Stem wheat—

## WHITE STAR FLOUR NONE BETTER

Ask your grocer for it—they all handle  
it—and take no other.

When you buy a barrel of White Star  
Flour your money is put into circulation  
at home. It buys more wheat to make  
more flour. When you buy outside flour  
your money never comes back—it is a  
loss to the county.

Rye, Graham, Wholewheat and Pancake  
Flours in 10 and 25-lb. sacks.

For Sale by all the Stores.

Bran, Millfeed, Shorts and specially cleaned Rolled  
Barley always on hand.

### SWIMMING FACILITIES FOR DUCKS.

A visit to most of our prominent  
duck plants will disclose the fact that,  
while they raise millions of young,  
green ducks for market without their  
having had a day's swim, yet they fur-  
nish swimming facilities to their  
breeding ducks. This is because  
ducks naturally pair in the water, and  
thus those that swim lay eggs with a  
higher average fertility and greater  
hatchability, and the ducklings are of  
stronger vitality, better breeders and  
can stand more forcing for market.  
The great aim in market duckling  
raising is to get quick, big growth  
and to keep the duck soft and juicy.  
Exercise in swimming, like other  
healthful exercise, makes muscle,

### ALONG THE SHORE

hardens the flesh, retards fat, creates  
stamina and uses up food in the pro-  
cess.

That is why, the swimming duck is  
harder, stronger, tougher and thinner  
than the market duckling, and that is  
why, on the contrary, the market  
duckling is such a fast grower, so  
toothsome and juicy. It melts in the  
mouth, is so large and lovely because  
it exercises but little and loafs and  
eats much, and most of its food just  
quickly turns into layers of fancy  
flesh and fancy fat. The only time it  
goes to swim is when it is driven in to  
wash off before killing, and so unused  
to swimming are they that we have  
seen them refuse to do that.

### DAM FOR DUCKS.

make ponds or dams, the thickness of  
the dam wall depending on volume  
and velocity of water and made thick-  
er at base than top. The proportions  
for making the concrete dam wall  
shown were one barrow of sharp sand  
and two of clean gravel to one sack of  
cement. The majority of duck raisers  
feed their breeding ducks fish, either  
fresh or fish scrap. This tends to  
vigor in breeder and off-spring and in-  
creases fertility.

### DON'TS.

Don't cultivate pessimistic traits, but  
hoe your own row.

Don't be mercenary. You may pile  
up money by the plan, but be stigma-  
tized "a miserly man."

Don't write the editor for poultry in-  
formation, but write us, and don't  
write us until you have tried to think  
it out for yourself first.

Don't throw dead fowls where they  
will rot and breed maggots. A blow  
fly may come from one sack of  
your table and bring disease and de-  
struction.

Don't buy a stack of poultry wire  
unless sure the chickens can't go  
through. Leghorns go right through  
wire that grades from small to large  
squares toward the top and over any-  
thing with top rail.
