

WEEK'S NEWS.

Local And Personal Happenings of Heppner And Vicinity.

Dr. Isabel Sedgwick, the I. O. O. F. Building. L. E. McBea, the Ceell stockman, was in the city Saturday. A car of fine seed rye arrived this week—HEPPNER MILLING CO. WANTED—Sewing, \$1.50 per day. Inquire here. George Swaggart, a former resident of Heppner, is visiting with friends in this city. Dr. Isabel Sedgwick, the I. O. O. F. Building. Dr. R. J. Vaughn, a dentist of Baker, is in this city this week, with a view of locating here permanently. Dr. Isabel Sedgwick, the I. O. O. F. Building. Glasses fitted satisfactorily by Dr. Winnard, or money refunded. His prices are reasonable, and he is where you can always find him. No charge for testing eyes. C. E. Woodson, owner of the Morrow block on Main street, has started some extensive improvements to that building. The entire building will be thoroughly worked over. Mr. and Mrs. R. B. Rice and son are in the city today from their farm home north of this city. Mr. Rice is wearing a broad smile these days, a result of that artesian well on his farm, we suppose. IONE. J. H. Blake came in from the ranch last Wednesday with a fine bunch of sheep. Harry Davis, from the valley, was a visitor in town last week, calling on his aunt, Mrs. Wilmot. Mrs. Wilmot spent several days at Lexington last week visiting with her daughter, Mrs. McMillan. Everitt Lawton and R. E. Forbes returned from the tall timber last week with two very fine bucks. S. E. Notson, of Heppner, was an Ione visitor last week, coming down to attend to some business matters. Ione was in darkness one night last week when something got wrong with the carburetor on the steam engine. John Bones Lundy, Esq., took a car load of hogs to Portland last Sunday for Nettie Mason, returning Tuesday all O. K. J. A. Waters and family of Heppner, were down to Ione last Sunday and attended the grand rally at the Christian church. We understand P. M. Morris, one of the farmers from this locality has left the country without kissing any of his creditors good-bye. Francis Cronan, the youngest son of Mr. Cronan, our genial banker, came in on Tuesday's train and will visit with his father for some time. Marie Cason, who has been visiting with friends and relatives at North Yamina for some time, returned to her home in Ione last Friday. Louis and John Cronan from Portland were up to Ione for a couple of days yesterday with their father. They came up on the night train as they are from Arlington and by auto the rest of the way. Clyde Brock, who was to be Ione's future bank cashier, took his life in the bank last Sunday at exactly twenty-five minutes to one. He shot himself above the right ear, the bullet, being a .44, ploughed upward, coming out the top of his head. He lived only a short time. We understand what a capable man Mr. Brock was, and our sincerest sympathy goes to his family and bereaved ones. The Christian church had a rally last Sunday, and to say it was not well attended would be telling a whopper. There were 129 in attendance at Sunday School, and after services following Sunday School the tables were spread and they groaned with too many good things to begin to tell you about. We did not learn how many the good ladies fed, but every one seemed to think they had the best meal ever. There were a good many in from the country. LEXINGTON. (Too late for last week) Otto Robinson and Frank Burgoyne made a business trip to Monument Saturday, returning Sunday. Geo. Flint came in town Sunday from Pendleton, having been in Washington state for several months. Several farmers went in autos Tuesday to attend the auction sale at Chas. Hemrich's ranch in Clark's Canyon. Mrs. W. E. Leach, who has been seriously sick for several days, is now almost recovered and is able to be around again. Tom McDandel, of Sand Hollow, was transacting business in town Monday. He is having a well drilled on his farm and hopes to have water at a reasonable depth. Riley Munkers and wife, Sanford Green and wife, Jeff Evans and Geo. McMillan went to Pendleton Wednesday to take in the Round-Up. They returned Sunday reporting the event a success. A few days ago Howard Lane received from a friend in the mountains brown cub bear and has it on exhibition every day. It is quite a curios-

ALL WRONG

The Mistake is Made by Many Heppner Citizens. Look for the cause of backache. To be cured you must know the cause. If it's weak kidneys You must set the kidneys working right. A resident of this vicinity shows you how. C. S. Howard, grocer, 1616 W. Webb St., Pendleton, Ore., says: "For fifteen years I had a great deal of suffering from a dull pain through the small of my back and left side. For over a year I was annoyed by numbness in my shoulder blades. I couldn't lie comfortably on my back. The kidney secretions were too frequent in passage. I tried several well-known medicines, but nothing did me any good until I used Doan's Kidney Pills. They relieved the aches and pains and regulated the action of my kidneys." Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Howard had. Foster-Milburn Co., Props., Buffalo, N. Y.

ity and is the first one in town for several years. The past week has been a busy one for the crews putting up the poles for the power line between Heppner and Ione. They have passed through town and are soon to be in Ione. The work is under the supervision of A. L. Ayers of Heppner. Jos. Burgoyne's new flouring mill recently built across the railroad track by the warehouse, has been finished and is now chopping grain for the farmers in this vicinity. The mill has been painted which improves its appearance very much. O. S. Hodsdon of the Strawberry Flat country, was trading in town Saturday, also making a trip to the county seat. He reports everything dry in his neighborhood and farmers waiting for sufficient rainfall before commencing the fall sowing. R. B. Miller, General Traffic Agent for the O-W. R. & N. R. R. spent a few hours in town Monday in the interest of his company. It is hoped the desired information was obtained and the company can see the way to prepare the needed accommodations for the public. The construction work on the school house is progressing very rapidly. All the foundation work of concrete has been finished and ready for the brick laying crews, which will arrive in a few days. The transportation of material has delayed some parts of the work for a short time. The little child of Clark Davis died Friday after a sickness of only a few days. It was buried Saturday in the I. O. O. F. cemetery, Rev. Jones of Ione conducting the services. Several autos which went to the Round-Up city last week experienced considerable trouble in getting home Sunday on account of a severe dust storm they encountered between Pendleton and Echo. Chas. Reid, prominent Ione citizen, spent several days in Heppner this week. INDUSTRIAL CLUB WINNERS AT STATE FAIR. Forty-Eight Youngsters Entertained as Guests of the State of Oregon. Salem, Ore., Oct. 2, (Special)—Because they were the winners of the county industrial club contests, forty-eight youngsters, boys and girls, have been entertained at the State Fair as guests of the State of Oregon. Two large tents served to accommodate these young guests, that of the girls being in charge of Mrs. J. P. Harrington and Mrs. Ed. Anderson, of Creswell, and Mrs. N. J. Maris, of Portland. The girls say that their camp life has been very pleasant and that their entire stay here has been one of much pleasure and profit. They won the honor by doing superior work in baking, sewing, gardening, canning, or other projects of practical value in their respective districts, and while they are primarily interested in corresponding exhibits, they are almost equally attracted to industrial club work in many other projects. So it is with the boys. Those that grew corn this year and succeeded in producing a splendid product at the rate of more than 100 bushels per acre, are just about as likely to undertake poultry or baking next year. Like their fathers, they are finding out that proper diversification pays, and they are going to be content with nothing poorer than the best in the leading agricultural industries of their counties. An attempt has been made to include all the most important of these farming and home-making industries in the work of the coming year. The State school superintendent, the Extension division of the Agricultural College, and the U. S. Department of Agriculture have agreed upon 14 projects, representing 18 different lines of club work. The present group of winners express pleasure with the wide field from which to choose their projects, and most of them will be in the contest next year. The winners from Morrow county are, Kenneth Binns, Garnett Barrett, Josephine Woolery, Bernice Ruddock,

MINOR & CO.
