CIGARETTE ADDICTS TREATED FREE.

A Free Clinic by Local Physician At The Request of The Anti-Cigarette League of America.

Dr. J. Perry Conder has received a request from the Anti-Cigarette League, with headquarters at Chicago, also a personal letter from the originator of the treatment for the cigarette and tobacco habit, Dr. D. H. Kress, requesting him to conduct one of the Free Clinics such as is being conducted in other cities and towns.

Dr. Conder has consented to do this and will treat all who will apply at his office, in the Bank of Heppner Building, between the hours of nine and ten a. m. each day except Sunday. We print below some of the correspondence Dr. Conder has had with the Anti-Cigarette League in regard to this work, also a personal letter from Dr. Kress, himself, urging the establishment of such a clinic. Headquarters of the Anti-Cigarette League of America. Chicago, April 21, 1914

Dr. J. Perry Conder, Bank of Heppner Building, Heppner, Oregon.

Dear Sir:

We have your inquiry regarding the work of our clinic as undertaken by Dr. D. H. Kress and enclose herewith the formula and instructions which we have given to over twelve hundred persons and we are gratified to state that in nearly every instance where faithful attention has been given to the suggestions of the doctor cures have been effected.

Very sincerely yours, (Signed) C. F. GROW. NEW ENGLAND SANITARIUM, Middlesex Fells Health Retreat. A Medical and Surgical Institute of Physiological Therapeutics. Melrose, Mass., May 12th, 1914.

Dr. J. Perry Conder, Heppner, Ore.

Dear Doctor:

Your communication reached me yesterday. I am pleased to know you are taking an interest in the Cigarette Addicts. You will find this a field that affords wonderful possibilities. In Detroit, Mich., recently during one week's time I treated over 900 men, boys and women at the free clinic which I established. This has become a permanent clinic and is conducted by doctors connected with The Grace Hospital.

In swabbing out the mouth I advise the use of a 1 or 2 per cent solution. When the prescription is placed in the hands of the patient for home use I advise a milder solution usually ¼ of 1 per cent. The dirt I consider the most essential part of the treatment as this will in time entirely eliminate the desire. I always instruct those who apply for treatment to be prepared to make a brave fight for a few days. The results we obtain are satisfactory in every case when the directions are closely followed.

Why could you not open up a free clinic? Have it advertised and give the first treatments free. You are at liberty to duplicate my prescription. You will be surprised to see how many will apply to you for help, if it is known that a free clinic has been established. A number of physicians are doing this. I shall be glad to hear results. I am Yours fraternally, (Signed) Dr. D. H. KRESS.
