Five Passenger, six cylinder, 45
horsepower - - - \$1170.00

Five passenger, four cylinder,
35 horsepower - - \$785.00

These prices are F. O. B. Heppner

BUICK DESIGN

BUICK VALVE-IN-HEAD POWER

The rightness of the Buick Valve-in-Head motor and not the enthusiasm of its salesmen has made the Buick conspicuous for leadership.

This new four has a Buick Valve-in-Head motor (with electric starter) which develops thirty-five horse power on brake test and is so reliable for rugged service that no eulogy is necessary among "men who know Buick."

Its lines are beautiful. Finish and color are exceptional. Deep, tufted black genuine leather upholstery. Covered floor and running board, with aluminum bindings, give a trimness of appearance that is peculiarly Buick.

Body, hood, fenders and running gear are painted a glossy, long-wearing black; wheels are black with white stripes. Tires 31x4 inches.

All Buicks have the Delco lighting and starting system. There is none better.

NEWS NOTES FROM NEIGHBORING CITIES

Mrs. Jennie Matlock returned last Saturday from Corvallis where she was a guest of her sister, Mrs. R. K. Chambers. Her sister Miss Blanche Woods, will remain in Corvallis for a time.—Blue Mt. Eagle.

Mr. and Mrs. S. P. Shutt and son Harold left Saturday for Heppner where they will spend a brief period visiting relatives. At the conclusion of the visit they will proceed to Virginia where Mr. Shutt and the boys have purchased a large stock ranch. It is their plan to follow stockraising exclusively in the future.—Joseph Herald.

Principal Home Again.
After several days spent visiting in Weston, Walla Walla and other places, W. C. Howard principal of the Stanfield schools, arrived home Wednesday morning and will open the schools here next Monday morning. He was accompanied by Rev. C. R. Howard, his uncle, pastor of the first M. E. Church, South, of Walla Walla who will visit in Stanfield for a few days.—Stanfield Standard.

Mrs. Josephine Forewood returned home Sunday from a month's visit with her mother at Heppner. As is usual with those from this section visiting what we term the "lower country," at this season, she is glad to get back in the cool, mountain air, and enjoy another drink of Sumpter's good water.—Sumpter Blue Mt. American.

Garage for Monument.
J. J. Murphy of Monument was here the first of the week on business. Mr. Murphy informs the Eagle that Monument is soon to have a fine new garage, a man from Fossil having come there a short time ago, looking over the field and considering it an excellent location for a business of this kind. The building is 34x60 and will be completed this week.—Canyon City Eagle.

The Fourth Annual Morrow County Fair which opens in Heppner next Thursday and is scheduled for three days, will be one of the very best county fairs in the state. In response to an invitation from the fair officials and the citizens of Heppner as a whole, the Commercial Association of Pendleton is making arrangements to send a delegation to Heppner on Saturday, which has been set aside as Umatilla county day.—Pilot Rock Record.

Bee Sting Is Serious.
Shortly after receiving a sting over the eye from a honey bee Wednesday, A. D. Greaves collapsed and it was with difficulty his life was saved.

He was in a buggy with his wife when the bee stung him. He felt the poison enter his veins and asked his wife to drive hurriedly to a physician's office in Stanfield. Before reaching the doctor's office he collapsed and for a time it seemed he would die.

Dr. Alexander Reid said he had never seen a case like it before. He said the poison from the bee evidently had been injected into a blood vessel and carried directly to the heart, and that it had exerted a most unusual effect upon Greaves system.

The victim itched almost unbearably all over the body. Dr. Reid worked on the man's heart for some time and it is thought he is out of danger.—Stanfield Standard.

Crops are Looking Fine.
Fritz Rader of Long Creek was here for several days this week, coming over with his father, George Rader, on land business. Mr. Rader states that the crops in Northern Grant county are better than he ever saw them. On account of the scarcity of hay last winter some of the stockmen he says have cut their grain for hay instead of maturing it for grain. In the Ritter section he states that a good deal of corn and beans were raised and that they make a very profitable crop.—Blue Mountain Eagle.

Business is Good.
Business activities in this section have seldom, if ever, been better. All the business houses in Condon report an unusually brisk business, and this has been true of the entire season. Conditions have been more than favorable for Gilliam county ranchers and the prices have been excellent for all their products. Local implement houses inform us that they have enjoyed an exceptionally good year, the farmers feeling justified in investing their money in modern machinery for the harvesting of their promising crops.—Condon Globe.

HEPPNER 25 YEARS AGO

From the Gazette of Sept. 17, 1891
Os Mitchell bought of Cass Rogers the first of the week, 70 steers to which he will feed alfalfa hay and stall feed in the spring. He had his pick of 300 and paid \$30 per head for them.

S. P. Garrigues left yesterday for Ohio, Pennsylvania and New York. While in that country he will visit his brother and sister who he has not seen for 23 years. He was accompanied by his mother, Mrs. Currin.

S. D. Tyler deposited in the Gazette's department of agricultural curiosities, which is behind the office stove some wheat which was raised well up in the Blue mountains. The stalks are really six feet high.

The Fair at The Dalles is not extensively advertised and consequently will be poorly attended. Wonder if there will be any racing there this year? We have failed to notice anything in the newspapers.

See Beach & Allyn, Lexington agents for the Ford car.

See Beach & Allyn, Lexington agents, for a trade on your old car for a new Ford.

Dr. Turner, formerly of Lowe and Turner eye specialist of Portland will be at the Palace Hotel Sept. 15-16. At Ione Sept. 18th and at Lexington, Sept. 14th.

Your friends can buy anything you can give them—except your photograph

Bring in the kiddies early, while they are fresh and rosy—The pictures will be prettier.

Ten Cars Chopped Alfalfa Ordered. With the lifting of the embargo on freight shipments, the C. S. McNaught Co. is receiving orders for hay from both east and west. Wednesday Mr. McNaught received orders for ten cars of the chopped product and the outfit

is running full time when cars are available for loading. There is also a demand for the baled hay where the loose chopped article cannot be handled.

The chopping outfit as installed at the railroad tracks is handling hay at

the rate of two cars per day. When it was first installed two engines were used, one for the chopper and one for the blower. These two machines are now coupled to one engine, greatly reducing the operating expense.—Hermiston Herald.
