Ladies Beauty Pins, Box of Candy, Fountain Pens, Gents Tie Clasps, Safety Razors.

### A PRIZE TO EVERYONE

## LITTLE MARY PUZZLE

TRY IT—CAN YOU SOLVE IT?—TRY IT

FIND THE PIANO AND MUSIC TEACHER AND WIN A VALUABLE PRIZE

CONTEST CLOSES JUNE 30, 1915

All answers to puzzles must be sent in to us not later than June 30, 1915. Everyone has an equal opportunity of securing one of the above prizes. Don't delay answering, but write your name and address plainly and send in your answer today.

Name.....  
Address.....

Everyone sending in his solution before the above date, will also receive from the Northwestern Offices of the Pianos we represent, in addition to the premium mentioned above, a Piano manufacturers' receipt for One Hundred and Five Dollars, (\$105.00), which will be received the same as gold coin on any new Piano or Player Piano in our store, provided the receipt be used within the date shown on its face.

**NOTE**—Read the conditions for obtaining prizes Nos. 1, 2, 3 and 4. All contestants who call at our store and use their receipt, will receive their choice of any of the four prizes. Namely—Forty dollar Musical instruction course, Ladies Gold watch, Gentleman's Gold watch, Chest of Rogers Silver.

**REASONS FOR THIS GREAT OFFER.**  
For many years the Piano dealers have been trying to reduce the selling expense of Pianos; the old way of paying solicitors, paying teachers commissions, and engaging great Artists to play Pianos at fabulous sums, we are trying to eliminate. We are therefore working with the manufacturers and wholesalers, on an expense sharing campaign, to sell within this district the greatest number of pianos at the least possible expense.

We are manufacturers' agents for instruments of proven quality, comprising some of the world's most famous makes. Remember, your solution must be in our hands before June 30, 1915. This date has been made imperative by the manufacturers themselves, and we have no authority to extend it.

### Sheepman Suffers Some Loss.

While moving his bands to the summer range in the mountains on Friday, W. W. Howard of Butter creek suffered the loss of about sixty head from the severe rain storm. It was very cold on the ridges, and snow and sleet fell in abundance. After passing the Con Carty place the sheep began to beat back and by the assistance of Mr. Carty and others they were corralled and held until the storm abated. Some very slight losses are reported from other owners, but nothing of a serious nature.

### Former Pastor to Marry.

Friends at Heppner have received announcements of the marriage of Rev. William Norton Ferris and Miss Adaline Keeney, to be solemnized at Calvary Baptist church, The Dalles, Oregon, on Sunday, June 27th, 1915. The announcement states that Mr. and Mrs. Ferris will be at home at The Dalles after September 1st. Rev. Ferris was formerly pastor of the Federated church at Heppner and for the past few months has been serving in the pulpit of Calvary Baptist church at The Dalles.

### Farmers' Union Elect.

The Heppner Farmers' Union Warehouse Company held their regular annual meeting at their offices in this city on Monday. W. G. McCarty, J. A. Adams, Oscar Keithley, Fred Ashbaugh and C. E. Jones were elected directors for the ensuing year. The board of directors then convened and named the following officers: Fred Ashbaugh, president; W. G. McCarty, vice president; C. E. Jones, secretary; Oscar Keithley, assistant secretary and J. A. Adams, treasurer. The board holds their meetings once every month.

### Is Injured By Fall.

Mrs. Emmett Cochran, who is visiting in Heppner with her husband, met with quite a serious accident on Wednesday evening by a fall down the stairs in the Palace hotel to the landing from the second floor. In the fall she sustained severe bruises, one shoulder being badly hurt, and a cut just below the knee required some twelve stitches at the hands of the surgeon to bring the severed parts together. The bone was laid bare for about three inches. Mrs. Cochran is getting along well at this time under the care of Dr. McMurdo.

### Hale & Hale Is New Firm.

Edward Hale has bought the interest of Ora Yeager in the firm of Hale & Yeager, becoming a partner of his brother, Jess Hale, and the firm name has been changed to Hale & Hale. Edward Hale is an expert furniture and cabinet maker, having worked for five years with the Oregon Furniture Company in Portland. For the past few months he has been working for his brother. These gentlemen have a well equipped shop, with modern tools, in the building at the rear of the Case Furniture Company store. They do contracting and building work and can give you estimates on any and all jobs.

### Former Heppner Boy Weds.

Paul N. Maris, son of Mr. and Mrs. Newton C. Maris of 35 East Ninth street north, arrived at his home Tuesday evening, bringing with him his bride of but a few days. Mr. Maris is county agriculturist of Saline county, Missouri.

The marriage took place at Kansas City, just before he started for Portland. Mrs. Maris was Miss Mary Elizabeth Davis, a graduate of Missouri Valley college, and is a most charming and accomplished young woman.

Paul Maris is well known in Portland and Oregon through many years former residence. He was at one time chief deputy in the office of the dairy and food commissioner. They will leave for California and the Panama-Pacific exposition the latter part of next week, then return to their new home at Marshall, Missouri.—Oregon Sunday Journal.

### Swap Back Again.

A trade was made during the past two weeks whereby Hugh Currin purchased the alfalfa farm of Gus Wilcox at Jordan Siding. After looking around for sometime to find a place to move to with his family and falling to get what he wanted either at Heppner or Ione, Mr. Wilcox decided that he wanted his farm back, and offered Mr. Currin a neat advance in price to deed it back to him. Mr. Currin did this, and he is now scouting around for a place for himself and family to live in the meantime. Houses to rent in Heppner are out of the question at this time and scarcely a day passes but this office receives a call from some one wanting a house to rent. Just what it will be when school opens in the Fall is only a matter of conjecture. Mr. Currin is but one of many who desire to take up their residence here to take advantage of the school.

### THE CONFECTIONERY HARDMAN, OREGON

WILL SERVE ICE CREAM HERE—AFTER ON SATURDAYS AND SUNDAYS.

COMPLETE LINE OF CONFECTIONERY—FRUITS IN SEASON.

W. H. AYERS, Proprietor

C. A. Minor says the big rains during the week are just what the country needs for all varieties of crops. They have been a little hard on the sheepmen who were just ready to move their flocks into the mountains, but are assured of abundant feed later on. The wheat fields appear to be so well supplied with moisture now that even a partial failure in the crops can scarcely be expected. Crop development in Morrow county the past few weeks has certainly been wonderful.

### THE EDITOR.

Consider the editor. He weareth purple and fine linen. His abode is amongst the mansions of the rich. His wife hath her limousine and his first-born sporteth a racing car that can hit her up in forty flat.

Lo! All the people breaketh their necks to hand him money. A child is born unto the wife of a merchant in the bazaar. The physician getteth ten golden plunks. The editor writeth a stick and a half and telleth the multitude that the child tippeth the beam at nine pounds. Yea, he lieth even as a centurion. And the proud father giveth him a cremo.

Behold, the young one groweth up and graduateth. And the editor putteth into his paper a swell notice. Yea, a peach of a notice. He telleth of the wisdom of the young woman, and of her exceeding comeliness. Like unto the roses of Sharon is she and her gown is played up to beat the band. And the dressmaker getteth two score and four iron men. And the editor getteth a note of thanks from the S. G. G.

The daughter goeth a journey. And the editor throweth himself on the story of the farewell party. It runneth a column, solid. And the fair one remembered him from afar with a picture postal card that costeth six for a jitney.

Behold, she returneth and the youth of the city fall down and worship. She picketh one and Lo, she picketh a lemon. But the editor calleth him one of our most promising young men and getteth away with it. And they send unto him a bid to the wedding feast and behold, the bids are fashioned by Mungumery Hawbuck, in a far city.

Flowery and long is the wedding notice which the editor printeth. The minister getteth ten bones. The groom standeth the editor off for a twelve-month subscription.

All flesh is grass and in time the wife is gathered into the silo. The minister getteth his bit. The editor printeth a death notice, two columns of obituary, three lodge notices, a cubit of poetry, and a card of thanks. And he forgetteth to read proof on the head, and the darned thing cometh out, "Gone to Her Last Roasting Place."

And all that are akin to the deceased jumpeth on the editor with exceeding great jumps. And they pulleth out their ads and cancelleth their subscriptions and they swing the hammer unto the third and fourth generations.

Canst thou beat it.—Stayton Mail.

### Forest Notes.

News print paper has been made by the Forest Service laboratory from 24 different woods, and a number compare favorably with standard spruce pulp paper.

The Forest Service is cooperating with 54 railroads, mining companies, and cities in making tests of wooden ties, timbers, poles, piling and paving blocks which have been given preservative treatments.

In 1895 there were 15 wood preserving plants operating in the United States; in 1914 the number had increased to 122, representing all types of plant.

The 1914 figures, based upon reports from 94 plants, show that the total number of cubic feet of material treated with preservatives was 159,582,639 cubic feet. This was an increase of 5,968,751 cubic feet over the total for 1913. Of this increase, 109,980 cubic feet was made up of piling, and 3,577,751 more cross ties were handled than during the previous year.

During 1914, nearly eighty million gallons of creosote were used by the preserving plants of the United States.

### Hermiston Dairy Show is Strongly Endorsed.

Oregon Agricultural College, Corvallis, June 14.—In a dairy meeting that represented every section of the Hermiston country all the dairymen were unanimous in favor of holding their annual dairy show, says the Hermiston Herald of recent date. Great enthusiasm prevailed among the dairy and hog men in the matter of making the 1915 dairy and hog show better than ever. The dairy show officers are F. B. Swayze, H. M. Straw and C. S. McNaught.

The exact date of the next show was not announced but it will be late enough to permit entrymen time to get their stock in shape for the show and their work well enough along to allow plenty of time to attend the show and get the full benefit of the exhibit and sales.

### Swine on Dairy Farms.

"Swine are particularly adapted to dairy farms where the skim milk can be made to fill in the gap between the weaning and fattening period," says G. R. Swanson, swine specialist at the Oregon Agricultural College. "With the exception of high-grade dairy heifer calves, pigs will pay a better price for skim milk than any other class of stock, and pigs do not come very largely into competition with dairy cows for the products of the farm. Pigs can use but very little of the rougher forages on the farm, which form the basis of the ration of the dairy cow, and the fattening pig is a large consumer of concentrates. In fact, under most intelligent systems of farming, pigs and dairy cows on the same farm will pay better than will either the one or the other of these kinds of stock raised exclusively on the same farm. The exception to this rule is found in localities where milk condenseries have been developed so that there are a few by-products of the dairy business which can be utilized in pig feeding."

### For Sale.

75 cords wood, \$2.50. 3000 posts 4c each. Near Slocum Mill. Haul them yourself.
