THERE is work on your farm for an International Harvester tractor every week in the year. It will pull your plows, disks, drills, harrows, binders, haul your products and supplies, do road work, run your thresher, ensilage cutter, husker and shredder, concrete mixer, well drill, etc.

For best tractor service use an IHC oil tractor—Mogul or Titan. They are built to meet field difficulties. Their mechanism is simple. Moving parts are carefully protected. There is no unnecessary weight. They satisfy buyers.

IHC oil tractors—Mogul and Titan, are built in sizes for all farms, from 6-12 to 30-60 H. P., to operate on kerosene and gasoline. Write for catalogues and other information on International tractors and oil engines and we will tell you where to see the machines.

## DON'T RAISE WEEDS!

USE A JONES WEEDER  
Built in Morrow County

(Patented Dec. 16, 1913)

There has been a great need for a machine to cultivate summerfall that would do it thoroughly with the least possible loss of moisture and "do it quick."

We claim the Jones Weeder will do all of this and more. It can be used in as many sections as wanted, like a harrow. Four sections cut 18 feet 8 inches and pull no heavier than four sections of steel harrow.

The blades having a slope of 60° it will not choke under normal conditions.

I am now putting up 100 sections. Parties wanting this machine should send in their orders at once.
