We would call your attention to his ad in another column. James and George Burnside were down from their farm near Hardman Tuesday. They report harvest under way in their locality. Laurence Sweek, a prominent Grant stockman who lives near Monument, arrived in the city the first of the week on a business trip. No threshing has been done out his way yet. Mrs. Chas. Huston, of Eight Mile, who was operated on at the Heppner Sanatorium some two weeks ago for the removal of gall stones, is reported to be doing well at the present time and should be able to leave the hospital in another ten days or two weeks. Frank Gabler, employed at the blacksmith shop of H. C. Ashbaugh, was unfortunate in getting a chin of red hot iron in one of his eyes Tuesday morning. The mishap caused him a lot of pain for a while but this was relieved by the attention of a physician. Matt T. Hughes, rancher of the Lone Rock section, was a visitor in Heppner Friday and Saturday. He is preparing for his hay harvest which he announces is unusually fine this season. Matt is running both cattle and sheep and is well satisfied with his new location. Forest Supervisor Cruder was over from Pendleton on Saturday and Sunday, looking after the interests of the service in this end of the district. He returned to Pendleton Monday and expects to be back this way shortly for a stay of some weeks, adjusting matters between the various ranger stations. Theo. Anderson was in from Eight Mile on Tuesday making preparations for beginning his wheat harvest. While the hot weather did some damage to a part of Mr. Anderson's grain he has some that will turn out well and says he will be able to keep the wolf from the door for another year at least. Jas. Farley got in Friday evening from his summer range. His allotment is in the vicinity of Desolation lake where he arrived with his flocks in good shape the latter part of May. He says that feed is extra good there this season and sheep should come home from the mountains in excellent condition for the winter. While at work one day this week with a derrick fork on the ranch of Mike Kenny, Phillip McCabe got a finger caught in the pulley, and had the member so badly crushed that it was necessary to have part of it amputated. Coming to town, he called on Dr. McMurdo, who dressed the finger and he is now doing all right. This is the third case treated by Dr. McMurdo within the week where the parties got their hands in the pulley of a derrick fork.

Frank Lienallen, of Rhea creek, left a fine sample of forty fold wheat at this office Saturday. He will not thresh any grain this year, cutting all of his crop for hay, however, this grain would have made a good yield, if put through the machine. J. A. McLaughlin, the pioneer sawmill operator of Butter creek, was in Heppner on Saturday and Sunday. Mr. McLaughlin has been furnishing the county with some bridge lumber and was here to settle with the court and to attend to other business matters. The Home Theater now has a contract with the George Kliene people, and those high class films will be shown at the Home every Friday and Saturday evening, beginning with August 13. H. V. Gates, president of the Heppner Light & Water Company, arrived in the city Monday evening. Mr. Gates recently received some severe scratches and bruises when he and his son met with an auto accident over in Tygh Valley. Mr. Gates was thrown through the wind shield and was unconscious for some time. That neither man received more serious injuries is considered remarkable as well as lucky. The trouble was caused by the emergency brakes failing to work properly while the machine was going down a steep grade. J. H. Frad, successful Blackhorse farmer, was in Heppner Saturday and reports his grain quite badly damaged by the recent hot wave. He is busy keeping the weeds off his summer fallow and has gone over it for the fourth time this season. His place is fenced hog-tight, and he keeps both sheep and hogs to assist in caring for the waste on the place. The sheep are excellent weeders and keep all the nooks and corners clean—no small item for consideration when a man is determined to rid his farm of the weed pest.

They were straightened out however, before any damage was done. Chester Gemmill, who farms the home place belonging to his father, J. H. Gemmill, near town, has promise of a fine yield of bluestem judging from the sample left at this office. The heads are long and the berry is plump and fully developed, showing no ill effects from the hot weather. Consult Drs.
