MORROW COUNTY OFFICIAL PAPER

THURSDAY, February 12, - 1914

### WHY NOT MORROW?

The other day Columbia county passed the good roads bonding issue which bonds the county for \$360,000.

Polk county is considering the proposition of bonding the county for \$600,000 for good roads.

A question that will come before the voters of Marion county at an election in the near future is, "Shall Marion county be bonded in the sum of \$850,000 for good roads?" The bonding proposition in Marion county has few opponents and will no doubt carry by a large majority.

Jackson county is bonded itself in the sum of nearly \$1,000,000 to carry on the good roads work.

It is true that all these counties with the exception of Jackson have a smaller area than Morrow county, and likewise is their population much larger, Jackson having a population nearly five, and Marion nearly eight times as great as Morrow. \$800,000 is, in one sense of the word, a large sum of money; but not so much when used for roads. Much can be spent and little good done if the money is not used for engaging road experts.

Just now there are three roads that are engaging the attention of the Heppner people. The one big question is how to get the necessary money. Would it not be well to follow the example to a certain extent, set by the progressive counties of the state?

The place of joint representative for Morrow and Umatilla counties is still an open one, no apparent material ready to offer itself from any section. Over this way we feel that Morrow county should be represented by a home man in the legislature and we believe Umatilla county people will be generous as heretofore and grant us this place on the ticket. We have been hearing the name of W. B. Barratt favorably talked for this place on the republican ticket, and we believe him to be good material and should like to see him consent to his name being used at the primaries. There is much that can be said in favor of his candidacy.

Don't forget the Commercial Club meeting tomorrow, Friday, night, I. O. O. F. hall, 8 o'clock sharp.

### HARDMAN

Alex Warren is clerking in the store in the absence of Mr. Hudson.

This zero weather is quite a change from the balmy weather we had in January.

Mrs. A. L. Hudson went to Heppner Sunday to see her husband who is in the hospital.

Mrs. Joy Giese of Battle Ground Wash., is visiting at the home of her mother, Mrs. N. H. Leathers.

Quite a jolly crowd of young people attended the rabbit supper at Eightmile on the 30th of January and report a good time.

Those on the sick list are Mrs.

## Every-Day Bargains

WEDNESDAY, FEBRUARY 18TH

Admission: adults 75c; students 50c; children 25c  
Seats on sale Monday, Feb. 16, at the store of Patterson & Son, Druggists.

## NIAGARA Soluble Sulphur Compound

Patents issued Nov. 12, 1912

The Sulphur Tree Spray of To-Day  
NOT A NEW THING, BUT A NEW  
AND BETTER WAY

IT IS A SULPHUR SPRAY, not an EXPERIMENT. The sulphur is in the same chemical form as is the sulphur in the lime-sulphur solution, but being freed from the lime (the lime being found really detrimental), possesses a higher power, by fourfold, as an insecticide and fungicide.

SOLUBLE SULPHUR is very penetrating—going through and through all scale and insect crusts; whereas the lime in the lime-sulphur solution solidifies and neutralizes the sulphur, forming a harmless crust or coating. Soluble Sulphur does not paste up the surface of the tree, preventing the normal function of bark and leaves, but cleans the surface from all such hindrances to tree growth.

SULPHUR has always been recognized as the important ingredient of spray value in the lime-sulphur sprays. The lime has been performing the office of a "necessary" evil: simply an agency for rendering the sulphur available.

In Soluble Sulphur the sulphur is rendered available by the use of a non-injurious element, thereby allowing the sulphur to perform its work in a fuller and more complete way.

We are not trying to coax you into "trying" a new spray, but we are offering you the old and tried Sulphur spray in a form far more effective, more convenient and less expensive. We furnish you with the dry materials. You supply the water and make your own solution by simply stirring together for an instant.

We can save you 25 per cent and more on your spray expense. Will you let us show you?

In addition to the money saving, there is a saving on the handling of over 500 pounds, storage, leakage, return of barrel and a lot of trouble.

SOLUBLE SULPHUR COMPOUND used at 10 pounds to 50 gallons of water (winter strength) is equal in spray value to 33 degrees lime-sulphur solution used at one gallon of solution to eight gallons of water.

Thus 100 pounds SOLUBLE SULPHUR COMPOUND added to 500 gallons of water will make 511 gallons of winter spray.

Therefore 100 pounds of Soluble Sulphur Compound will make 61 gallons of nearly 14 per cent more spray, winter strength, than a 50-gallon barrel of lime-sulphur solution.

VAUGHN & SONS

### FOR TRADE

530 acres. 300 acres in wheat, 100 acres summerfallow, 130 acres pasture; plenty of water; all fenced.

Will trade for Portland property. \$3500 to be paid in grain payments.

This is as good a grain farm as there is in Morrow county. Will sell at a reasonable cash price with terms to suit purchaser.

SMEAD & CRAWFORD

\$2500.00

will buy a 10-room dwelling. Desirable location. Two chickens desired and good woodshed. A number of bearing fruit trees. Small fruits more than enough

for a family.

\$500 down, balance easy payments.

A country home in the city.

This is less than the house cost.

A BARGAIN.

SMEAD & CRAWFORD
