If it would be necessary to take a kidney medicine again, I would use Doan's Kidney Pills, for I have always had a great deal of confidence in them."

HUGHES PITILESS ON MEXICAN DISGRACE

In His Mind and on His Tongue More Than Any Other Single Problem With Which Mr. Wilson Has Pattered.

Soon after Mr. Hughes was nominated a friend said to him: "Governor, if the American people forget the Mexican disgrace they do not deserve to have you for President." Quick as a flash he replied: "The candidate who dodges the Mexican disgrace does not deserve to be President." He did not pass around his address of acceptance for compliment or criticism in advance of its delivery but the amount of space he devoted to the Mexican disgrace—"that confused chapter of blunders"—surprised no one who had talked with him since his nomination. It has been in his mind and on his mind more than any other single problem with which Mr. Wilson has pattered. To talk with him is to see at once the reality of his indignation over the heartless manner in which American men, women and children, American citizens, soldiers and sailors have been abandoned by the Administration along and across the Rio Grande, the victims of Mexican armed forces, outfitted with American ammunition and American rifles, Mexicans whom Mr. Wilson has coddled one day as patriots only to chase the next as bandits.

It is apparently the belief of Mr. Wilson that the people of the United States are not interested in Mexico. His defenders have declared that it was an "old story and out of date." Mr. Hughes has a better opinion of his fellow countrymen. He has proved himself a better judge of their feelings. He has made "the Mexican disgrace" a foremost issue of his campaign. He has assailed the record of the Administration in that respect in almost every speech he has made. He has never failed to strike a responsive chord in the hearts of his audience, whether speaking in Carnegie Hall, New York, from the platform of his

train at Grand Forks, North Dakota, to a vast audience at Portland, at the Exposition at San Diego or in the prairie states of the Middle West. He has refuted the slander, sometimes heard in the effete East, that the people of the great West do not care what happens to their fellow citizens in Mexico or to the flag beyond the border. No man born in the West has a firmer faith in the fundamental patriotism and "dominant Americanism" of the people of that section than does Mr. Hughes. He holds them responsible in large measure for the encouragement and support he received while Governor of New York in his war upon political graft and political bossism. He thinks they had much to do with conscripting him as the champion of nationalism in the current campaign. He showed his confidence in their practical idealism when he made "the Mexican disgrace" an uppermost issue of his campaign. He has been vindicated by the response his arraignment of the Administration on this score has everywhere evoked. From Maine to California "the Mexican disgrace" is a sore subject with red-blooded Americans today. But nowhere between the oceans are the outrages inflicted in Mexico upon American honor, life and property more keenly resented than around the firesides of the great West. Mr. Hughes is no stranger to the West. His straightforward talk on Mexico proves it.
