## NIAGARA Soluble Sulphur Compound

Patents issued Nov. 12, 1912

### The Sulphur Tree Spray of To-Day NOT A NEW THING, BUT A NEW AND BETTER WAY

IT IS A SULPHUR SPRAY, not an EXPERIMENT. The sulphur is in the same chemical form as is the sulphur in the lime-sulphur solution, but being freed from the lime (the lime being found really detrimental), possesses a higher power, by fourfold, as an insecticide and fungicide.

SOLUBLE SULPHUR is very penetrating—going through and through all scale and insect crusts; whereas the lime in the lime-sulphur solution solidifies and neutralizes the sulphur, forming a harmless crust or coating. Soluble Sulphur does not paste up the surface of the tree, preventing the normal function of bark and leaves, but cleans the surface from all such hindrances to tree growth.

SULPHUR has always been recognized as the important ingredient of spray value in the lime-sulphur sprays. The lime has been performing the office of a "necessary" evil: simply an agency for rendering the sulphur available.

In Soluble Sulphur the sulphur is rendered available by the use of a non-injurious element, thereby allowing the sulphur to perform its work in a fuller and more complete way.

We are not trying to coax you into "trying" a new spray, but we are offering you the old and tried Sulphur spray in a form far more effective, more convenient and less expensive. We furnish you with the dry materials. You supply the water and make your own solution by simply stirring together for an instant.

We can save you 25 per cent and more on your spray expense. Will you let us show you?

In addition to the money saving, there is a saving on the handling of over 500 pounds, storage, leakage, return of barrel and a lot of trouble.

SOLUBLE SULPHUR COMPOUND used at 10 pounds to 50 gallons of water (winter strength) is equal in spray value to 33 degrees lime-sulphur solution used at one gallon of solution to eight gallons of water.

Thus 100 pounds SOLUBLE SULPHUR COMPOUND added to 500 gallons of water will make 511 gallons of winter spray.

Therefore 100 pounds of Soluble Sulphur Compound will make 61 gallons of nearly 14 per cent more spray, winter strength, than a 50-gallon barrel of lime-sulphur solution.

**VAUGHN & SONS**

T. J. Kappenberg and wife and L. K. Harlan and wife were Heppner visitors from Ione on Tuesday.

H. A. Emery and C. A. Re-pass, of Hardman, spent a couple of days in Heppner the first of the week.

Dr. Ida Behrendt, graduate optician of Baker, will be in Heppner March 23 to 28. You will find advertisement in another column of this paper.

Silas Harris is down from his home near Parkers Mills. The old gentleman has been suffering for some time past with an affliction which necessitates his seeking the attention of a physician, and he will be compelled to remain in town for a few weeks.

John H. Hayes came up from Portland last evening.

Ed Adkins suffered the loss of one of his valuable work horses this week. The animal had been sick for some time.

Mr. and Mrs. J. V. Crawford returned home on Tuesday from a visit of four weeks with relatives and friends in Waitsburg and Prescott, Wash.

Hank Vance thinks he has a real mover in his little gray mare that pulls the laundry wagon around town. In a "try-out" on Monday she made a lively sprint in which she was not careful as to results, and a new pair of shafts was made necessary for the laundry buggy. Hank is convinced the mare is "some goer."

W. T. Matlock, of the Benson Commission Co., Portland, is in the city.

Display, transient, running less than one month, first insertion, per inch, 25c.; subsequent insertions, 12 1-2c.; display, regular, 12 1-2c.; locals, first insertion, per line, 10c.; subsequent insertions, per line, 5c.; lodge resolutions, per line, 5c.; church socials and all advertising of entertainments conducted for pay, regular rates.

MORROW COUNTY OFFICIAL PAPER

THURSDAY, March 19, - 1914.

### A CLEAR FIELD FOR R. A. BOOTH

The announcement that Jonathan Bourne will not enter the coming Republican primary as a candidate for the nomination for United States senator is welcome news to those who hope to see Republican Oregon represented next year by a Republican senator. Mr. Bourne's withdrawal—for it has been regarded as certain that he would be a candidate that his announcement amounts practically to withdrawing from the race—leaves the field open for R. A. Booth, who will receive the Republican nomination without any anti-primary fight that will disrupt his party and weaken its strength in the November election. With the solid strength of his party behind him there can be little doubt of Mr. Booth's election. He is competent and capable, and has the confidence of the people of his state. Moreover, Oregon is weary of Democratic measures that for vote-getting reasons are drawn against the west and in favor of the more populous east.

Mr. Bourne's statement, it is true, is so carefully worded as to leave him free to enter the race after the primaries as an independent if he chooses to do so, but there is reason to believe that the same considerations that induced him to stay out of the Republican primary will have weight in deciding him not to become a candidate at all at this time. It is unlikely that his candidacy as an independent would have any other result than defeating his Republican opponent, since he would get very few Democratic votes. Mr. Bourne probably has no desire to make a campaign merely to defeat someone else. He would like to represent Oregon again in the senate, and he doubtless realizes that another defeat would make this a hopeless ambition.

The project of uniting the Republican party in Oregon never seemed more feasible than at present. Mr. Booth is a new man in state politics. He has no factions to oppose him, and he has no enemies to be placated. It is practically certain that he will have no opposition at the primary election, and he will therefore go into the campaign without the handicap of dissension in his own ranks. Lane county has particular reason to feel gratified, for the probability that one of her citizens will be the next United States senator has become almost a certainty.—Oregon Register.

Mr. voter, have you registered?

Mrs. voter, have you registered?

Miss voter, have you registered?

Two booklets, the one entitled "For More and Better Corn in the Northwest," and the other "For More and Hardier Alfalfa in the Northwest," should prove of interest to many of our stockmen and farmers. A limited supply of these booklets are at the office of Smead & Crawford for free distribution. These two great stock rations are to be much more extensively raised in the future, and these booklets give you a more practical idea of how to get the best results.

Are you getting some of the creamery stock? It is being taken up rapidly about town, but should be very generally distrib-

## WHAT'S THE USE OF SENDING MONEY OUT OF TOWN?

Look these prices over and see if it doesn't pay to trade at home. This week we are giving you a few quotations on Fish.

Holland Herring, the keg	\$1.50	Diamond W Salmon, the can	25
Fancy Red Salmon in pails	2.00	Broder's Best Clams, the can	35
Neptune Mackerel, each	20	Booth's Sardines, the can	25
Buckle Salmon, the can	15	Kippered Herring, C. & B., the can	35
Waco Salmon, the can	20		

Are you looking for the best things to wear? We have them. Just look—

Hardeman Hats, latest styles & shapes	\$3.00	Porosknit Underwear, 2-piece, each	50
Summer Hats	50c to 1.25	Union suits from	1.75 to 2.50

There is a Spring Suit, Strictly Youthful, Waiting for You Here.

**Thomson Bros.**

Agents for Standard Patterns

Our Spring and Summer Samples

HAVE JUST ARRIVED. We invite you to call and look over this splendid line, which contains many new patterns and exclusive designs. Suits for \$16.00 and up.

**LOUIS PEARSON TAILOR**

### Millinery Opening

Mrs. L. G. Herron cordially invites the ladies of Heppner and vicinity to see her display of spring millinery, and also to have refreshments with her, Saturday, March 21, 1914. Mrs. Cohn's old stand.

MRS. L. G. HERREN.

uted over the territory tributary to Heppner. No better promotion work was ever undertaken here than this. The dairy cow will bring the money and this is what our people stand in need of. The idea, also, of a bacon factory in connection, adds another source of revenue. It all means money coming in instead of going

out. Let us make the finished product right here where the raw material is produced and fed. This is the correct principle; it saves freight both ways as well as the profit that the outside packing house demands.
