Tired Feet and Flatfoot Cured

Look at your shoes! Are they tight? Do your feet feel tired, cramped, hot, or irritable? Have you weak ankles, pains in the heel or in the limbs?

These are symptoms of weak instep or broken down arch—later, flat-foot and sure to bring you pain and trouble unless remedied now.

All you have to do is to hold up the bones of the foot, in their true and natural positions, until Nature knits them in place.

The Scholl "Foot-Eazer" does this. It supports the arch or instep bones properly and in a practical, comfortable, and self-adjusting manner.

The Scholl "Foot-Eazer"

is a scientific invention, constructed on strictly anatomical principles. It is a double spring arch support which will place the broken down or misplaced arch bones in their true, normal and graceful position.

Positively cures tired or aching feet and limbs, and all foot ailments. It is easily fitted in any shoe—is self-adjusting and comfortable to wear. Made of German Silver springs, rubber covered.

Price, \$2.00 per pair. All sizes, for men, women and children. Come in today. Try a pair of "Foot-Eazers" on ten days trial—money back if they don't cure your foot complaints.

A Tired Face

Is Good Evidence That the Owner Has Foot Trouble

Thousands of adults suffering with rheumatism, with leg pains, weak ankles, tired and aching feet, bunions and callouses, should know that they are in the clutch of flat-foot.

The arch of the foot is breaking down, causing all these ailments.

The Scholl "Foot-Eazer" gives permanent relief by providing the necessary elastic support to the arch or instep, and providing just the right pressure at the right spot.

is made of two German Silver springs, leather covered, and are worn unobtrusively in any shoe. Can be taken out and changed from one pair to another. Better than special made arch support shoes or apparatus.

They ease the feet by helping Nature, and are a practical, orthopedic invention, endorsed by the medical profession.

"FOOT-EAZERS" brace you up — are a cure and prevention for foot troubles.

If you know of a friend whose feet are troublesome, recommend "FOOT-EAZERS". At all shoe stores.

When you need two-vision lenses—be sure to get KRYPTOK LENSES

(Worn by over 250,000 people)

For all other two-vision lenses there is a line or seam between the near and far vision portions that makes the wearer look less than his best, and unmistakably brands him or her with a sign of age.

Kryptoks are double-vision lenses that look exactly like regular one-vision lenses, because there are no lines or seams in them.

Dr. Winnard can supply these lenses

Satisfaction guaranteed or money refunded.
