**MORROW COUNTY OFFICIAL PAPER**

Thursday, May 27, 1915.

**JOHN T. MORELAND.**

The death of John T. Moreland occurred at his home in Monmouth, Oregon, May 12, 1915. Mr. Moreland was a resident of this county for some thirty years. He had been an invalid for the past eight months but was not taken seriously ill until a few days before his demise and suffered very severely five days before passing away. He was patient through it all and seemed to only be waiting for God to call him. He was a faithful member of the Christian church, and had been for the past 17 years.

John T. Moreland was born in Platt county, Missouri, November 7, 1837, and at the time of his death was 77 years, 6 months and 5 days old. He was married to Martha A. Miles, November 24, 1864, and to them four children were born: James W. Moreland, who passed away at Sisters, Oregon three years ago; Frank J. Moreland and Edwin L. Moreland, of Monmouth and May M. Coats, of Heppner.

He, with his family, moved from Platt county, Mo., to California in 1874 and resided there until 1878, removing from there to Morrow county, Oregon in 1880, where they resided on a farm in the Hardman section until 1908 and then moved to Monmouth where he continued to reside until his death.

Funeral services were held at the family residence, conducted by Pastor Wood of the Christian church, and the body was laid to rest in the K. of P. cemetery at Monmouth.

He spent some time at The Dalles on his return to Heppner. He is now busy getting his place shaped up here.

J. H. Cochran was in Heppner on Tuesday looking after business matters. He has been hunting coyotes off and on since March and has turned in 264 scalps to the county clerk, for which he has received pay. This covers what Mr. Cochran killed in Morrow county, and he turned over four to the clerk of Gilliam county besides. This puts him far in the lead as having turned in the largest number of scalps to date, and he expects to get a good many more. They played another game on Sunday which capped the climax. The weather was fine and a large crowd was in attendance. We counted about twenty Ford's and several automobiles surrounding the ball ground. The boys played a dandy game, the score being one to nothing in Ione's favor up to the seventh inning, then Umatilla run in three counts. Dr. Chick was called at once and before he could get there the man was beyond recall. Mr. Peterson was a nice young man and it is supposed he became despondent about something and done away with himself.

Watch this space for further notice.

From the last issue of the Fossil Journal, we gather the following concerning the loss of stock in Wheeler county resulting from the attacks of coyotes infected with rabies:  
Dr. W. H. Lytle, state veterinarian, and Dr. L. L. Taylor, deputy state veterinarian, were in this vicinity Sunday and Monday inquiring into the rabies cases that have resulted in the death of about 30 head of cattle in this district. They cut out the brains of a calf belonging to Wayne Hamilton and a cow belonging to

Chas. Prindle and sent them to Portland to be examined by the state bacteriologist, who has since reported that both animals had rabies. Mr. Prindle is the heaviest loser, 21 head of his cattle having either died or been killed when in a mad condition. As other cattle running on the range with Mr. Prindle's are not affected, it is practically certain that his cattle must have been bitten by a mad coyote more than a month ago, before he turned them out of his pasture. Hamilton's pasture adjoins Prindle's

and it is probable that the cow and 7 months' old calf he lost were bitten by the same coyote that ran amuck in Prindle's pasture. It is believed that the bitten cattle have about all had the disease by this time, and that there will be few if any more losses from rabies in this vicinity at this time.

Pendleton closes next Sunday morning.  
Dr. H. T. Allison has moved his office into the Gunn building on Main street with Dr. A. P. Culbertson.
