NEWS NOTES FROM NEIGHBORING CITIES

Heppner Boosting Road With Grant County.

The Heppner people are anxious to have the John Day Highway designated as an official road.

C. E. Jones of Heppner is urging that a representative from Grant county be sent to Salem to work with them. In a letter to the Eagle, Mr. Jones says:

"It is likely that the Legislature at the present will authorize the location of several State Highways.

"And as the Lincoln Highway will surely come through Ontario we are making an effort to get this greatest of all Highways located from Ontario via John Day, Prairie City, Hamilton, Monument, Hardman, and Eightmile to the Columbia Highway at Blalocks. This would be a direct route and could be put through on easy grades and would be second only to a railroad to the county traversed, and by hearty co-operation we stand a good chance to get it.

"There will be a man at Salem to work for this and we would like the co-operation of your town and community in this effort.

"If you are not able to look after this matter yourself, please give this to the best booster in your town and let me hear from you or him as soon as possible."—Blue Mt. Eagle.

New Store Started.

A furniture store, dealing in second hand furniture of all kinds, was started here this week by M. Ashbaugh and Vance Jones, of Walla Walla. A carload of furniture arrived Tuesday for the new store, and more will be shipped in as needed. The lower floor of the Esteb building on Main street has been rented and is being renovated throughout for the store. The sales room will be repapered and painted, and the room in the rear will be used as a shop for repair work.

Mr. Jones will remain here and conduct the business, and Mr. Ashbaugh will return to Walla Walla as soon as the Echo store is started. They have a large establishment of this kind in Walla Walla.—Echo News.

Western Umatilla county will cooperate with Arlington and the communities of northern Morrow county in influencing the state highway commission to locate the Columbia highway up the Columbia river and thru Pendleton via the towns of Umatilla, Hermiston, Stanfield and Echo.

A meeting of the members of the Hermiston and Stanfield commercial clubs was held at the latter place Thursday afternoon, and the matter was fully discussed. It is proposed that a joint committee from the West End towns work in conjunction with the Arlington committee, which has already waited upon the highway commission.

The logical route for the Columbia highway from The Dalles into Umatilla county is the route which is proposed along the river. It is more scenic than the inland route and will take the tourists through a country more diversified in its products than the other route will. It is said it will be much easier to build and maintain the river road, as plenty of material will be close at hand.—Stanfield Standard.

Ford-One-Ton attachment—E. H. Kellogg is the Morrow county agent. See the truck on the streets, doing daily demonstration work.

LOST—A light brown fur neck piece between South Methodist church and postoffice. Finder please leave at this office.

The Kellogg Motor-bus is equipped to carry passengers on any part of the country at any time. Call Main 163.

Mr. Rivers will have the agency for the Paige motor car, besides being prepared to turn out first class repair work.

"SIN."

"You cannot sin by two and two
 And settle one by one"
 Thus is it writ and so shall be
 Till the set of earth's last sun
 For Sin is sweet, and vows are frail
 As the Stars of a tortured night
 That lingering look on the sullen dawn
 Ere they sicken and slink from sight.

Black Sin has patted God on the head
 That woman might call him brave
 But the deep-bit brand on his crimsoned hand
 Not the seven Seas shall love.

And when husked lives are ranged in rows
 At the trump of the Judgement Day
 They shall cry "The soul that he got from God."

He has bartered for woman's clay,
 And the winds that blow between the worlds.
 And sound the deeps of space
 Shall mock the tears of the fool who died
 For a woman's lying face.

BUICK DESIGN

BUICK VALVE-IN-HEAD POWER

The rightness of the Buick Valve-in-Head motor and not the enthusiasm of its salesmen has made the Buick conspicuous for leadership.

This new four has a Buick Valve-in-Head motor (with electric starter) which develops thirty-five horse power on brake test and is so reliable for rugged service that no eulogy is necessary among "men who know Buick."

Its lines are beautiful. Finish and color are exceptional. Deep, tufted black genuine leather upholstery. Covered floor and running board, with aluminum bindings, give a trimness of appearance that is peculiarly Buick.

Body, hood, fenders and running gear are painted a glossy, long-wearing black; wheels are black with white stripes. Tires 31x4 inches.
