Then there is Gene Stratton Porter, whose stories of indian woods and swamps have made her famous, and Kate Douglas Wiggin, who never wrote a dull line in her life, and Mrs. Burton Harrison, who remembers when conversation was really an art as practised in Washington and in the manor houses of Virginia. And this is just a beginning of the list.

If you know The Companion, you have a pretty clear idea of what is in store for next year's readers. If you do not know, ask us to send you sample copies—for instance, those containing the opening chapters of Arthur Stanwood Pier's fine serial—“His Father's Son.” Full announcement for 1914 will be sent with the sample copies.

For the year's subscription of \$2.00 there is included The Companion Practical Home Calendar for 1914, and all the issues of the paper for the remaining weeks of 1913, dating from the time the subscription is received.

The Snake and the Umbrella. “I spent a pleasant hour with a traveler,” said the truthful man, “who told a lot of snake stories. I remember the last of them. It was about a man who took a nap in the woods, laying his umbrella on a rock beside him.

“After awhile it began to rain, and the man awoke. He was all wet. He took hold of his umbrella and opened it hurriedly. It seemed rather stiff in going up, and there was a ripping, tearing sound. Then a live blacksnake fell to the ground, split in two from its head to its tail.

“You see, it had swallowed the umbrella all but the handle, and the man did not notice what had happened till, putting the umbrella up, he halved the snake from stem to stern.”
