Why Advertising in THE GAZETTE-TIMES Brings Results to the Advertiser—
Being the second of a series of advertising talks by the "Devil"
The Confidence of Its Readers.
There are many reasons why **The Gazette-Times** has gained the confidence of its readers. Among them are:
First—The conservative handling of news for over 33 years, and the ready correction of any errors that are made.
Second—The giving of all important news regardless of its effect upon the advertising columns.
Third—The belief that every newspaper should take a stand on every important issue brought before the people—and 33 years of acting on that belief.
Next week we will show why the field of **The Gazette-Times** is "virgin soil for the advertiser's statements where they will sprout and bring forth many sales."

Sale of Government Timber on West Fork Hood River.
Portland, Ore., Oct. 2 1916.—Official announcement is made today, by District Forester George H. Cecil that the successful bidder for 330,000,000 feet b. m. of timber on the West Fork Hood River, within the Oregon National Forest, was John W. Palmer of Hood River.

The area embraced in the proposed sale lies on the upper West Fork of Hood River, in T 1 s, Ranges 8 and 9 east, and T 1 s, Range 9 east, and includes about 7020 acres. The timber, which is medium size but ripe for cutting, is chiefly Douglas fir, the detailed estimate being 237,000,000 feet of Douglas fir, 58,000,000 feet of western hemlock, 18,500,000 feet of amabilis fir, 8,000,000 feet of western red cedar, 5,000,000 feet of noble fir, and 3,500,000 feet of western white pine, a total of 330,000,000 feet. This is the largest amount of timber in one body placed on the market in this District by the Forest Service for some time. It was cruised, mapped and appraised by the government foresters in 1915, and has been advertised for sale the past two months. The prices bid for the timber are the minimum prices named in the advertisement, viz. \$1.20 per M for Douglas fir, western red cedar and noble fir, \$2.50 per M for western white pine, and \$5.50 per M for all other species.

GOING UP.
When Europe said 'twas time to fight, and spat upon its hands, Little did we think the scrap would spread to other hands. We thought at least that Uncle Sam would hardly be effected. But say!—if we're not in the muss it looks like we're elected. To foot the bills for somebody, tho we don't shoot a gun; For I find we're payin' extra, payin' extra on the run. No matter what the store you're in, they tell you with a smile "This article is risin', and will be higher after while." I went into a notion shop on an errand for the wife, To buy a card of safety pins, to save the baby's life. The saleslady who waited, smiled gently as she spoke; "A quarter, sir; they were but five before the war-cloud broke." And then to buy some tooth picks I vainly did essay; The clerk he said that I must wait until another day—"This European war, ye know, has played th' duce with planks, And planks is what makes tooth picks. Thats all? Yes, sir. Thanks. Just yesterday I started to mow the grass out on our lawn. And found our mower busted by a neighbor who had gone. So I went to buy another ('nother mower, not a neighbor.)— This little speech the hardware man repeated for my labor; "Yes, the prices is some higher; but not nigh high enough— You see them there lawn mowers they is mostly painted buff; Well, the pigments what is in them paints we get across the ocean; A long time till we get some more—at least I hey that notion." I quit the store and straightway to the baker's shop did go—"Twas doughnuts that I needed, tho the baker kneaded dough. "Oer doughnuts they are not so good, but the price is twice as much. As they was before this war broke out twixt the English and the Dutch. You, see, we makes the doughnuts here, and we sells them by the pound, But we hev to send ti Yoorup for the holes they goes around." If you want a house that's built of brick, you're sure to find them higher; They burn them in a kiln—imported matches light the fire. Your harness and your saddle are like to cost you more— The needles used in sewing them come from a distant shore.
