There will be a show and dance at the Club building next Saturday evening. The admission price will be 15 and 25c. The people who are giving this show were brought here by a local showman under a three nights' contract. They have a clean act, but in spite of the fact that they brought out a good sized house they were permitted to give their show one night only. They are forced to give their own show in order that they may leave for other towns.

County Surveyor, Loy Turner, this week measured off the rock bluff at the corner of Main and August street for the city of Heppner. Main street, at that point, is 35 feet wide at the present time, and after the plans of the city fathers are worked out it will be wider by 25 feet. The contract for the removal of this rock will be let soon.

Automobile Owners Are Working Our Roads.

A bunch of workmen, consisting principally of automobile owners, got onto the road between Heppner and Lexington on Tuesday and did a good job of raking out rocks and filling up mud holes. The auto owners of Lexington also turned out a good bunch, as did the people of Ione, and the result is a better roadbed between Heppner and the towns down the creek.

The auto owners are taking a lot of interest in getting the roads cleaned up. They should be assisted by the farmers and residents along our thoroughfares, as a good auto road is also a better road for all classes of vehicles. The help of all in this direction will be greatly appreciated.

The next move will be on either the Willow creek or Hinton creek road. Just which will be handled first is not yet determined, but

Are you wearing lenses that are not satisfactory? If you are having trouble with your eyes, it will pay you to come direct to me. I will give your eyes a thorough and careful examination [free of charge] and tell you the exact condition they are in.

I Fit Every Conceivable Style of SPECTACLES and EYE GLASSES

Dr. Behrendt is now introducing the late Kryptok Invisible Bifocals and Toric Lense, which is without doubt the finest lense ever put on the market.

Perfect fitting glasses ground especially for weak eyes, astigmatism near-sightedness, far-sightedness, reading or fine work.

We especially solicit complicated cases. Our experience often enables us to give satisfaction when others have failed.

Our glasses cure headache, neuralgia, nervousness, tired eyes, aching eyes, styes, granulated lids, blood-shot eyes, etc.

Remember that our responsibility does not end until you have obtained the satisfaction you expect.

Parents Should Not Neglect Their Children's Eyes.

For a pair of glasses, worn for a few months, will often enable a child's eyes to strengthen and fully develop, while neglect at this critical time will so injure the eyes as to make it necessary, sooner or later, for them to put on glasses and wear them continually.
