

# SPRINGTIME IS GARDEN MAKING TIME

Start the season right by getting the best tools money can buy—the only kind we sell. Make gardening a pleasure, a thing that in itself spells success, and the right way to accomplish this is by using good tools.

We have everything that's used in garden making. Very likely we have some tools you are unfamiliar with. A visit to our store will prove valuable to you. Call on us—we'll do the rest.

## INDUSTRIAL ITEMS OF GENERAL INTEREST

Milton—A \$9,500 library may be started soon.

Mt. Angel has completed \$8,000 sewer system.

Eugene Commercial Club is boosting flax industry.

Bandon—Moore mill expects to open early in April.

Bandon—Plans are under way to build two ships here.

Baker mills plan to resume operations in a short time.

Contract awarded for building Catholic church at Roseburg.

Plans are under way for a \$70,000 postoffice at Corvallis.

Gold Beach—H. W. Jettens expects to start a brick yard.

Roseburg—50 cars of Broccoli will be shipped from here this year.

The Dalles creamery is enlarging and installing new machinery.

The Newberg handle plant is to reopen with receiver in charge.

J. F. Blair of Portland is opening granite quarry south of Ashland.

Geo. Blake has opened a new logging camp on South Coos River.

Paisley—Three crews are at work on Strahorn survey in central Oregon.

Grants Pass—Local brick yard has received contract for 700,000 brick for new beet sugar factory.

More than 50 new families have been added to Grants Pass within 30 days, due to industrial activity.

Astoria—J. A. McEachern will establish a large ship yard on Youngs Bay.

The largest sheep shearing plant in the country is now being built at Echo.

The Allies are asking bids from Portland mills for \$100,000 worth of trench posts.

Eugene—Quartz averaging \$2500 a ton has been discovered in the Bohemia district.

Baker—Gold running \$60,000 to \$80,000 a ton reported discovered on Canyon mountain.

The Fairmont Brick Co., at Monroe has received an order for 150,000 pressed brick.

The Columbia Contract Co. is delivering 3000 tons of rock a day on the Columbia jetty.

The Great Northern Railroad has contracted for 4,000,000 feet from Columbia river mills.

Marshfield—Simpson heirs have sold out to Portland syndicate for approximately \$1,000,000.

## HEPPNER 25 YEARS AGO

From the Gazette, March 26, 1891.

Albert Ayers is over from Butter creek this week.

Mayor T. J. Matlock is out rustling with his sheep.

Henry Padberg came up with the Lexington delegation Monday.

Mrs. Andy Stevenson and family moved out to the ranch on Skinner's Fork, early this week.

Geo. Lund has recovered from a month's sickness. Since his return from the East recently, he has been stopping at Thos. Read's.

Eight Mile Items: We congratulate Mr. and Mrs. J. S. Young and hope they may have a great deal of pleasure with their little boy, their only son.

Hon. Henry Blackman returned Monday from Portland, where he has been under a physician's care for some weeks. His friends will be gratified to learn that he has almost entirely recovered.

Andrew Reaney reports the grain on his hill ranch looking well. He says it is as green as a meadow, and can be seen 5 or 6 miles away. Late freezes nipped the blades of his grain a little, but it amounts to nothing. Stock came through in excellent condition in Andrew's neighborhood.

Mike Kenny, Press Thompson and W. E. Elliott complain that "grubs" are working on their sheep. It is a new thing, when once on the sheep's head, and when once attacked the animal is sure to die, the insect not stopping operations until the brain is reached. Mr. Elliott has lost 100 head from this cause.

Jas. P. Rhea and C. A. Rhea made a trip to Portland last week. They report the place flooded with those who wish to dispose of cattle, therefore prime beef is not worth over four cents. While there the visitors met Chas. Younggren, D. W. Kinnaird, Holmes Hayman, Murray Beardsley and Jimmie Clark, which shows that a fair sprinkling of Heppnerites are in the metropolis.

## COUNTY SCHOOL NOTES

By Supt. S. E. Notson.

Miss Pearlite Cavanaugh teaches the school in District No. 34. The enrollment is 16. This school is well equipped, properly lighted, and provided with suitable furniture. If the attendance is kept up to standard to the end of the term, all the points for a standard rural school will be met.

In District No. 26, Miss Vernus Young and 23 pupils are doing good work. This school has a nine months' term this year. Some strips of bur-lap have been placed upon the walls upon which some excellent displays of work are fixed.

In joint district No. 55, the enrollment is also 23. Miss Minnie McClure is the teacher. This school has some of the finest framed pictures found in any of the rural schools. The recent high water spoiled the appearance of the school grounds to a considerable extent, but the pupils are putting them in good condition again.

Miss Helen Gould is again in charge of the school in District No. 54. The enrollment is 16. The building has been painted and presents a very pleasing appearance. This is one of the best rural buildings in the county. The pupils have a nice lot of plants growing in a box. Some of the pupils are planning to do some project work.

Miss Ethel Hansen teaches in District No. 27. A new teacher's desk has been ordered. The pupils of this school are greatly interested in a "dry farm" garden project. They expect to try some experiments along this line. Since the jack rabbits have been eliminated, there will be a better chance for this kind of work, though the squirrels must be fought.

State Supt. Churchill announces that he has made arrangements whereby teachers who have not secured the Palmer diploma in penmanship may enroll again and go ahead with the work in writing. He urges every teacher to take up this work. It means a little effort, but it will pay the teacher well for her work and the pupils of the State will be greatly benefited. Let me suggest that school boards insist that teachers earn this Palmer diploma. The work in writing will be infinitely better.

Harry P. Huffman Writes to Enterprise Record-Chiefman.

Writing from his present location near Heppner, Harry P. Huffman tells something of conditions in that section, saying:

"With us feed and winter came out about neck and neck after a long, hard race, but without much damage. There was some hay shipped into Heppner but no great amount. But the savior of the stock was the green grass growing under the last snow; so on the arrival of the chinook the stock was taken from almost full feed to the range. We are feeding only a small amount of stock here now; will turn out 600 head of cattle about March 22. That is all that will be run on this range, with one band of sheep.

"This is sure a fine ranch and range here, but badly run down. There are 16,000 acres all together in this outfit, 12 miles south of Heppner on Rhea creek, a fine fishing stream that runs between the house and barn. Margaret (Mrs. Huffman) likes it here, and she and the baby are strong and healthy. We have been farming now for the last ten days and as I have only one man it is going pretty slowly, but we'll have a full crew next week. We have in a garden already but are still waiting for it to come up. Give everybody my regards."—Enterprise Record-Chiefman.

Mr. Huffman is the new forman on the Stanfield ranch, south of this city. He formerly lived in Enterprise and has a brother engaged in the stock raising business in Wallowa county.

When you need two-vision lenses—be sure to get **KRYPTOK LENSES**

(Worn by over 250,000 people)

For in all other two-vision lenses there is a line or seam between the near and far vision portions that makes the wearer look less than his best, and unmistakably brands him or her with a sign of age.

Kryptok are double-vision lenses that look exactly like regular one-vision lenses because there are no lines or seams in them.

Dr. Winnard can supply these lenses. Satisfaction guaranteed or money refunded.
