A New Model Typewriter!

The No. 9
OLIVER
The Standard Visible Writer

BUY IT NOW!

Yes, the crowning typewriter triumph is here

IT IS JUST OUT—AND COMES YEARS BEFORE EXPERTS EXPECTED

For makers have striven a life-time to attain this ideal machine. And Oliver has
again, as we scored when we gave the world its first visible writing.

There is truly no other typewriter on earth like this new Oliver "9." Think
touch so light that the tread of a kitten will run the keys!

CAUTION!

The new-day advances that come alone on
this machine are all controlled by Oliver.
Even our own previous models—famous in
their day—never had the Optional Duplex
Shift.

It puts the whole control of 84 letters and
characters in the little fingers of the right
and left hands. And it lets you write them all
with 28 keys, the least to operate of any
standard typewriter made.

Thus writers of all other machines can
immediately run the Oliver Number "9" with
more speed and greater ease.

17 CENTS A DAY! Remember, this brand-new Oliver "9" is the greatest value ever given
typewriter. It has all our previous special inventions—visible writing, a
matic spacer, 6 1/2-ounce touch—plus the Optional Duplex Shift, Selective Color Attachment, and
these other new-day features.

Yet we have decided to sell it to everyone everywhere on our famous payment plan—17 cent
day! Now every user can easily afford to have the world's crack visible writer, with the fam-
PRINTYPE, that writes like print, included FREE if desired.

TODAY—Write for Full Details and be among the first to know about this marvel of writ-
machines. See why typists, employers, and individuals every-
where are flocking to the Oliver. Just mail a postal at once. No obligation. It's a pleasure for us to
tell you about it.
