**What Are
YOU Worth
From the
NECK
UP?**

It is estimated that the average man is worth \$2 a day from the neck down - what is he worth from the neck up?

That depends entirely upon training. If you are trained so that you plan and direct work you are worth ten times as much as the man who can work only under orders.

The International Correspondence Schools go to the man who is struggling along on small pay and sky to him. We will train you for promotion right where you are, or we will qualify you to take up a more congenial line of work at a much higher salary.

Every month several hundred students voluntarily report advancement as the direct result of I. C. S. training. You need not leave your present work, or your own home. Mark this coupon at once and mail it.

International Correspondence Schools

Please indicate whether further education in any part, how it can qualify for the position, trade, or profession before which I have marked X.

TYPHOID is no more necessary than Smallpox. Army experience has demonstrated the almost miraculous efficacy, and harmlessness, of Antityphoid Vaccination. Be vaccinated NOW by your physician, you and your family. It is more vital than house insurance. Ask your physician, druggist, or send for "Have you had Typhoid?" telling of Typhoid Vaccine, results from use, and danger from Typhoid Carriers. THE CUTLER LABORATORY, BERKELEY, CAL. PRODUCING VACCINES & SERUMS UNDER U. S. GOV. LICENSE

Some nice rooms to rent; just recently repapered and painted. See Henry Schwarz at Peoples Cash Market.

Bacon, finest sugar cured, and a home production, at the City Meat Market, 20 cents per pound. If.

FOR SALE - 4-foot pine wood and fir posts. PHILL COHN. Inquire of Milt Maxwell, Parkers Mill, Ore.

Dr. Allison would call your attention to the fact that his office is now established with Dr. Culbertson in the Gunn building, two doors north of Minor & Co. If.

TWENTY-FIVE YEARS AGO IN HEPPNER

Heppner Gazette of July, 1890.
The Harney Items of June 25th, reached this office on July 28th, a little over a month in coming 125 miles. Fine mail service we have in this part of the country.

J. C. Hayes made this office a pleasant call on last Saturday afternoon. He will leave shortly for Ellensburg, Wash., where he expects to remain for several months.

Harry Warren came over from Pendleton on Monday evening. He came in response to a telegram from A. D. Johnson, who is quite sick and wanted him to run his drug store here until he is able to be around again.

Nels Jones, Gid Boyer and James Jones returned last Friday from the east, where they went about a month ago with a train load of horses. Mr. Boyer visited his relatives in Virginia before returning.

Wm. Ingram of Gooseberry made this office a pleasant call on Friday. He states that the grain crop in that section is excellent. The hay is probably not so long as last year, but will make more tons to the acre as it stands thicker on the ground.

On Monday evening a meeting was called by about fifty of our citizens to consider the question of sinking the artesian well deeper. J. W. Morrow was elected chairman. Many speeches were made, and the action of the council in ordering a special vote of the taxpayers of the city on the question of bonding the town in the sum of \$5000 to continue the boring was approved. This vote will be taken on Saturday, August 9. The artesian well is now down 524 feet and the water rises to within 12 feet of the surface.

Yesterday morning Arthur Minor, G. B. Tedrowe, Chas. Jones and Grant Buchanan, left for Desolation Lake to be gone for a couple of weeks. They went prepared to do a large amount of hunting and the wild beasts up in that country will likely be diminished in numbers to a great degree ere they return. They will probably visit Baker City before they return.

IRRIGON.

Judge Garver was a Portland visitor Monday.

The C. F. Bramlet family left for Heppner Saturday.

Oscar Corey is doing some repair work on the schoolhouse.

H. L. Wykoff and family moved back to Hermiston Monday.

Mrs. Joyce Hayes and niece, Eloise Wright, left for Salem Wednesday.

Frank Doble is in Pendleton this week, taking the state teacher's examinations.

Mrs. Al Walpole is visiting her father in Grass Valley this week. She will be gone over Sunday.

Jack Deardorf and family from over on Butter creek visited in Irrigon from Friday to Sunday with the Stockard family.

Karl Boucher returned from Portland where he has been visiting with friends and relatives for the past two weeks, Saturday.

An unknown man was killed east of Bailey Sunday. The Pendleton coroner was called and the remains taken to Umatilla.

Misses Lois Green and Lila McMillan were down from Hermiston Saturday visiting Mrs. Ralph Finley. They departed Sunday.

Jess Jordan came up from Portland last week and spent a few days with his sister, Mrs. V. M. Ray. He returned to his home Sunday.

GROWING COLTS NEED PLENTY OF PROTEIN
Oregon Agricultural College, Corvallis, June 28.—The chief need of colt's feed is protein and mineral matter or ash, say the O. A. C. Animal Husbandry officers. It is therefore especially important that these nutrients be supplied in the proper quantities. On an average the proper nutritive ratio for growing horses will be about one to five or one to six; that is, the ration will need to contain from five to six parts of carbohydrates, or their equivalent, to one part of protein.

Of the common feeds best adapted to produce such rations may be mentioned the leguminous hays, such as alfalfa, clover, and vetch and among the grains, oats and bran are the best. The native pasture grasses when thrifty will usually supply about the proper nutrients for the growing horse.

Among the feeds which are deficient in protein and mineral matter, and therefore unsatisfactory for growing horses, may be mentioned timothy hay, cheat hay, corn and barley. When any of these feeds are used for young horses a liberal amount of other feeds containing large quantities of protein and mineral matter be supplied. A great many people make a mistake by not supplying the young horses with a liberal enough ration, especially during the first year. After the colt is weaned from the dam it is a very hard matter to keep it up in good shape, and at such time special care and feed should be given it. The feed is seldom made too liberal at this time, since this is the time to "shove" the colt if exceptional growth is desired.

Most horsemen agree that if you stunt the colt you stunt the horse, and that if you have a stunted yearling you seldom get a good-sized mature horse. On the other hand, a well grown yearling does not need the feed nor care afterwards that the stunted one demands. After the young colt passes the yearling stage, it does not need special care nor the feed that the colt does during the first winter.

FOR TRADE.
A good rooming house in La Grande for Morrow county property. Inquire SMEAD & CRAWFORD.

Heppner Merchant Arrested.
From the Daily Oregonian of June 29, we take the following:
Maurice and Leon Kopple, brothers, who operate merchandise stores in Heppner and Condon, Ore., were arrested yesterday by Deputy United States Marshals on charges of fraudulent use of the mails brought in on information filed by Assistant United States Attorney Rankin. Deputy Marshal Fuller arrested Leon Kopple at Condon, and Maurice Kopple was arrested by Deputy Marshal Jackson as he got off a train from the east in Portland. They were released on \$3000 bail each. It is said that the federal authorities had been seeking these two men for two years on a charge of using the mails to defraud in South Carolina.

New Road Nearly Completed.
The new Willow creek road above Heppner is nearly completed, according to George Whitcomb, the contractor in charge. Mr. Whitcomb says his work would have been completed by the first of July had it not been that he encountered some trouble with his grading crew. However, he expects to turn the road over to the county by the time specified, which is July 15. All powder work has been completed and the grading is all that now remains to be done.

SPECIAL SUBSCRIPTION OFFER

The best family daily paper in the state and your own weekly paper for

\$3.50

The Daily Portland Telegram and The Gazette-Times both one year for

\$3.50

This offer will be in force from now until July 15, 1915 and may be taken advantage of by new as well as old subscribers. Subscriptions are for one year in advance. Old subscribers to The Gazette-Times in order to participate in these rates must pay up all arrears due and the \$3.50, in addition will pay for both papers one year in advance.

GOOD ONLY UNTIL JULY 15, 1915

PERFECTION AT AST

Terriff's Perfect Washing Machine

Is the cheapest, most convenient and easiest working machine in the world.

Interior of Superb Siamese Palace at the Panama-Pacific International Exposition, San Francisco

THIS photograph shows the interior of the palace erected by the King of faraway Siam at the Panama-Pacific International Exposition in San Francisco. In this palace priceless oriental treasures are shown. The palace is an exact duplicate of the palace in the Royal Gardens in Siam and was carved out of ebony, set up in Siam and then taken apart and brought to San Francisco in knocked down shape.
