An Early Market at Stanfield.  
The first strawberries of the season for the market were brought in Monday by W. A. Burton who is leasing Judge Phelps' place. Mr. Burton reports that he has had berries for home use for more than a week and that in a few days more he will have sufficient for shipment. Other places on the project are beginning to gather ripe berries also, and there should be a large quantity on the market soon.  
Berries here are as early as any locality in the northwest and it is a pity that there are not more planted.

Portland, May 4.—Oregon's marvelous scenic wonders, with the 9th annual Rose Festival, June 9, 10 and 11 as a fitting climax, will be the basis for the photoplay, "The Land of Promise," to be produced in Portland by the Northwest Weekly, an Oregon motion picture company. The purpose of the photoplay will be to include the scenic attractions in various portions of the state about a story of the early history of Oregon. N. Olness, who will produce the picture, will have the cooperation of the Rosarians and the festival association. The scenario was written by Pearl Bailey, a Portland girl, and was considered the best out of more than thirty plays submitted to the judges.

A company of photoplay actors will be taken on a tour of the state and pictures will be staged at the Pacific Ocean coast line; on the Columbia highway, near Mt. Hood, along the Columbia river, at Crater Lake National Park, in the caves of Josephine county near Grants Pass; along the Deschutes river in Central Oregon and in fertile valleys. There will be more than 100 scenes and the photoplay will be produced in two reels and placed on motion picture circuits covering theaters all over the civilized globe.

### DON'T RAISE WEEDS ON YOUR SUMMERFALLOW!

USE A  
**Jones Weeder**

"Made in Morrow County"  
(Patented Dec. 16, 1913.)

Summerfallowing is being done earlier this year than common. Weeds will come earlier and there will be more of them. Get after them early before they ruin your Summerfallow. The JONES WEEDER is the best and most speedy weeder ever built for that purpose. Built in sections like a harrow; each section cuts five feet and you can use as many sections as you want. The knives have a slope of 60 degrees and will not choke under normal conditions.

This weeder has been tried out on the same field with other weeders and has done more satisfactory work. The JONES WEEDER has been fully tested. Ask a farmer who uses one. For further particulars, prices, etc., write
