Paint Keeps the Home Bright

A LITTLE paint here, a touch of enamel there, a brushful of varnish yonder—everyone can see a dozen or more such opportunities for brightening and beautifying the home.

Perhaps it's the outside of the house that needs protection from the ravages of the weather; perhaps it's a chair, or dresser, the floor or woodwork that has become worn and shabby, or perhaps it's the family carriage, the farm wagon or the lawn swing that has ceased to be a source of pride.

Case Furniture Company, Heppner.

No matter what it is that has become marred and unsightly from age and wear, there's an Acme Quality paint, enamel, stain or varnish that will exactly fit the need. We are agents in this vicinity for

ACME QUALITY PAINTS AND FINISHES

—the most scientifically prepared, the most satisfactory in appearance and wear, made in the largest paint and varnish plant in the world. Simply tell us what you want to do, ask for the proper Acme Quality goods for that purpose and you are sure to get the best that can be made.

The Acme Quality Painting Guide Book tells what Acme Quality Paint, Enamel, Stain, Varnish or Finish to use, how much will be required and how it should be put on. It not only enables you to tell your painter or decorator exactly what you want, but makes it easy for you to refinish the many surfaces about the home that do not require the skill of the expert—the jobs that a painter would not bother with. Ask us for a copy. It's Free.
