KRYPTOK LENSES

(Worn by over 250,000 people)

For all other two-vision lenses there is a line or seam between the near and far vision portions that makes the wearer look less than his best, and unmistakably brands him or her with a sign of age.

Kryptok are double-vision lenses that look exactly like regular one-vision lenses because there are no lines or seams in them.

Following is a synopsis of the Fish and game laws of the State of Oregon including Federal Regulations for protection of migratory birds, 1915-1916:

Non-Resident Hunter's License \$10.00 per year.

Resident or Non-Residents Angler's License \$2.00.
