Your farm lands have DOUBLED and TREBLED in value—you get TWICE as much for your grain—but it costs you LESS to build NOW than it did TEN YEARS AGO. You can now put up the buildings you have needed, but which you could not afford because lumber was so high.

These men have made building their life work—they KNOW their business and will help you save 25% to 30% on the cost of your building just as they have done for thousands of other people.

OUR BUILDING EXPERTS SHOW YOU HOW.

Our building experts have prepared a book of plans of buildings erected here in the Northwest. These designs embody many exclusive features that go to make the best possible building for the least cost. No matter what kind of a building you contemplate building, you want to see this book. Our local sales manager will show it to you and will gladly quote you the complete price.—No extras guaranteed for any design shown.

NO EXTRAS—YOUR MONEY REFUNDED FOR UNUSED MATERIAL.

There are no extras to pay for when you build by the Tum-a-Lum Method—we furnish ALL the building material necessary to complete the building. We tell you EXACTLY how much your building will cost before you spend one cent. We furnish blue prints and material list showing where every piece of material belongs. THERE IS NO WASTE—every piece is figured so that it cuts exactly—no guess work about the complete cost. Should any material be left when the building is up, you can bring it back and we will refund your money.

THE ONE RIGHT PRICE TO EVERYBODY.

Everybody pays the SAME price at our yards. You do not have to pay for the man who never pays his bills—or make up the difference for the man who gets a special price—you pay the actual cost of the lumber delivered and ONE fair profit—you pay the RIGHT PRICE—nobody can buy for less.
