MORROW COUNTY OFFICIAL PAPER

Thursday, November 18, 1915.

Morrow County won great distinction at the recent Manufacturers' & Land Products Show held in Portland, by winning the grand prize over 22 other counties in the state exhibiting. Morrow County is said to be the only county at the show which made a special feature of any one display and which gave a comprehensive idea of the agricultural and livestock resources within its boundaries. Much credit for our victory should be given W. W. Smead, whose sole efforts were responsible for the excellent results. The exhibit of wool at the Morrow county booth caused favorable comment. Our city friends had begun to lose sight of the fact that this county is one of the banner wool producing sections of the Northwest, this, perhaps because we have been persistent in carrying off the agricultural honors from year to year. We have, indeed, a great county, and the diversification of industries is making it the greater.

WHY THE WOMEN LOST.

It will be a long time obviously, before equal suffrage for women will be common to all the states. The effete and prejudiced East will have none of it. It is hardened in its ways, add deaf to sentiment, reason and justice. It is more, it is fearful of what may happen if women shall have a real say in government. The politicians, including the party men, do not want suffrage because they have learned that women are not to be controlled or influenced generally through party.

The liquor interests are opposed to suffrage because they are alarmed about prohibition, or strict regulation. They are supported by the grand army of bums who want no women to be on a political equality with them. They deserve no other equality, thank heaven.

The reactionaries, and the conservatives as a rule are opposed to suffrage because the women are suspected of radicalism.

Many men who do not belong to any defined social or political group are down on suffrage because they are selfish and secretly regard women as their inferiors.

The East is benighted and apparently incurable. But let the women cheer up. They deserve political success.—Oregonian

WITH WEEKS TO SPARE.

A Petrograd dispatch says the new Russian railway from Petrograd to Ekaterina has been completed. The announcement is of general interest in this country, for it is a testimonial to the efficiency of American engineers.

Last winter Russia's only available seaport, Archangel, was icebound, and it was decided to build a railroad across 600 miles of country made up chiefly of swamps. The engineers were given six months to complete their task, for Russia's short summer would not permit construction work during a longer period. That meant 100 miles of new track per month. But the American engineers won with three weeks to spare.

It was a tremendous undertaking and its successful outcome lends additional luster to Americans who do things. The engineers began their battle with Russian swamps and wilderness with characteristic American energy, and they pushed on toward success with the same spirit that crisscrossed the American plains with bands of steel.

The new railroad will be of tremendous advantage to Russia, for it will give the czar's country an open winter port through which to secure munitions.—Oregon Journal.

My Answer to the Dental Trust—Trust Prices Cut One-Half

Trust—Trust Prices Cut One-Half

Ethical Combine Exposed

PAINLESS PARKER DENTISTRY

50 PER CENT Less Than Trust Dentistry

Open Day and Night

I am going to expose the extortion practiced on the people of Oregon by the Dental Trust. If this Trust can raise a slush fund of \$6000 every month with which to carry on a campaign against Painless Parker, I am going to cut off its source of supply, which is in the pockets of the people, by cutting in half the price of dentistry, and thereby stop, if possible, the contributions to this slush fund.

I can do high class, painless dentistry at half Trust prices and make money. As long as this Trust can raise money by charging two prices for what it sells the public, it can afford to spend part of that money to fight Painless Parker.

I propose to protect myself by depriving the Trust of its sinews of war. At the same time I will give every man, woman and child in Oregon the opportunity to get my dentistry at 50 per cent less than they have been forced to pay heretofore for old style, inferior Trust service.

Out of every dollar spent by the people of Oregon for Trust Dentistry, a certain proportion goes to keep up this Trust, so it can control the dental business in this state.

One way of controlling dentistry here has been to exterminate professionally any dentist who might give the Trust hard competition.

I know how to compete with this ethical combine. That way is to give the public better dentistry at less money.

Hundreds of Oregon people who have bought my dentistry since I opened my Portland office a year ago know my dentistry is superior to any ever obtained of Trust dentists at twice my fees.

I can buy high grade dental material, except 22k gold cheaper than Trust dentists, because I buy it in large quantities for all my offices, including my Portland office. I can give better service because of my painless methods.

Every one of my associated dentists in my Portland office is fully the equal of any Trust dentist in the state, because all of them have been licensed to practice here by the Trust's own hand picked board of dental examiners. If an examination before the Trust's board is what the Trust claims it to be, then every associated dentist with me in my Portland office is fully the equal in skill, training and education of any dentise belonging to the Dental Combine.

If I can do Painless Parker dentistry at half the prices charged by members of the Trust, and make money, then certainly it is nothing short of highway robbery of the public pocketbook for Trust dentists to charge 100 per cent more for Trust dentistry.

I came to Portland to give the public a square deal in dentistry. And I know how to do it. I intend to give this Trust a run of competition, so that when I get through it will not be able to raise \$6000 a month, or any other sum, for a slush fund with which to fight Painless Parker. If fur rugs are selling at 13 cents a gross, the Trust will not be able to buy one hair.
