RESUME OF WORK OF STATE LEGISLATURE

Review of Doings of Oregon's Legislators During the Past Week.

Amount of First Week's Work Small, as Usual—Incipient Mutiny in House—Two Prohibition Bills Introduced—May Regulate Commission Houses—State Horticultural Commissioner Proposed—Tax Measures Numerous.

Salem.—Just as in previous sessions, the first week of the twenty-eighth session passed with very little accomplished aside from organization.

When organization was completed, instead of getting promptly down to work considerable time was wasted in oratory over the number of clerks and stenographers to be employed. Some of the lawmakers, in view of the economy talk which prevailed, thought it would be a good idea to begin with cutting down the running expenses of the session by getting along with fewer clerks, but after the flow of talk ceased both houses concluded the usual number of clerks would be necessary.

In the senate, with Senator W. Lair Thompson, of Lake county, as presiding officer, the legislative wheels appear to be running smoothly, but in the house, as a result of dissatisfaction over Speaker Ben Selling's committee appointments and an antagonistic spirit which arose against the Multnomah county delegation, a well-defined mutiny against the house organization developed. A few hotheads even talked of deposing the speaker, nullifying his committee appointments and substituting others nominated from the floor of the house.

Number of Important Bills Introduced

While much of the first week of the session was taken up with organization, inauguration of the Governor and useless oratory over clerkships, when the legislature did get down to law-making a number of the important questions to come before the session appeared in the shape of bills. These included measures to amend the tax laws, consolidate departments of the state government for economy, to make effective the prohibition amendment and revision of the game laws.

The economy spirit manifested itself in the senate when that body voted to eliminate appropriations for the state accountability board and the state immigration commission and by authorizing the suspension of the decennial census, effecting an approximate saving of \$170,000.

At the close of the first week the house had 102 bills before it and the senate 49. All passed second reading.

Dry Measures Pending in House.

While there is no universal agreement on the prohibition question, it is certain that a measure will be passed strictly in accordance with the provisions of the constitutional amendment adopted by the people at the November election. Two prohibition bills now are pending in the house. The Committee of One Hundred's bill was the first measure introduced in that body. It has been referred to the committee on alcoholic liquor. D. C. Lewis, of St. Johns, is the author of another measure now in the hands of the same committee. Yet another measure may be introduced this week. Ora R. Porter, representative from Douglas county, is the author.

Representative Lewis declared that he introduced a bill on the subject because he was dissatisfied with the committee's bill. His measure is radical in the extreme.

The legislators are determined to enact an effective prohibition law. If the Committee of One Hundred's bill is amended it will be to make it more drastic.

Estimates for Institutions May Stand

That the estimates made by the state board of control for appropriations for the various state institutions for 1915 and 1916 will not be materially changed, if changed at all, is the belief after the first week's session of the legislature. Estimates were made first by the superintendents and considerable reductions made by the board in several instances.

The committee on ways and means of the senate is probing thoroughly the management of the institutions and has visited the blind school, the state school and the state insane asylum. After spending a day at the latter institution and the cottage farm, an adjunct, committee members announced that they were well pleased with the management of all institutions visited and were especially well pleased with the management of the insane asylum.

Strict Regulations to Protect Farmers

Rigid regulations for commission merchants are prescribed in a bill introduced in the house by Representative Blanchard, of Josephine county. The bill amends the present law relating to commission merchants, and provides for the transfer of jurisdiction over them from the state railroad

commission to the secretary of state. Provision is made that before a commission merchant can engage in business he must obtain a license and give a bond that he will faithfully report to all persons consigning horticultural, agricultural and viticultural produce and farm products to him, and promptly pay to each the proceeds of all sales after deducting a commission of not more than 5 per cent on carload lots, and 10 per cent on smaller lots, and actual disbursements connected with the sale of the produce.

The bill providing for the creation of a state horticultural commissioner, prepared by the state horticultural society, was introduced in the house by Representative Vawter, of Jackson.

The measure aims to regulate the fruit and orchard industry of the state, prescribes uniform inspection systems and requires owners to spray their trees and otherwise protect them from insects and various other forms of pests.

The measure proposes to abolish the present board of horticulture and place a commissioner to be appointed by the governor in charge. His salary is fixed at \$3000 a year.

It also provides for the appointment of fruit tree inspectors in those counties of the state that care to appoint them at their own expense. Such inspectors, however, are to be subject to the regulations of the proposed law and report to the state commissioner.

Imported Eggs Got Attention in House

Three bills striking at imported eggs were introduced in the house by Representative Allen, of Marion county. The first provides that all eggs imported and sold in the state shall be marked "imported" the second that all food products in packages in which eggs are an ingredient shall be marked "imported eggs used," the third provides that drink dispensers who use imported eggs in any drink they sell must have a sign posted in their establishment advising the public of this fact.

Woman Legislator Introduces Bill.

Miss Marian B. Towne's first bill to be presented to the house was introduced Friday. The only woman in the legislature has a measure to punish conspiracy, the present laws, she says, having nothing to cover the point. She would punish by a fine of from \$100 to \$10,000 each person who accomplishes any part of the conspiracy or would imprison him from 30 days to one year in jail or in the penitentiary from one to five years.

Tax Bills Are Introduced.

Senator Smith of Coos and Curry introduced a bill for a new tax law. It changes the date for which assessments should be made from March 1 to January 1, and provides that the first payment shall become due on November 1, of the year in which the assessment is made and the second payment shall become due April 1 of the following year. No penalties are provided.

Senator Barrett, of Umatilla, also introduced a tax bill in the upper house, and members of the Multnomah county delegation have another measure in course of preparation. It probably will be introduced in the lower house within a few days. These measures are similar in some particulars but differ in other essential provisions. Both provide for semi-annual payments. The Multnomah county bill allows a discount for all payments in excess of 50 per cent made at the first period, while the Barrett bill does not. The Multnomah county bill attaches a penalty of 12 per cent per annum against delinquent payments, while the Barrett penalty is fixed at the rate of only 8 per cent. The payments dates also differ.

Legislative Nuggets.

Indications are that Senator Dimick's bill to abolish the Oregon naval militia is going to have easy sailing in the senate.

A bill designed to keep heavy freight automobile trucks off unpaved highways at certain seasons of the year was introduced by Senator Vinton. It provides that they shall not go on unpaved highways between October 15 and April 15 following.

Surgical treatment and hospital care for indigent, crippled and deformed children of the state are provided for in a bill introduced by Senator Garland of Linn county.

A bill providing that persons liable by statute for inmates of the state insane and feeble-minded hospitals, if able, pay to the state \$15 a month for the maintenance of each inmate was introduced in the senate by the Marion county delegation.

Provision is made in a bill introduced in the house by Representative Schuebel for the abolition of the present state fish and game commission, and the substitution therefor of a commission to consist of the governor, master fish warden and state game warden.

Resolutions providing for submission to the people of constitutional amendments designed to put an end to frauds in connection with the circulation of initiative, recall and referendum petitions were introduced by Senator Day. It is planned to bar persons from signing petitions who are not registered voters.
