

SPRINGTIME IS GARDEN MAKING TIME

Start the season right by getting the best tools money can buy—the only kind we sell. Make gardening a pleasure, a thing that in itself spells success, and the right way to accomplish this is by using good tools.

We have everything that's used in garden making. Very likely we have some tools you are unfamiliar with. A visit to our store will prove valuable to you. Call on us—we'll do the rest.

HEPPNER 25 YEARS AGO

From the Gazette of April 2, 1891.

On last Sunday night, Marshal Rasmus raided Sam Lee's wash house, capturing Sam Lee and three other Celestials who were whiling away the monotonous hours in that elegant pastime, denominated "hitting the bamboo." All but Sam Lee were put in the city jail, he giving bail for his appearance Monday morning. The marshal has an abundance of evidence, as he not only caught the Chinamen smoking opium, but filled the recorder's office full of pipes, lamps, "Engshe" and other paraphernalia. The three Chinamen that were jailed Sunday evening pleaded guilty under the ordinance on opium smoking, and not having the money to pay their fines, were returned for safe keeping. Sam, however, fought the case, with Gov. Rhea as counsel, and succeeded in proving the worthlessness of the ordinance prohibiting opium smoking. Sam was arrested, however, under another ordinance, but a jury decided that it did not hold good in his case, so Sam and all his relatives were liberated.

Show us a farmer in Morrow county and we will show you a man who is "getting ahead of the hounds." Remember that Morrow county raises more wheat per acre the driest of seasons, than one of the best middle states. But those Eastern farmers raise pork, vegetables, etc., and make every nickel count. They labor six days in the week and labor hard, too. They have no time to loaf, and when they go to town to do a little business its all done in one day, and then they are back at work again. Extravagance is a greater enemy to our country than anything else.

Word came to our neighborhood that five hundred Indians were camped at Arlington, on their way to kill the people at Condon and take possession of the town. They must have done it very quietly, as we have heard nothing of the raid.—Eight Mile Correspondence.

Twenty odd hard working Scandinavians arrived here recently to locate homes and grow up with the country. They will stop over in the Gooseberry and Eight Mile sections. Some of them are men of means. We welcome such to our county.

Heppner's Cornet Band has rented the upper story of the J. N. Brown building, opposite the Gazette's aesthetic-quarters, where they will practice and keep their instruments in the future.

Messrs. P. O. Borg, P. C. Thompson and C. A. Rhea returned Monday evening from Pendleton, where they successfully "rode the goat" through the Chapter degrees of Masonry.

Now comes the report that Cason canyon road is in bad condition, impassable. Melting snows have cut great gulleys in that part of the road from Eight Mile to Heppner.

Dan Rice says grasshoppers are hatching out by the millions in the vicinity of Hardman, but they will likely depart by crop time.

Robert L. Large, brother of Isaac Large, and W. A. Tillard arrived Monday from the East and may locate here.

Time to Spray.

The time of the year has arrived when spraying of trees is in order. We publish herewith some directions for spraying which have been issued from the State Agricultural College.

Spraying has become necessary on account of scale and fungus diseases. When the tips of the leaves are just emerging an application of lime and sulphur and blackleaf-40 mixed will clean up the orchard of apple and pear trees in good shape. Peaches, plums, prunes and cherries should be sprayed with Bordeaux mixture.

Pear trees should be carefully examined for blight and all diseased parts cut out. Care must be taken to sterilize all tools before cutting into healthy wood after working on blighted trees.

Formula for Bordeaux mixture—Copper sulphate 6 pounds, quick lime 6 pounds, water 50 gallons.

Formula for lime sulphur—Ground sulphur 100 pounds; lime, unslaked, 60 pounds; water 50 gallons.

Slake the lime, mix the sulphur with a little water, add it to the lime, then add water and boil the mixture for thirty minutes. Allow it to clear and settle and then use the clear liquid.

For spring spraying dilute the stock solution to 15 parts water. Then add one pint of Blackfoot-40 to each 150 gallons of the lime and sulphur spray.

R. Stephens of Pendleton visited the fore part of the week at the home of his mother, Mrs. P. A. Stephens in South Heppner. Mr. Stephens was formerly in the insurance business in Pendleton but is now on his way to Southern Oregon, having purchased property at Yoncalla.

At the shorthorn sale recently held in Portland, W. O. Minor, the veteran shorthorn breeder of this city, sold King of Broadacres, a bull, to the Miller and Lux Company of San Francisco, for \$345.

Berl Gurdane spent Sunday with friends in Ione.
