated. Mrs. Reid is a member of several of the ladies organizations and clubs and universally admired and esteemed. They expect to remove next week.

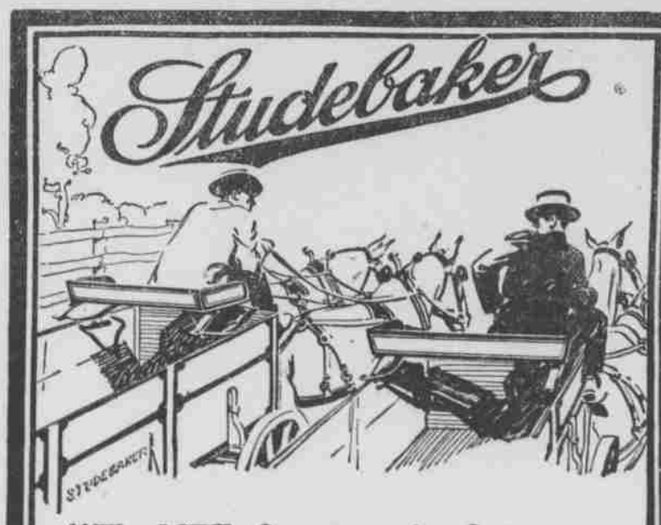
Studebaker



"The LIFE of a wagon is what counts —that's why I buy a Studebaker"

"That's reasonable, isn't it?"

"A wagon that doesn't last is expensive no matter what price you pay for it."

"Suppose you buy three wagons, one after the other, and the three of them don't last as long as one Studebaker—which is the best bargain?"

"I didn't find this out myself. I heard my grandfather say it a good many years ago. He said he had proved that it paid to buy a Studebaker. I followed his advice to my own satisfaction."

"A wagon can't have life in it unless it has the material and work and finish in it. The Studebaker people have been making vehicles for sixty years. They ought to know how to make wagons right—and they do. They have the reputation because they've produced the goods. They don't put the name Studebaker on until the wagon's *right*, and when you see the name Studebaker on a vehicle of any kind it is your insurance of quality."

"That's why I buy a Studebaker. I trust a Studebaker wagon because I trust the people that make them. It's good business."

"A Studebaker promise is always made good."
