

Cook in a cool Kitchen

All the heat is concentrated where it is needed—keeps you cool and makes for better cooking

NEW PERFECTION OIL COOK-STOVE

Why not cook with a modern oil stove this summer and be comfortable? Bakes, broils, roasts, toasts. More efficient than your wood or coal stove, and costs less to operate.

Better cooking because the long blue chimneys give steadier, more evenly distributed heat, under perfect control—like gas. No smoke or smell. In 1, 2, 3 and 4-burner sizes, ovens separate. Also cabinet models with Fireless Cooking Ovens.

FARMING EXPERIENCE NOT ALWAYS ADEQUATE

The statement that "the farmer doesn't need any one to teach him how to farm" is often directed against the County Agent movement. In fact, however, the movement is not based upon a disregard for the intelligence, ability or skill of the farmer of today in those spheres in which he acquires experience, but just as a mother finds a time when the child's welfare demands the doctor's care, so problems present themselves for which the most successful farmer finds no solution in the storehouse of his experience. In fact, it is not so farming would differ from all other activities, for in no trade, profession or occupation does the individual depend in all cases upon his own experience. The question may be asked, "How many years of practical experience must a farmer have:

1. To know whether protein comes cheaper in bran at \$20.00 per ton or oil meat at \$35.00?
2. To know whether he should apply nitrogen or phosphorus, or potash or sulphur or lime to his soil, separately or in combination, and if so, in what amounts and what the cost should be?
3. To be able to identify hog cholera by hist mortem examination.
4. To know the life history and control of the many insect pests and fungus diseases that are of economic importance?
5. To start an egg circle, a cooperative stock shipping association, a public market, a milk shipping association, etc.?
6. To stop the spread of a contagious disease, like foot and mouth disease, hog cholera or sheep scab, or wage a campaign against jack rabbits, ground squirrels or other rodents?
7. To get his neighbors to standardize the potato crop or apple crop or some crop so that the community can market advantageously?
8. To protect his community against impure seed and adulterated feed?

BOARDMAN ITEMS

S. H. Boardman is also painting the school house.

C. Voyno and wife returned Monday from the Round-Up.

G. C. Blayden is giving his new store building a coat of paint.

G. C. Blayden was an early morning visitor to Hermiston Monday.

Mrs. O. H. Warner was reported on the sick list last week, but is better at this writing.

The post office is now an established fact. Mail is coming and going on No. 1 and 2 daily.

H. G. Murrell left on No. 2 Saturday for Hermiston where he will spend a few days recuperating.

H. A. Frick moved his family to Hermiston Saturday, where they will make their future home.

Miss Kathryn Marshall of Castle Rock was a guest of Miss Dorothy Boardman the first of the week.

E. P. Dodd of Hermiston spent Tuesday in Boardman. He is pleased with the progress we are making.

Miss Clara Voyno and Jack Gibbons are attending the institute at Heppner this week. School was dismissed for the week.

C. Voyno has taken charge of the Frick lumber yard for this winter and will live in the residence vacated by A. H. Frick and family.

In honor of her daughter Dorothy's 12th birthday, Mrs. S. H. Boardman entertained her teacher, Miss Clara Voyno and her pupils Tuesday afternoon. Games were enjoyed after which delicious refreshments were served. The hostess was ably assisted by Mrs. O. H. Warner.

Round-Up Special Carries Big Crowd.

The Round-Up special train which left Heppner last Friday night carried on board 85 Heppner passengers and before the excursion arrived in Pendleton 215 Morrow county people had filled the coaches. Ione and Lexington contributed a large number of the excursionists.

The number carried by the special however, was a very small part of the Morrow county crowd at the Round-Up, for there were hundreds of the visitors from here who made the journey over the Blue and Black Trails by auto.

Each year the Round-Up attendance from this county has been increasing and when good roads come to bless this section there will be a great deal more travel between Heppner and Pendleton and "Let 'er Buck" crowds will ever continue to grow.

One of the late additions to the Gazette-Times list is Frank Fox of Gooseberry.

Wm. Haylor local jeweler, is spending the week in Portland. In a card received from him, he states there is some Oregon Mist in the metropolis these days.

NEWS NOTES FROM NEIGHBORING CITIES

Cattle Brand Used.

For the first time, as far as can be learned, a cattle brand was used in Baker last night as an auto identification mark. Determined that his new machine should bear no ordinary monogram, J. W. Buckley of this city procured red paint and inscribed the symbol, which in stockmen's parlance is known as the "open A bar."

Hundreds of cattle in Grant county bear the same mark, for the brand is registered by Henry Trowbridge of John Day. He has authorized Mr. Buckley to use it on his auto, however.—Democrat.

Sanders Home Destroyed By Fire.

Last Saturday afternoon the Braun house just north of town occupied by J. F. Sanders, was totally destroyed by fire. A coal oil stove which Mrs. Sanders was using caught on fire and all efforts to extinguish the flames were unavailing. Not only was the house a total loss, but all the furniture clothing and other contents were also lost.

Mr. Sanders and family are now living at the E. M. Sanders home adjoining the Braun place on the east. Mrs. E. M. Sanders and mother are both away and likely will be all winter, thus providing a home for J. F. Sanders and family until other arrangements can be made.—Hermiston Herald.

New Cheese Factory For Stanfield.

Arrangements are rapidly nearing completion for the new cheese factory in Stanfield. A. Sahli, manager of the factory, has been in Portland and Seattle conferring with different firms to supply machinery, etc. and he has announced that the ground will be broken for the building within a very short time.

In the interim Mr. Sahli will open a cheese factory in the building at Main and Furnish avenue just as soon as the necessary vats, boiler and other machinery arrives.—Stanfield Standard.

Marking Black Trail.

Business men of Ione have arranged for the remarking of the Black trail thru Echo to Pendleton. They are trying to send the tourists this way instead of over the blue trail by way of Heppner, claiming that the latter route is so hard on cars and tires that it is not a practical road. The road was marked Monday from Ione to the Jarman place on Butter creek.—Echo News.

Judge Dodges Bad Trail

One of the judges of the Morrow county court and a garage owner from Lexington, came through Echo Monday enroute to Pendleton. The judge came over the black and white trail to inspect the route through Morrow county and incidentally to avoid the bad stretch of road between Heppner and Pilot Rock.—Echo News

Hiestand Moore took Mrs. Gamble to Heppner last Sunday to visit with her son for a few weeks. Misses Nettie and Mary Currin returned with him. Miss Mary left on an early train Monday morning for the school year at O. A. C. and Miss Nettie will visit Kate Moore.—Hermiston Herald correspondence from Butter creek.

Three cucumbers, each weighing 2 3/4 pounds, were brought in to the Standard office last Friday by George Riesling. The mammoth pickles in the crude resemble more in size, a small watermelon. They were grown on Mr. Riesling's farm below Stanfield.—Standard.

After visiting his property near Stanfield, Frank Salling county clerk, returned to Pendleton on Sunday. Mr. and Mrs. Harry Duvall brought Mr. Salling in from the Morrow county ranch Sunday afternoon.—Stanfield Standard.

Mr. and Mrs. Hugh Currin were in the Rock on Tuesday on their way to the ranch on E. Birch creek from their former home in Heppner. They were accompanied by Mrs. Currin's sister Mrs. Sam Nelson of Butter creek.—Pilot Rock Record.

Dr. Dorn and Mayor Smith drove to Heppner Tuesday.—Echo News.

Church of Christ.

Preaching Sunday at 11 a. m., Subject, "Much Prayer." Mrs. Frank Turner and Miss Newville will sing a duet at the morning service.

Subject for evening service: "A Contest of the Gods." Special music will be rendered by the choir.

M. Howard Fagan of Albany, with his wife as singer, have been chosen to lead the church in a meeting beginning early in January.

Three Sizes of BUICKS

this year

Five Passenger, six cylinder, 45 horsepower - - - \$1170.00

Five passenger, four cylinder, 35 horsepower - - \$785.00

These prices are F. O. B. Heppner

BUICK DESIGN

BUICK VALVE-IN-HEAD POWER

The rightness of the Buick Valve-in Head motor and not the enthusiasm of its salesmen has made the Buick conspicuous for leadership.

This new four has a Buick Valve-in-Head motor (with electric starter) which develops thirty-five horse power on brake test and is so reliable for rugged service that no eulogy is necessary among "men who know Buick."

Its lines are beautiful. Finish and color are exceptional. Deep, tufted black genuine leather upholstery. Covered floor and running board, with aluminum bindings, give a trimness of appearance that is peculiarly Buick.

Body, hood, fenders and running gear are painted a glossy, long-wearing black; wheels are black with white stripes. Tires 31x4 inches.
