### DO YOU HAVE INDIGESTION?

Indigestion causes more disease, it shortens more lives, than everything else of which we know. Indigestion not only rapidly wears out the stomach and intestine, but it undermines the health and opens the way for serious diseases. Two persons out of every three have indigestion, either easily recognized stomach indigestion or the commonest form, intestinal indigestion with gas in the bowels and often constipation.

You can cure yourself of indigestion with the foods which you usually have on your table simply by cooking them differently, by taking care as to what foods you eat together and by eating more of some foods and less of others. For information by Dr. Daniels as to just how to go about this, send ten cents, stamps or coin, to The Hygienist Magazine, Majestic Bldg., Denver, Colo.

If you want anything special in the meat line—crown roast lamb, mutton, English or French chops—you can get them at the City Meat Market.
