Pledge Day is October 25.

University of Oregon, Eugene, Or., Oct. 23.—The pledge annually taken by University of Oregon students to repay to the state in good citizenship the debt that is incurred through the state's support of higher educational institutions will this year be read by Governor James Withycombe on October 25. The pledge will read as follows:

"As a student of the University, which is maintained by the people of Oregon, I heartily acknowledge the obligation I owe. The opportunity open to me here for securing training ideals and vision for life. I deeply appreciate and regard as a sacred trust; and do hereby pledge my honor that it shall be my most deeply cherished purpose to render as bountiful return to the Oregon people and their posterity in faithful and ardent devotion to the common good as will be in my power. It shall be the aim of my life to labor for the highest good and glory of an even greater commonwealth."

Governor Withycombe and Mrs. George T. Gerlinger, of Portland, the only woman regent, will be the principal speakers.

J. B. Sparks, local theatre man, has purchased a new Studebaker from Gilliam & Bisbee, the local agents. Mr. Sparks is an ardent Studebaker booster, having formerly been the agent here and during the past three years he has owned four or five cars of this make.

NORMAL REGENTS FAVOR MEASURE

BOARD MEMBERS ASSERT ON SCHOOL AT MONMOUTH CAN NOT SUPPLY NEEDS OF ENTIRE STATE.

Salem, Ore., Sep. 22.—The Board of Regents of the Oregon Normal School filed its final draft of a survey made of the Normal School condition to the State Superintendent of Public Instruction on Thursday. That the State of Oregon is sadly in need of an additional Normal School as is provided by the initiative measure creating such a school at Pendleton is recognized by the Board of Regents in their final report made after an exhaustive survey of the condition of the one present school at Monmouth. They recognize, too, in their report, that any new Normal School should be located in a town having public schools large enough to provide ample teacher training practice for the (teacher) students of the Normal.

"It is apparent to anyone who has studied the situation that there is need of additional Normal School facilities in Oregon; the Monmouth School alone cannot care for the number of students who desire to be or should be enrolled in Normal School within the next two or three years, and it will be necessary to send Oregon students to Washington and California for their training."

OFFICIAL PAPER FOR MORROW COUNTY.

Thursday, October 26, 1916

A DUTY TO OREGON.

No well informed person supposes for a moment that the full rental value land tax amendment that will be on the Oregon ballot this fall will be approved by the voters. Its chief purpose is to take the land of Oregon away from those who own it now and give it others, and the people of this state have no desire to Mexicanize themselves in this way. The amendment will be defeated, of course.

But it is not enough merely to defeat it. In order to preserve the good name of Oregon and assure better business conditions and greater development in the future it must be snowed under so deeply as to leave no doubt of the attitude of the people of this state on such freak measures. Prospective investors and homeseekers must be assured that they can come to Oregon without danger of having their investments confiscated.

Those of us who live here know that there is no prospect of confiscatory legislation like this being enacted. There have been really dangerous measures on the ballot at every election since the Oregon System was adopted and they have been uniformly swamped by the voters. But people living elsewhere among them prospective investors in Oregon do not know this. They see grab schemes on the ballot and jump to the conclusion that it is unsafe to invest money in Oregon.

This is unfortunate, but under our system of government there is no way to prevent the appearance of wild schemes on the ballot year after year. All that can be done is to snow them under so deeply as to convince the rest of the world that sanity and common sense rule in Oregon and that investments here are as safe as anywhere else.

FIRM POLICY PREVENTS WAR.

War is not necessary in order to maintain American rights, although the Democratic spellbinders who are now going about the country telling the people that "Wilson kept us out of war" would have them think so.

The war is not yet over, and the worst thing that could happen to us, from the standpoint of peace, would be to have our more years of the present Democratic administration, controlled by the present uncertain policies.

Four years ago the flag of the United States was honored and respected in every nation that borders on the Seven Seas. When our fleet sailed around the world it was not as big as some, but it ranked third in point of guns and A1 in the matter of marksmanship, which after all is the main thing in a naval battle. It commanded respect everywhere and so did American diplomacy.

If you want to know how it stands now, do not take Joseph Daniels' word for it, but read the papers from England, France, Germany and more especially from Canada and Australia.

The United States is cordially hated by the people of all these countries because we have not made common cause with them against "German militarism." All the aid we have given them in the way of money and munitions does not seem to count in the last analysis.

The blood of fathers and husbands and brothers in distant Australia is declared to be on the head of the Americans, who might have put an end to the war, it is said, if they had only "come in at the start."

International hatred breeds war. Our policies have estranged us from the central powers and have made us no friends with the allies. It is time to "swap horses" when the one you are riding gives out and one tried and true is at hand.—Portland Telegram.

The president himself has tried to appropriate for his own advantage the sentiment of "America first." The Democrats have tried to make his support an act of piety by adopting "Thank God for Wilson" as a slogan. Mr. Hughes with rare courage, frankness and penetration, is exposing the flimsy foundation for the claims of Wilsonian infallibility. He is laying bare a record of extravagance, partisanship, sectionalism, incompetence, wrongheadedness, vacillation and insincerity which destroys the attempt to make a joss out of the president. The Democrats must come out of their ecstatic trance and defend their stewardship. The President is to be put on the stump. We are to hear something beside Delphic prose poems.—St. Louis Globe Democrat.

Mr. Wilson now virtually admits that all his own ideas were wrong four years ago. He has changed his mind on every public question. On some of them he has changed twice or even three times. Even if his friends could satisfy the public at this time he is exactly right, what assurance could be given that he would be right a year hence?

Mr. Wilson refused to take the stump because "No President from Washington down has ever appeared as a campaign orator." In the meantime, Secretary Tumulty is busily arranging speaking dates for the president.
