When you need two-vision lenses—be sure to get
KRYPTOK LENSES
(Worn by over 250,000 people)
For in all other two-vision lenses there is a line or seam between the near and far vision portions that makes the wearer look less than his best, and unmistakably brands him or her with a sign of age.
Kryptoks are double vision lenses that look exactly like regular one-vision lenses because there are no lines or seams in them.
Dr. Winnard can supply these lenses
Satisfaction guaranteed or money refunded.

WHY NOT NAME THE FARM AND HAVE A GOOD LETTERHEAD?

It Pays, Says Dean Morton, and It Pays to Advertise, Too, When There's Farm Stuff to Sell.

The Oregon farmer can swell his annual receipts by using good printing and by occasional advertising in the weeklies of his county, says D. W. Morton, dean of the new school of commerce at the University of Oregon.

A farm letterhead should carry the name of the farm, the name of the owner, the location of the farm, and perhaps a small pcture of some feature of the place, says Dean Morton, who regards the farmer as a business man with a substantial investment upon which he should make every effort to pay interest.

"It gives a farmer a certain business standing if he has a neat letterhead of good stock, and it improves the value of his farm to have a name and something of an individuality," he said. "There is some initial expense in having a picture taken and a cut made, but the publisher of the nearest country paper will attend to the details and afterward will do the printing reasonably.

"If the farmer raises highclass animals, his letterhead may contain a picture of a prize animal with its record; or if he has a stock farm, a picture of a bunch of stock; or if he has the best house or barn in the neighborhood, a picture of that; or a picture of a grove or a stream is usually effective on statio ery. There are few Oregon farms not worth naming and few that do not provide something worth a permanent picture.

"Advertising rates are very low in Oregon country papers and a farmer at a cost of from 10 cents to $1.00 may often sell a horse, a second-hand machine, or some other thing about the place he does not need by putting a small advertisement in his weekly paper.

"A farmer's advertising should of course conform to the best advertising standards: it should be very definite and absolutely truthful."
