INDUSTRIAL NEWS OF THE STATE OF OREGON

Pendleton building for 1914 total
\$170,000.

Douglas county will pay \$141,000
less taxes than in 1914.

Lima county tax levy is reduced
three mills from last year.

Marshfield will vote on a \$30,000
bond issue for a new city hall.

Multnomah county tax levy for
1915 is 8.2 mills less than for 1914.

Five-cent-a-for-a-square-meal estab-
lishments are being started in Port-
land.

The McArthur-Perks Co. has 800
men working on the Willamette Pa-
cific.

A plant to manufacture veterinary
remedies is to be established in Port-
land.

Salaries and expenses of deputy
game wardens totalled \$47,000 for
this year.

Lawyers are promoting creation of
the office of public defender for cities
and counties.

Jackson county spent this year on
good roads \$500,000. Pacific high-
way cost \$325,000.

The Columbia highway from As-
toria to Pendleton is to be completed
by July 1, 1915, says Major Bowley.

Polk county has agreed to pay one-
third of the cost of a \$225,000 steel
bridge across the Willamette at Sa-
lem.

Salem has an offer of a beet sugar
industry upon supplying a sufficient
acreage of beets and raising a sub-
sidy of \$250,000.

Dysinger, Roseburg, expects to
set of furniture made of deer
worth \$5,000 at the Panama ex-
position.

Negotiations are pending between
the Baker Commercial Club and the
Union Pacific Railway to establish
in Baker two factories, one a wool-
scouring plant and the other a fur-
niture factory.

Twenty road districts of Washing-
ton county have levied special road
taxes for rock ballasted roads to be
built during the coming year. Total
amount of levies \$41,000.

The Empire Mfg. Co., of Spokane,
and Pendleton Iron Works, have
asked Pendleton citizens to subscribe
for stock of consolidated company
formed to manufacture rotary pump,
loose refrigerators, split wood pul-
leys and other articles.

STARTING A PARCEL-POST MAR- KET FOR EGGS.

There are in our cities and towns
many housewives who would be glad
to make arrangements for receiving
a supply of fresh eggs direct from
the farm throughout the year. Just
at this time, when eggs are scarce
and the demand far exceeds the sup-
ply of newly laid eggs, there is a
good opportunity for the farmer, even
though he has but few eggs to
market, to make contract with some
city or town family to supply them
with eggs. The farmer's supply at
the present time will be great enough
possibly, to supply the demand of the
city family, but if the matter is ex-
plained it will be easy to make ar-
rangements to market eggs by parcel
post now and continue to do so
throughout the year. In other words
it will be much easier to make ar-
rangements to ship eggs now, when
everybody wants them, than to do
so in the spring, when they are in
abundant supply, and when the
housewife can secure good, fresh
eggs in the market anywhere at a
nominal price. A satisfied winter
customer can be made a profitable
all-year customer if proper price ad-
justments are made when eggs again
become plentiful. (Farmers' Bulletin
594, "Shipping Eggs by Parcel
Post," can be obtained from the Di-
vision of Publications, U. S. Depart-
ment of Agriculture, Washington, D.
C.)

Once having secured a parcel-post
market for eggs, it will be very easy
to market many other things by the
same method, such as butter, poultry,
fresh and cured meats, sausage,
fruits, vegetables, honey and so on.

PRACTICAL HEALTH HINT.

Night Sweats.
Night sweats indicate a debility
and disturbance of the nerv-
ous system. The debility may
be a result of tuberculosis infection,
cigarette smoking, enlarged
heart with feeble action, nerv-
ous exhaustion, change of life in
women and too much covering
during sleep.

The remedy is to remove the
cause if that can be determined.
Take a quick cold wet rub in
the morning and use a rough
towel for drying. It is not nat-
ural nor normal to sweat during
sleep, and if this keeps up you
will feel tired in the morning,
even if you do not now.

There are some remedies that
will help to prevent night
sweats, but they need to be used
with care, and the cause of the
sweats should be known before
taking any medicine.

BIG GUNS FOR THE CANAL.

No Weapon in the World Equals the
Sixteen Inch Monster.

There is still about a year's work to
do on the sixteen inch gun before it is
sent to the Panama fortifications. The
gun has been ordered shipped to Wa-
terfront arsenal, where it will be sent
to Watertown, and the gun will be in-
stalled in the immense carriage, which
is now nearing completion. At Wa-
terfront it will have a shock test, after
which the gun and the carriage will be
shipped back to Sandy Hook for final
test.

The progress of building the dis-
appearing carriage is attracting the at-
tention of ordnance experts of various
countries, and great interest will be
taken in the firing test of the gun after
it is installed in its new carriage. It
will throw a larger projectile than any
gun in the world. It is estimated that
it will have an effective range of some-
thing like sixteen miles, which is be-
yond that of any other gun in the
world.

The final tests at Sandy Hook of
two new fourteen inch guns for Pana-
ma canal fortifications are about com-
pleted. The ordnance officers are high-
ly pleased with the success of the
tests, and it is stated that a remark-
able record of accuracy was made by
the guns on long range firing.—Army
and Navy Journal.

TO HONOR MONROE.

Belated Move to Erect a Great Monu-
ment to His Memory.

James Monroe, fifth president of the
United States and author of the fa-
mous "doctrine" which bears his name,
was born in Westmoreland county,
Va., 156 years ago last spring.

Although Monroe enunciated and
definitely announced a policy that has
been a live political issue for nearly
a century, there has never been any
general observance of his birthday, and
no important memorial has been erected
to perpetuate his name.

Recently a movement has been started
to erect a Monroe monument, but as
yet no definite location has been de-
cided on. Among the cities suggested
are New York, where he died on July
4, 1831; Washington, San Francisco,
Panama, Buenos Aires or Rio de Janeiro,
and Monrovia, the capital of the
African negro republic of Liberia,
which was started by Monroe.—New
York World.

De Saullies Made a Record.

John L. de Saullies, who recently
resigned the post of minister to Uruguay,
to which he was appointed in March,
to engage in the real estate business
in New York, stepped out of the United
States diplomatic service without
having discharged a single official duty.
As his appointment was confirmed by
the United States senate, Mr. de Saul-
lies is entitled to full dignities as a one
time representative of this country to
a foreign nation. It is believed he is
the first in the history of the diplo-
matic service to win his title without
having left his own country.

Square Sleeves in Coats.

When Signor Marinetti gets his fu-
turistic clothing from Rome he will cer-
tainly add to the gaiety of nations if
his revolutionary ideas lead him to
wear the garments. One of his ideas
is to have coats with one round and
one square sleeve, and in order to
avoid the monotony of modern men's
wear he goes further and predicts that
"the futurist will have patches of col-
ored cloth, which he will stick on his
suit at different times of the day to
suit his fancy and his occupation. It
will be simple to adjust and essential-
ly comfortable."

Women in Business Life.

The following figures from the de-
partment of labor show how women
are represented in the business life of
the United States: Stenographers, 238,
077; teachers and professors, 327,635;
physicians and surgeons, 7,300; clergy,
7,395; architects, designers and drafts-
men, 1,037; lawyers, 1,010; agricultural
pursuits, 770,055; various professions,
429,407; various trades, 481,159.

Panama-Pacific Midway.

The midway at the Panama-Pacific
exposition is to be called "El Camino."
The word is Spanish for highway. Its
use for the exposition street set aside
for concessions is intended to recall
"El Camino Real," the king's highway,
built by the Spaniards the length of
the state, with a mission marking the
end of each day's journey.
