What Are

YOU Worth
From the

NECK
UP?

It is estimated that the average man is worth \$2 a day from his neck up—what is he worth from the neck up?

That depends entirely upon training. You are told to get your plan and direct work you are worth ten times as much as the man who can work only for orders.

Our International Correspondence Schools is the man who is making plans on manager and way to go. We will train you for promotion and where you are, we will qualify you to take up a more congenial line of work, at a much higher salary.

Every month several hundred students graduate with diplomas and certificates of advancement in the above result of I. C. S. training. You need not leave your present work, or your own home. Mail this coupon at once and mail.

PRACTICAL HEALTH HINT.

Mastoiditis.

Mastoiditis is a dangerous disease and the importance of detecting it in its earliest stages must never be overlooked. Delay means a fearful operation or death. Mastoiditis is recognized by pressing the hard, ridge-like bone behind the ear. Tender ness there, especially if combined with a running ear, is an almost certain proof of mastoiditis. It is always wise to consult a physician when trouble starts in the ear.

BIG GUNS FOR THE CANAL.

No Weapon in the World Equals the Sixteen Inch Monster.

There is still about a year's work to do on the sixteen inch gun before it is sent to the Panama fortifications. The gun has been ordered shipped to Watervliet arsenal, where it will be sent to Watertown, and the gun will be installed in the immense carriage, which is now nearing completion. At Watertown it will have a shock test, after which the gun and the carriage will be shipped back to Sandy Hook for final test.

The progress of building the disappearing carriage is attracting the attention of ordnance experts of various countries, and great interest will be taken in the firing test of the gun after it is installed in its new carriage. It will throw a larger projectile than any gun in the world. It is estimated that it will have an effective range of something like sixteen miles, which is beyond that of any other gun in the world.

The final tests at Sandy Hook of two new fourteen inch guns for Panama canal fortifications are about completed. The ordnance officers are highly pleased with the success of the tests, and it is stated that a remarkable record of accuracy was made by the guns on long range firing.—Army and Navy Journal.

TO HONOR MONROE.

Belated Move to Erect a Great Monument to His Memory.

James Monroe, fifth president of the United States and author of the famous "doctrine" which bears his name, was born in Westmoreland county, Va., 156 years ago last spring.

Although Monroe enunciated and definitely announced a policy that has been a live political issue for nearly a century, there has never been any general observance of his birthday, and no important memorial has been erected to perpetuate his name.

Recently a movement has been started to erect a Monroe monument, but as yet no definite location has been decided on. Among the cities suggested are New York, where he died on July 4, 1835; Washington, San Francisco, Panama, Buenos Aires or Rio de Janeiro, and Monrovia, the capital of the African negro republic of Liberia, which was started by Monroe.—New York World.
