

WHY DESTROY the INDUSTRIAL PROGRESS OF OREGON?

That's what the so-called "Water Front" bills, Numbers 328 and 330 on the ballot, will do if passed at the November election.

Why make it impossible to build saw mills or any other industrial, labor-producing plants on the rivers and bays of Oregon?

That's what the passage of these bills will do.

Why cripple the development of our great timber resources; why cripple all future manufacturing in Oregon?

That's what will take place if the people vote "yes" on numbers 328 and 330.

Why lock up the thousands of acres of over-flow lands bordering upon the navigable waters of the State and its miles of water front for the benefit of "future generations;" why not let the present generation have some of the benefit from the use of these lands?

Industries of all kinds will be driven from Oregon and intending investors will turn their backs upon the State if these so-called "Water Front" bills become laws. That is why every man, woman and child in Oregon will be adversely affected if these bills are passed by the people in November.

Oregon needs outside capital to develop its great natural resources but we will drive it away if we pass Numbers 328 and 330 on the ballot at the November election.

If these so-called "Water Front" bills are passed by the people, a vast amount of property will be withdrawn from taxation in this State and this great burden will be thrown upon the rest of the taxable property, resulting in a heavy increase in everybody's taxes.

These bills are vicious; they are destructive of the very best interests of the State; they ought never to become laws.

The way to defeat them is to vote "NO" 329 and 331.

Lower taxes, fewer laws, economy in transacting public business especially in weeding out useless commissions which are swallowing the taxpayers' money.

The U. S. Engineers have called for 200 laborers on Coos Bay Jetty and Cello canal.

The Public Docks and Water Frontage amendment is a polite way for the state to confiscate a man's property to the use of the state without compensation.

Umatilla county is to have a new and important industry. It will be a branch of the Nature Cleansing Product Company, of Elmhurst, Ill., and will be located at Yoakum, near Pendleton. The object of the indus-

try is to ship deposits of earth from certain sections known to contain solca, peroxide, aluminum and other minerals. It has been discovered, by chemical analysis, that the soil at one part of the Yoakum section contains these properties.

A project is being engineered by Devereaux & Tripp of Eugene involving the construction of a logging railroad up Lost creek from the Natron extension through Dexter into a body of timber, comprising approximately a third of four town-

ships, is under way, with the survey for the road nearly completed. Michigan and Wisconsin timber owners who recently purchased tracts of timber in this vicinity, are said to be behind the move, and a sale of a large pool of timber is contemplated. The promoters state that the road will be constructed immediately.

During the first month of operation the Panama Canal produced \$91,664.

North Bend has a monthly payroll of \$50,000.

LEXINGTON.
Jas. Carty, of Tub Springs, was in Lexington Friday, on his way to Heppner. Otto Ruhl has completed a new barn on his lot in the east part of town. The old Artisan Hall has again changed hands. It will be remodeled and enlarged on the inside. Laxton McMurray was a Lexington visitor from Rhea creek. He made the trip in his new Ford. Friday was court day in Lexington, and quite a number of people were interested spectators and witnesses. Attorneys Wells and Woodson of Heppner were in attendance. No decision was reached at this time but will be rendered at some future time. William Stauffer came up from Hood River last Friday and is now looking after his farm property south of town. W. C. Gilbert, of Vancouver, Wash. was in this vicinity looking after the Andrews ranch, of which he has charge at the present time. He reports having sold 400 acres to R. B. Rice. Lonnie Copenhaver fell from a loaded wheat wagon last Thursday, and one wheel passed over his leg making a bad break. He was on his way with a load of wheat to town at the time the accident took place. Dr. Winnard, of Heppner, was called to attend the boy. John Cochran and Walter Payeur of Ione and Guy Nordyke of Lexington, left Saturday morning for their annual hunt in the mountains. Born—To Mr. and Mrs. Chas. Johnson, a daughter. All are doing well. Howard Lane and Frank Bourgoyne went to Walla Walla Monday to attend a term of court held at that place. Seeding is occupying the farmer's attention in this vicinity at the present time and from the number of seed drills going out among the farmers, there is an indication that a large acreage is being sown. Less moisture has fallen so far this year, than in previous years.
