

# Bleeding Kansas Still Bleeds!

A steady stream of money—the life-blood of a state —pours from “model prohibition” Kansas into License states!

The Topeka State Journal, a supporter of Prohibition, on July 8, 1913, published the statement that approximately **1,500,000 QUARTS OF LIQUOR** were legally shipped into the state of Kansas each year.

*Kansas got no revenue—other states got the money!*

## Should we place Oregon near the bottom with Kansas?

Prohibitionists like to talk about Kansas. They say it has been dry for 34 years and has made a record.

*Has it? Kansas Prohibition is what sent Carrie Nation on the warpath with her hatchet. It was in Topeka, Kansas, that Mrs. Nation opened her home for the wives of men who got drunk on Kansas Prohibition liquor.*

Yet Prohibitionists tell us that as the capital city of dry Kansas, Topeka is a model.

Rev. Robert Gordon, pastor of the First Baptist Church, Topeka, who has been a Prohibitionist all his life, said from his pulpit: *“There are 140 joints in Topeka where intoxicating liquor is sold.”*

To prove it, he went out and bought a keg of beer, two cases of bottled beer, a suitcase full of whiskey, and all the gin and wine he could carry.

*That is what the Prohibitionists themselves tell us about Kansas.*

*Dry Kansas ranks 32nd in per capita bank resources.*

*Dry Kansas ranks 43rd in per capita savings bank deposits.*

*Dry Kansas has more inmates in her prisons in proportion to population than 24 other states.*

*Dry Kansas has a greater proportion of juvenile delinquents than 26 other states.*

*Dry Kansas has a greater proportion of feeble-minded than 31 other states.*

*Dry Kansas has a greater proportion of homicides annually than 22 other states.*

(Figures from U. S. Census, Federal or other Official Reports)

*Government statistics show that Dry Kansas has the lowest church enrollment of the North Central States. Only 23.4 per cent of her population is enrolled as church membership.*

*Wisconsin, a wet state in the North Central group, has a church roll of 44.3 per cent.*

*Dry Kansas buys great quantities of Bitters and Home Remedies. Government reports show these nostrums contain an average of 35 to 40 per cent alcohol.*

*Analysis of a favorite “nerve tonic” showed two grains of opium and 75 per cent of grain alcohol to each fluid ounce.*

*Patent medicines are always popular in dry states; above is the reason.*

*Do you, as a loyal Oregonian, want to see your state held up like this to the nation's scorn?*

Records of County Clerks, Express Companies and Railroads in Kansas show that Kansas consumes just as much liquor under Prohibition as it did when it had legally licensed saloons. The state now gets no public revenue from this liquor. The “blind-pig” and the “boot-legger” have taken the place of the regulated saloon and ply their illicit trade in alleys and under cover of darkness.

Defeat of Prohibition will not change the present Home Rule or Local Option Law

## INTERESTING NEWS IN OUR PORTLAND LETTER

Fruit Growers Meet in Spokane During National Apple Show.

Portland, Ore., Sept. 15 (Special)—At a conference held in Portland on Sept. 10, and which was participated in by representative growers and manufacturers of fruit products from every section of the Pacific Northwest, the future of the fruit industry was discussed from every angle. It was shown that through lack of cooperation on the part of gardeners and fruit raisers a large percentage of the crop goes to waste each year while the balance is sold at prices which frequently show a net loss to the producer.

While no definite action was taken at this meeting, it was decided that all possible information on the subject should be collected in each fruit growing section and the resulting data will be made the basis of another conference in Spokane, November 14, at the time of the National Apple Show. It is practically certain that a permanent organization will be affected at that time and steps taken to establish canneries, dryers and other methods of caring for such fruits and vegetables as cannot be marketed in a fresh condition. All who are interested in the subject should make a special effort to attend that meeting.

The County Fair season is now in full swing and this week will see exhibits staged at Baker, Sept. 14-19; Corvallis 17-19; Canby 16-19; Roseburg, 16-19; Gresham, 15-19; Heppner 17-19; Ontario, 15-19; Dallas, 17-19 and Tillamook, 15-18. Next week fairs will be held at Myrtle Point Sept. 23-26; Gearheart, 24-26; Eugene, 22-25; Toledo, 22-25; The Dalles, 23-26; Forest Grove, 23-25; Fossil, 22-23; La Grande, 22-24; McMinnville, 23-26; Klamath Falls, 24-26 and Pendleton, 21-26. The “Round-up” will be the feature of the last three days of the week at the latter place.

An expert timber cruiser, who has spent many months in estimating the standing timber of Coos county, has completed the task and filed his report with the County Assessor. His survey shows the standing timber to approximate 18,927,000,000 feet, of which about 17,000,000,000 feet are first and second growth fir. He says there is not a 40-acre tract in the county subject to homestead entry that is worth taking.

One of the banks at Eugene is offering to furnish farmers of that section with money with which to purchase stock for feeding and will carry the loan until the stock is ready for market. Farmers are urged to keep their surplus feed and hay at home and feed it out instead of allowing it to go out of the county.

Believing that dairy conditions are ideal in their section, the Clatsop County Co-operative Cheese Association has offered to furnish a herd of cows to any farmer in the county who desires to go into the dairy business. That the business has not been more prosperous in the past has been largely due to lack of funds with which to buy cows, and this move of the creamery men is designed to correct that shortage. An expert will be employed to purchase the stock and only cows of high grade will be supplied.

**Farmers To Support Prohibition.**  
In a letter to R. P. Hutton, assistant superintendent of the Oregon Anti-Saloon league, J. D. Brown of Arlington, Or., president of the Farmers' Educational and Cooperative Union of America, department of Oregon, declares that four-fifths of the farmers of the state will support the statewide prohibition constitutional amendment which will be voted on at the November election. His letter says:

“Complying with your request for a statement as to the attitude of farmers toward the prohibition amendment, I will state frankly that I believe that four-fifths of the farmers of Oregon will support with a will the amendment for state-wide prohibition. I have been among the farmers in various parts of the state and my statement is based upon observation and talks with many farmers.”

He says the farmers who have to depend upon the floating labor element for the harvesting of their crops have observed the effect of liquor upon men too closely to want more of it.—Journal.

### Gave Reception.

Miss Beulah Barker gave a reception at her home Saturday evening to the school teachers, members of the school board and their wives and several other invited guests. A fine musical program was rendered by Mrs. Coppinger, Mr. Mudge, Mr. and Mrs. Danford, Miss Lillian Wattenburger, Miss Opal Bryant, Miss Daphne Gulliford and Miss Clephene Gulliford. Prof. Cannon and J. T. Hoskins made short and appropriate talks to those present. Light refreshments were served.—Echo News.

Wm. Hendrix, the Heppner Flat farmer was in from his ranch last Friday.

Fred Kelly and wife of Lena are visiting in Heppner this week.

# Cadillac Used Cars

What is there about a Cadillac car that makes Cadillac owners so loyal, enthusiastic? You will have to admit their feeling is different, unusual, remarkable, compared with the average man's satisfaction with the average car.

## NOW WHY?

Talk with a hundred Cadillac owners driving all the different models produced from the beginning twelve years ago. They will all tell you:

“My Cadillac runs always.”

“I can always depend upon it. Such a thing as failing to run, or breaking down, or wearing out, never enters my mind. From what my friends tell me, I know it costs me less to run and maintain my Cadillac than they pay out for their smaller cars. And I notice they all prefer to ride in my Cadillac when they can. Will I buy another Cadillac? Yes, when I buy my next car. But I'm not in any hurry about it. My car is as sound and serviceable as any car on the market today.”

That is what Cadillac owners will tell you if you ask them. Ask anybody who knows motor cars and you'll get the same story of Cadillac satisfaction. After all that is what you want to buy, “satisfaction”. So, no matter what you have in mind to spend, put it into Cadillac satisfaction and you'll get your money's worth.

**CADILLAC 1909**—Thoroughly overhauled and repainted. A most dependable car, seating five passengers. At a figure that merits your serious consideration, \$400.

**CADILLAC 1911**—A five-passenger touring car in excellent mechanical condition. This machine has been used in Portland, has had the very best of care and is an exceptional bargain at the price quoted. Full set of tools, complete equipment, including electric side and tail lights, electric lighter for head lamps, electric horn and nickel trimmings. Tires are in far better condition than is usual on used cars, \$650.

**CADILLAC, 1912**—Phaeton with Delco electric lights and self-starter. Complete equipment. This car has been thoroughly overhauled in our own shops, all of the working parts have been examined and new factory-made parts installed where required. Repainted. This car is far superior in comfort, dependability, smoothness and long life to any new car that will sell at the same price, \$900.

**CADILLAC, 1912**—A five-passenger touring car. Condition and appearance excellent. Has been used in Portland and has been on storage in our garage since originally sold, so that we can vouch for the way that it has been taken care of. A car that will outwear any new car selling at the same price and that can be maintained very economically, \$900.

**CADILLAC, 1913**—Four-passenger phaeton with electric lights and self-starter and all modern improvements. Except for the two-speed axle this car is practically the same as our present model. It has been rebuilt and repainted and is guaranteed to be in first-class mechanical condition. In appearance it looks like a new car. Bumper and Klaxon horn, \$1350.

**CADILLAC, 1914**—A five-passenger demonstration car in perfect condition, \$1600.

An inspection of these cars will convince you that they are priced very low and that this is truly a money-saving opportunity. When you drive one of these cars you experience the pride of Cadillac ownership just as though you had purchased a new Cadillac. You are certain of Cadillac satisfaction, and we are just as much interested in your getting it as if you had bought a new car. If desired, terms can be arranged. We have several other makes priced at extremely reduced figures that will bear your investigation.
