Mr. and Mrs. Roy Misalline, of Black Horse, were passengers to Portland Tuesday, on their way to spend a short vacation at Newport.

The family of M. D. Clark departed on Sunday for Portland where they will be joined later by Mr. Clark and go on to the coast for their vacation.

Postmaster and Mrs. Richardson spent Sunday at the country home of Mr. and Mrs. L. A. Florence, up Willow creek, where they enjoyed a bountiful dinner and a pleasant visit.

Levi Hiatt was in town Friday. He is slowly recovering from injuries received a few weeks ago when he got his collar bone broken and sustained other injuries to his right arm.

Helen Steed, 11-year-old daughter of Mr. A. A. Steed, who recently took charge of the Minor ranch near Heppner, was successfully operated on for appendicitis at the Heppner Sanatorium Friday.

Dr. F. N. Christensen returned from a stay of a couple of weeks at the coast on Sunday, and is again busy at his dental parlors in this city. He enjoyed his outing at the coast very much.

County Clerk Waters spent Sunday at home, and while there motored over some of the wheat growing section. Crop returns, according to Mr. Waters, are quite disappointing over much of the section he visited.

Harry Bartholomew, formerly a big sheepman of Morrow county, but of late years a resident of Stanfield, was in Heppner from the Umatilla county town for a couple of days, spending the week-end visiting with his mother here.

Marshall Phelps and Ray Rogers, with saddle horses and pack horse, meandered out to the tall timber Monday and will spend ten days of an outing in the mountains, being prepared to go where they please when they please.

Harvey French, young son of Enos French, residing north of Lexington, has been confined at the Heppner Sanatorium for the past week, suffering an attack of fever. His physician reports that he is greatly improved at this time.

Mr. and Mrs. Frank Gilliam left Tuesday for Portland, Seattle and other points along the coast, to be absent for some weeks. They will spend most of the time in Seattle, and Mr. Gilliam contemplates making a trip to Skagway in the meantime.

T. E. Chidsey, wife and daughter, returned from Portland Sunday. Mr. Chidsey has been in the metropolis for several weeks receiving medical attention and he returns home feeling much improved, a fact his many friends here are pleased to note.

Tyndall Robison and wife were visitors in Heppner Saturday. Mr. Robison is now learning to guide a new Ford, recently purchased from Vaughn & Sons of this place, and he states that he is able to make most of the hills between his place and Heppner.

Black Prince, head of the horse family at the French ranch up Hinton creek, has passed to his reward after a spell of colic that the veterinarian was unable to cope with. He was a fine animal and produced many splendid specimens of draft horses in this section.

Vic Groshens is making some repairs to his Main street property this week and having one of his buildings moved a few feet farther to the north and arranging to put a new foundation under it. This is the store room occupied by Mrs. Fischer as a cleaning and pressing establishment.

If we were a farmer, living in the country, we would undoubtedly have one of those new power washing machines to do the weeks' wash with; that is, so that the wife could get the chore off hands a little easier. This rig is just the thing for the country housewife and she should have one to lighten her burdens.

There was a social gathering of the prospective members of the Brotherhood of American Yeomen at I. O. O. F. hall on Friday evening. A program of music was enjoyed by those present and this was followed by a light lunch and a social hour. Mr. Moffat announces the completion of the organization tomorrow evening.

Miss Bertha Marshall, who has been visiting for the past fortnight with her sister, Mrs. A. M. Phelps and family, in this city, departed on Tuesday on the return journey to her home in Boston. Miss Marshall is teacher of English and other branches in the Boston schools. Her visit to this city was greatly enjoyed by her relatives and their many friends here.

R. L. Bengt visited Heppner Tuesday. He has been in harvest for the past three weeks, heading and threshing, and his grain is turning out very well. Mr. Bengt states that his summerfallow grain was sown in February and this is making an average yield of 25 bushels of good grain to the acre. He is well satisfied with results so far obtained, both as to yield and quality, and says that his wheat is clean and absolutely free from smut. In fact, Mr. Bengt is one of the few farmers of the county that never has smut and he credits this to his system of treating the grain before it is sown.

J. H. Wyland was down from his Rock creek ranch several days during the fore part of the week. Mr. Wyland is one of the sufferers from the Hardman fire, having his residence and the most of its contents destroyed. He carried a policy of insurance which is being adjusted this week, but this will not restore many of the very valuable family relics that the flames destroyed. Mr. Wyland is loud in his praise of the good work done by the Hardman people in saving property from destruction. His people were all at the ranch at the time but they doubt very much if they could have saved more of their things had they been on the spot at the time of the fire. The loyal work of the Hardman citizens, big, little, old and young, saved the town from utter destruction.

Fred Water's oldest boy was severely injured Monday, when his saddle horse fell with him and stepped on the boy's head. One of the horse shoe calks went through the boy's skull just above the ear, and as it was feared a surgical operation might be necessary, Dr. Tiedemann, who was called from Fossil to doctor the boy, had him moved to Condon that night. Wm. Mainord in his Ford took the doctor out to the Waters ranch near Spray, and then took the boy, with his parents and the doctor, to Condon the same night. We are pleased to learn that the lad is getting along nicely, and that he will suffer no permanent injury from the accident.—Fossil Journal.

Mrs. R. A. Leach, accompanied by her daughter and husband, Mr. and Mrs. Frank Nagley, left for their Chicago home Tuesday after a very pleasant visit at the home of Dr. and Mrs. N. E. Winnard, in this city. Mrs. Leach is a sister of Dr. Winnard and has been visiting here for the past four weeks. She was recently joined by her daughter and her husband who are on their honeymoon, making a visit to San Francisco and numerous other points along the coast. Their visit here was an enjoyable one and they regretted keenly the arrival of the time that they had to depart from our little city.

A card received from Dr. A. D. McMurdo states that he is pleasantly located on the beach 15 miles from the city of Tillamook at present where he has joined his family and is enjoying a good time. He purchased a new car in Portland and went over to the beach in this. The roads were found to be fairly good and the scenery exquisite. At the time of writing, the doctor says the weather was ideal and the water fine, from which we judge he is taking a daily constitutional in the surf and restoring his vigor for the more strenuous duties of professional life that will await his return home.

Prof. H. H. Hoffman returned Saturday from his extended trip which took him through the Panama Canal after visiting the big exposition in San Francisco, and eventually landed him in New York. The trip was one of pleasure and profit but Prof. Hoffman is glad to be home at Heppner again. He returned via the Canadian Pacific, and has promised to give this paper an extended review of the entire trip, which we hope to have in our next issue.

Trey O' Hearts Finished.

The final episode of the famous film drama, *Trey O' Hearts*, was placed before good audiences on Monday and Tuesday evenings at the Home Theater, and the patrons of this popular movie house will now await the pleasure of Manager Ayers in placing before them another serial having the "drawing" interest that this one possesses. The interest in this play was good to the end of the series. The new serial, *"The Black Box,"* is entertaining and is creating a lot of interest. On last evening, the program presented Jess Willard, champion pugilist of the world, in the stirring drama, *"The Heart Punch."* The program will be repeated tonight. It is varied and winds up with a good comedy, *"The Butler's Baby."* For the near future, Mr. Ayers is announcing "Officer 666" along with some of the most famous film productions put out. These will be enjoyed with pleasure by all those who enjoy the movies.

Dr. McMurdo has bought out Dr. Allison's office and is now located at Patterson & Son's drug store. **tf.**
