MATT T. HUGHES,
4t. Lone Rock, Oregon.

Ben Swaggart has just finished re-seeding 2000 acres of grain on his farm northeast of Lexington. The good rains of late are causing the wheat raisers of that locality to feel much better, and the grain is now beginning to come along in fine shape. Ben thinks it pretty tough, however, to sell his grain for 80 cts. and then have to buy it back again for re-seeding at \$1.50.

Alfalfa Seems to be Dying.
From some cause or other much alfalfa along the Butter creek bottoms is dying. The growers over that way do not seem to know what is the cause but many fields seem to be affected. Mr. W. O. Dennis, who called at this office while in town on Tuesday, is authority for the statement and he fears that the residents of the alfalfa section are facing a serious problem. Some seem to think the killing of the plants is caused by the severe freezing of the past winter

while others are laying the trouble to some insect that is at work, but whatever the cause, the fact remains that many fields are dying out apparently, and the growers are coming up against a shortage. Mr. Dennis noted some fields nearer Heppner that seem to be suffering just as are those on Butter creek.

E. P. Jarmon came over from his Butter creek ranch yesterday and was registered at the Palace.

Olex and Ione waged war with one another last Sunday in the shape of a base ball game. The rain made the game a little late in getting started but it did not wet the spirits of either team. Both sides played good ball all the way through. The Ione boys were victorious, the score being 3 to 5. Werner Rietmann umpired the game and we did not hear any unpleasant remarks concerning his work from either side during the entire course of the game.
