Electrification work on the P. E. & E. Ry. is to be completed by next spring as far as Eugene. The new highway being built via Falls City and Siletz is to cut the distance to Newport by 16 miles.

IS WORTHY OF THEIR SUPPORT.

Women voters of Oregon are urged to support R. A. Booth, Republican candidate for United States Senator by the women of Eugene, who give their reasons in the following letter which has been addressed to Booth. It is the highest possible endorsement a candidate can receive from women in an appeal to other women. Says the letter:

"To Mr. R. A. Booth:
"We, your neighbor women, who have intimate acquaintance with you that has extended over many years and who earnestly petitioned you to become a candidate for the United States Senate, desire to express our renewed interest in you and your candidacy.

"We desire most emphatically to resent the slurs aimed at you by your political enemies now in high places in Oregon.

"We would like to have the message go from us to the women of Oregon that we know you intimately—we have seen you in your home and in ours—that we are your friends and supporters because we know that, if elected, you will carry into the national councils the same high moral attributes, and the same unselfish devotion to right, that has characterized your home and community life.

"In every battle that we have fought for purity, for home protection, for civic virtue, you have been our counselor and helper; we want the same spirit, the same high purposes that have characterized your home and community life, that has made homes brighter, schools stronger and churches more effective through your influence and direct help to be carried through your election to every home under our flag.

"We regret that in this advanced age of your beloved and progressive state that people who have been honored and advanced by the vote of the people of the state should so far forget common decency as to make the attack that has recently been made upon you, but your influence for good in this state will be a potent force when their names are forgotten."

NEITHER FISH, FLESH NOR FOWL.

Taxes and the method of collecting them are of personal interest to every responsible citizen in the community. One sage brush philosopher has remarked that governments were created for the express purpose of levying taxes, collecting them and spending the money. It is apparent that other would-be philosophers adhere to that opinion without rhyme or reason.

Instance the sur tax amendment to be found on page 60 of the official pamphlet.

Judged by the accepted canons of taxation, this proposed measure has not a logical leg to stand on; and viewed in the light of any rational tax reform that has ever been proposed, it refuses to be classified. It is neither fish, flesh nor fowl.

It is proposed to levy a graduated extra tax on all real estate holdings above the value of \$25,000, ranging from one-half of one per cent in the minimum to three per cent in the maximum. The very terms of it baldly stated signify its injustice. It is aimed merely at a specific class of property holders; and the most condemnable feature of it is, it will hit the productive property owner harder than any other.

In any system of taxation that is just there must be equitable distribution of the burden. It will not do to tax Jones on a different basis than Smith is taxed simply because Jones owns more property. Under this sur tax amendment, as proposed, Jones and Smith may own adjoining realty, the Smith realty assessed at \$24,000 and the Jones property at -25,000. It could very easily be the fact that the Smith realty produced greater revenue than that which belong to Jones. Yet, if this amendment carried, Jones would be obliged to pay \$125 extra into the public till. If tax could be more inequitably laid than this, we have yet to be apprised of the system.

This proposed tax amendment lacks every element of scientific tax reform. As a single tax proposition which it is evidently meant to be, it lacks discrimination between simple pure land monopoly and the industrial use of land. It would senselessly impose an added burden upon the latter without reaching the former in any appreciable degree. It is nothing more nor less than an unjust, undigested and destructive vagary on the part of would-be tax tinkerers. Peculiar to note there is no argument in support of it in the official pamphlet. No sound argument of that sort is possible.—Telegram.
