PORTLAND NEWS LETTER

Portland, May 18.—That the dairymen of the Willamette Valley are fully alive to the importance of improving their herds is indicated by the phenomenal success of the auction sale of registered and grade Jerseys at Independence last week. The total number of animals changing hands was 185, of which 135 were registered merit cattle. This is the largest number of Jerseys of this class ever offered at one sale in the United States. Congressman McArthur was one of the largest buyers, securing ten animals at a total cost of \$2,590, his highest price being \$375. Other high bids were: H. H. Curtis, \$500; W. L. Pate, \$400 and W. B. Allen, \$395. As many as 36 head of Jerseys were brought to this sale by a single breeder.

Prof. Thos. Shaw, the noted agriculturist of the Great Northern system, accompanied by a party of high officials of the Hill lines, will make a tour of Central and Eastern Oregon during the week beginning May 31. This will be an educational trip, the experts in the party giving lectures and demonstrations at all principal points in the territory visited. They will study the Tumalo project and other irrigated and dry-farming sections and on their return will make exhaustive reports for the benefit of the railway immigration department.

Governor Withycombe has designated September 21, 22 and 23 as the dates for the waterpower and public land conference of Western states which will be held in Portland. At its late session the Legislature provided for such conference and authorized the Governor to fix the dates. The Oregon delegation will be: E. B. Piper, of the Oregonian; W. Lair Thompson, president of the senate; S. B. Huston and S. C. Hudson, of Bend. The Governor will act as chairman of the delegation.

At the convention of the Columbia and Snake River Waterways association at Astoria last week, W. W. Harragh, of Pendleton, said: "If the open river causes a reduction of but two cents per bushel on wheat, it will save Umatilla county alone \$120,000 per year, and if corresponding reductions are made on other commodities shipped from that county, it will mean the saving of more than half the county's annual taxes of \$400,000."

All preliminaries having been settled, work of clearing the right of way for the California & Oregon Coast Railway, from Grants Pass to Crescent City, Cal., will be started at once. The contract provides that the line shall be completed to Hays Hill within six months and that the first 40 miles shall be finished in 40 months. This line will open up the rich copper region of the Illinois River and the timber country below it.

As an echo of the recent opening of the canal at Oregon City for the free passage of river craft, it is announced that a line of boats to carry passengers and freight will be put on between Portland, Dayton and McMinnville, on the Yamhill River. A small job of dredging will make that river easily navigable for light draft steamers.

In an effort to stimulate the use of Oregon manufactured goods and Oregon labor, the Chamber of Commerce of Portland yesterday began a campaign through its bureau of industries and manufactures to take advantage of the Bingham bill which becomes effective as a law this month, and which was passed at the last legislative session.

The Bingham bill gives a preferential of five per cent in favor of goods manufactured in Oregon, or in favor of Oregon labor, in the consideration of competitive bidding before county courts, boards of county commissioners, school boards, city councils, or other public officers authorized to purchase supplies or contract for labor.

"In plainer English, a purchasing officer is authorized to accept as the lowest bid for labor or supplies that are offered by representatives of Oregon products, if the bid of the latter is not more than five per cent higher than the lowest bidder from any other state," said Geo. D. Leg, secretary of the bureau. "It is intended to counterbalance the difference in the cost of production, as between local and foreign concerns. It somewhat adds to the handicap of the foreign manufacturer represented by freight rates, and it should prove an encouragement to the establishment of factories for the manufacture of those items needed in the building of roads and bridges and materials consumed by municipal purchase.

"Senator Bingham introduced the bill after consultation with representatives of the organizations which have been struggling to enlarge the market for those factories already here and to pave the way for others yet to be secured.

"In the opinion of David M. Dunne, and other pioneer manufacturers, the Bingham measure will prove of great value."

New Business House Opens. "The New Brunswick is the name of the new pool hall which A. W. Sanderson, a recent arrival from the East is opening up in the old Gazette building on South Main street. The building has been thoroughly renovated and put in first class condition. A full line of tobacco and cigars and confectionaries will be kept in stock. Mr. Sanderson states that they will install four new pocket billiard tables and also a number of card tables.

Mr. Sanderson has a wife and three children who will arrive as soon as he gets located. They come to this part of Oregon primarily for Mrs. Sanderson's health, and Heppner's excellent school had much to do with their choosing this city for a location.
